

# ARHIVA I.N.G.G. „ANA ASLAN”. NOUA ZEELANDĂ (serie). MEDICI (sub-serie). DOSAR (R-V)

---

Documentele au număr de înregistrare primit la INGGAA.

Conține scrisori din decadele '60-'80.

Limbi : engleză, franceză, germană, română.

Documentele au fost ordonate alfabetic.

Scrisorile sunt manuscrise și dactilografiate.

Majoritatea scrisorilor sunt grupate pe corespondența dintre medicul respectiv și INGGAA sau între firme și INGGAA.

Hârtie de diferite dimensiuni și compoziție, inclusiv file de rețetar, 2 aerograme, 3 telegrame.

Conținut:

Corespondență între medicii din Noua Zeelandă și prof.dr. Ana Aslan, ca reprezentant INGGAA. Dosarul conține și corespondența unor medici care au fost internați, precum și corespondență cu persoane particulare (pacienți).

Redirecționări de scrisori de la pacienți, intermediare de medici, scrisori de la diverse firme de produse medicale sau alte instituții (Australia and New Zealand Bank Limited), 1 raport medical (copie și original), anulări de programări în clinica INGGAA.

Medicii și firmele de produse medicale solicită informații referitoare la produsele medicale și la tratamentul, achiziționarea produselor INGGAA, formula produselor INGGAA, scheme de tratament.

Majoritatea scrisorilor trimise de către pacienți sunt adnotate la începutul scrisorii, partea de sus, sau subsolul scrisorilor, de către Institut – rezumat al solicitărilor din scrisori sau al răspunsurilor ce urmau a fi date. Sunt prezente adnotări anexate scrisorii originale. Unele scrisori au atașate și traduceri (din engleză).

Sublinieri operate de reprezentanții INGGAA.

Scrisorile de răspuns conțin semnătura, în original, a prof. dr. Aslan sau, în absența acesteia, a reprezentanților INGGAA.

Conține o vastă corespondență cu R.M. Forbes, în calitate de pacient internat la clinica INGGAA.

August 11th,

87

No.1308

Dr. W.Y. Rambukwelle  
169 Don Street  
Invercargill  
NEW ZEALAND

Dear Dr. Rambukwelle,

I received your letter and I have to inform you that K.H.3 is an imitation product after Gerovital H3.

If your patient is interested in our product, he may order it directly to CHIMICA, our Enterprise for Foreign Trade (Export 16 Department -- PHARMACEUTICALS), Splaiul Independentei Nr.202 A, Bucharest, Romania.

For your information I send you enclosed an abstract from International Handbook on Aging CONTEMPORARY DEVELOPMENTS AND RESEARCH, edited by Erdman Palmore in U.S.A. in 1980. Under separate cover I shall send you the book GEROVITAL H3 edited by our Ministry of Chemical Industry in 1977.

I shall be glad to send you any further information you might require.

Yours sincerely,

  
Acad.Prof. Ana Aslan, M.D., D.Sc.  
General Director

Dear Sir,

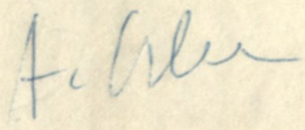

Thank you for your letter and for your interest concerning our work.

For your information I am sending you herewith a reprint in which you will be able to find all necessary information regarding our method of treatment with Gerovital H<sub>3</sub>.

Should your patient wish to undergo our treatment I inform him, that he can be supplied with Gerovital H<sub>3</sub> by CHIMIMPORT, the Rumanian exporters, Bl.Republicii nr.10, Bucharest.

With best regards,

Sincerely yours,

Prof. Anna Aslan, M.D.  
Director, Geriatrics Institute  
Bucharest

3 December 27

Dear Sir,

Thank you for your letter and your kind interest concerning our work

I am interested to hear you intend to apply our therapy to your patients and I will be glad to give you whatever information you might wish to have.

In answer to your question concerning the 62 years old patient with arteriosclerosis I inform you that long term treatment with Gerovital H3 reduces hardening of the arteries and diminishes reigidity of the vessel walls, thus appearing as a fighting agent against arterio-sclerosis. In arteritis Gerovital H3 injected intra-arterially produces dilatation of peripheral vessels. The injections should be given alternately, twice a week in the femoral arteries (right and left), with the third injection intramuscular in between. After the first course of intra-arterial injections, intramuscular injections can be continued alone, according the here-enclosed directions.

For your information I am sending you also a reference list of our works in case you would like to consult some other works too.

As regards the way of obtaining supplies of our drug I enclose cost and way of payment.

With best wishes, I remain,

Yours sincerely,

Prof. Anna Asl M.D., D.Sc.  
Director, Bu est Insvitute  
of Ge trics.

Dear Sir,

I have received your letter and thank you for your interest concerning our work.

I am glad to hear you intend to apply our treatment with Gerovital H<sub>3</sub> to your patients and inform you we have obtained favourable results in degenerative conditions of the eye. A number of foreign specialists have performed successful investigations in this matter.

Our preparation "Gerovital H<sub>3</sub>" is a 2% solution of procaine, pH 3,3-4, buffered and stabilised according to our own procedure. The solution is also potentiated by certain oligo elements which increase efficiency on the nervous system.

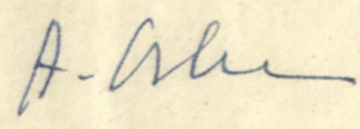

For your kind information I send you herewith a reference list of our publications as well as a list of foreign confirmations of our method.

I should greatly appreciate it if you would send me your observations concerning the results obtained with our treatment.

With best regards,

Sincerely yours,

Prof. Anna Aslan, M.D.  
Director of the Geriatrics Institute  
"Bucuresti"

Monsieur le Docteur et cher Confrère,

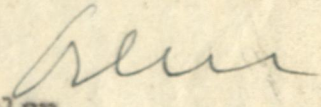

J'ai reçu votre lettre du 25 juin.a.c., et vous remercie pour l'intérêt que vous manifestez à l'égard de nos travaux.

C'est avec plaisir qu je vous envoie quelques tirés-à-part, seuls/disponibles chez nous à l'heure actuelle. Dans la Bibliographie ci-incluse vous trouverez mention des autres travaux effectués dans notre Institut et qu'éventuellement vous pourriez vous procurer directement chez l'éditeur.

Je vous serais très obligée, au cas ou vous appliqueriez notre traitement à vos patients de nous en informer aussi, car nombre de vos compatriotes nous demandent l'adresse d'un medecin connaissant cette therapie.

Si, à la suite de nos informations vous désiriez quelques éclaircissements supplémentaires je vous prie de vous adresser de nouveau à nous.

Veillez agréer, cher Docteur, l'expression de mes sentiments les meilleurs.

Dear Sir,

I am writing you at the request of your patient Mr. Neil M. Murray who is suffering from angina pectoris and would like to undergo our treatment with Gerovital H<sub>3</sub> if this is recommended in his case.

Gerovital H<sub>3</sub> has a vasodilator action and many favourable results have been obtained in cardio-vascular diseases after a prolonged treatment with our drug. It is recommended in the prevention of vascular spasms, angina pectoris, sequels of myocardium infarction.

According to this I should suggest to apply our treatment to Mr.M.Murray and in this respect I am sending you herewith a reprint in which you will be able to find further details in this field.

Should you need any further details about our treatment please write again I shall answer it immediately.

With best regards,

yours sincerely,

Mrs. Peggy C. O'Hara, M.C.S.P.  
c/o Physiotherapy Department  
North Shore Hospital  
Auckland - N. Zealand

---

Dear Dr. O'Hara,

Thank you for your letter and for your interest concerning our work.

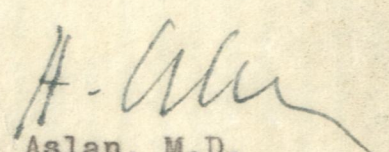

In answer to your request, I consider that a treatment with Gerovital H3 ~~could have a favourable influence upon your general condition and you could undergo it up to the 6th month of pregnancy and resume it two month after the birth of the child.~~ At your age it should be considered a prophylactic treatment and should be applied at the rate of 5 series of injections during one year, according to the enclosed directions.

I am also sending you a reprint and a reference list of our publications.

Gerovital H3 can be ordered directly from "Chimimport", 10 Bulevardul Republicii, Bucharest; the cost for 24 ampoules being US \$ 10.- to which \$ 9.- should be added for postage fees up to a parcel of 1 kg.

Should you decide to undergo the treatment, please keep me informed about your observations, I shall remain at your disposal for any requested medical advice .

Yours sincerely,

Bucharest.

Dear Professor Adam,

I am writing to you in my capacity as a Chartered Physiotherapist having qualified in London in July 1955.

I have just read with great interest an article on your H3 formula and it is with two reasons in my mind that I take advantage of your offer of information re your H3 formula.

My first reason for asking is that in the course of my work I am aware of the benefits that your formula would give.

My second reason is a more personal one. I am nearly forty years old and, having recently married, desire to remain young and active for the benefit of my coming baby.

As I have recommended Vitamin E treatment with some success I look forward with anticipation to applying your formula

wishing you the worthy recognition that your work deserves.

I am,

Yours truly,  
Peggy C. O'Hara.

Dear Professor Aslan,

I was very impressed with an article I read in the N.Z. Woman's Weekly, about your wonderful drug H.3. and although considered extremely active for my age (65) I would like to carry on my work of healing the sick for some time yet and as it says on page 54 that you would be only too happy to give the formula to any one, I am taking the liberty of asking you to let me have the formula for my own private use.

If as the article says, you have found something to help people enjoy a useful life a little longer then you have indeed given the world something of which you might justly be proud.

Should you ever come to this little Country of our I should consider it an honour to have you as our guest.

Yours sincerely,

*A. J. Pascoe*

Dear Sir,

I have received your letter of 23.V.962 and thank you for your interest concerning our work

I am glad to hear you intend to use our therapy with Gerovital H3. This drug is a 2% solution of procaine, pH 3,3-4, buffered and stabilised according to our own procedure which is the object of a registered trade mark. It contains oligo elements which give the solution a greater efficiency on the nervous system.

For your information I am sending you herewith some reprints together with a reference list of our works. Some of our papers have been translated and published in the U.S.A. and are available there.

As regards the efficiency of our treatment this depends on the drug which is used. Gerovital H3 has proved more effective than other procaine solutions during comparative experiments.

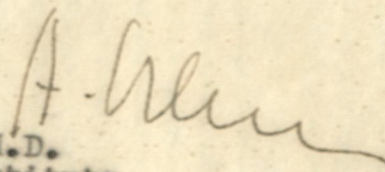

Supplies of our drug can be obtained either from the Rumanian exporters CHIMIMPORT, Bucharest, Bld. Republicii 10, or from the representatives of the drug abroad:

1. R.E. Pharmaceutical Ltd., Hanover House, 73 High Holborn, London S.W.1;
2. "The Continental Commercial and Financing Comp.", Amsterdam Z, Stadhouderskade 51, Netherland;
3. "The Continental...", Essen/Ruhr, Rüttenscheiderstr. 63, West Germany.

It will be a pleasure for me to cooperate with you in view of introducing our method of treatment in your country and will be glad to furnish whatever information you might require concerning our work.

With best regards,

Sincerely yours,

  
Prof. Anna Aslan, M.D.  
Director, Geriatrics Institute  
Bucharest

March 26 9

5822

Dear Doctor Sherer,

Thank you for your letter of February 22nd. I am answering your questions, as follows :

- 1/ 2 percent procain should be used. In the absence of H<sub>3</sub>, it would be advisable to use the novocain solution of Hoechst (Federal Germany) which has given the most satisfactory results among the different existing solutions. A half-hour's rest should be observed after the injection, to avoid eventual dizziness - which does not occur when H<sub>3</sub> is used.-
- 2/ Intolerance is of 1 per 2.500.- A preliminary test for allergy should be done before starting the actual treatment: 1 cc. subcutaneous - first day. 2 cc intramuscular - second day. If no allergic phenomena occur, the actual treatment can be started - 5~~2~~ cc, three times a week until the completion of a series of 12 injections. Follows a 10-day interruption and then another series of 12. So on. There are no side-effects and we have never registered any accidents. Relapse does not occur.
- 3/ The treatment is applied in old age and for the prevention of early processes of aging. In old age: 8 series a year. Preventively: 4-6 series.
- 4/ As above.-
- 5/ Electro-cardiogram before treatment is not necessary. No effects

February 22nd 1.

Dear Professor Aslan,

A patient of mine has recently dr  
attention to the work of your Institute in the use of  
or as a substitute 2% Procaine, in the general treatment of  
elderly people.

I have seen your letter of January 22nd  
1958, to Mr Lissienko, of Wellington, also the details of the  
treatment in the addendum to your letter to him.

One or two Physicians in this country  
have begun to use the treatment, but results are not yet  
substantial enough to base any opinions on.

Several points occur to me, and I would be  
grateful for your opinion:

1) Is Xylocaine (Lignocaine, or Lidocaine)  
in 1% solution as effective as 2% Procaine. If so what dose  
would you use?

2) Are there any specific contra-indications  
to the treatment? Are there any tests you would do in advance to  
see if treatment is contra-indicated; or conversely, on what  
basis do you assess cases as fit for treatment?

3) In general, what type of cases do you  
select for treatment, and in what conditions do you expect to  
see the best results?

4) How long do you go on with the courses of  
12 injections, with the 10 day rest between? Do patients relapse  
if treatment is stopped?

X 5) Are there any effects on the heart? Do  
you advise an electro-cardiogram before treatment?

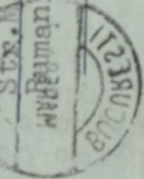

6) Can you give me any reference, preferably

BY AIR MAIL

In the English literature, but if not, in German, which I could  
get translated, or likewise Russian.

7) Are there any objective criteria by which one can assess  
the effect of treatment. I have seen patients who have had  
intra-venous Procaine for Frozen Shoulders feel much better generally,  
certainly with an associated Euphoria. But if there is any objective  
method of assessing improvement, I would be glad to know.

8) Can you inform me of the theoretical background for  
the success of the treatment.

9) Is it likely to be available outside of your  
country, for treatment of patients.

I thank you in advance for your trouble, and courtesy  
of your reply, and send you fraternal greetings from a co-professional  
in New Zealand.

With kindest Regards,  
Yours very sincerely,

C. B. Sherer.

30th March, 1967

Professor Anna Aslan, M.D., D.Sc.,  
Director,  
Institute of Geriatrics,  
BUCHAREST,  
RUMANIA

Dear Professor Aslan,

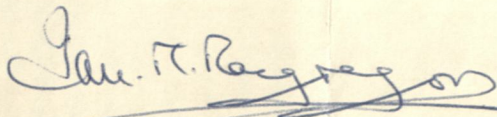

Thank you very much indeed for your kind letter in reply to my enquiries concerning your "Gerovital H3".

As you state, one of my chief difficulties will be to obtain permission from the authorities in New Zealand to import supplies; and to gain this permission I will obviously have to have a strong case to put forward.

For this reason, before considering approaching the authorities in this country, I am awaiting the arrival of the reprints, references and investigations carried out in different countries with your method which you say you have so kindly forwarded to me by surface mail. Unless I am well informed on the subject I feel it is unlikely that I shall be able to persuade them to purchase "Gerovital".

Thank you once again for your prompt and ready help in this matter, and should I eventually be able to undertake a clinical trial I shall certainly write to you again.

Yours sincerely,

Ian M. Macgregor,  
Medical Superintendent.

26th January, 1967

Professor Anna Aslan,  
Institutul de Geriatrie,  
Bucharest,  
RUMANIA.

Dear Professor Aslan,

Re: Drug H3

Firstly I must make some form of introduction, since I am writing to you as a complete stranger.

I am the Medical Superintendent of a 250 bed Geriatric Hospital in Wellington, New Zealand; and specialise in geriatrics. My reason for writing to you is because I am very interested in your substance which you call H3. The reason why I am interested in it can hardly require enlargement, in view of the nature of my position in New Zealand.

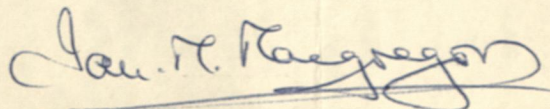

I would be most grateful if you would be prepared to let me know the true nature of this substance and where I could possibly obtain some for clinical trials and personal observation. Does the factory, which manufactures the drug in Rumania, export it? If not I am not at all sure how one could arrange payment for supplies direct from your country.

I would be most interested to read any papers you may have written about your drug, and to learn the dosage regime usually employed, should you have any copies of translations available. Failing this, I might be able to obtain copies to study in New Zealand, through our Medical Association Library, if you would be good enough to let me have the appropriate details of reference.

My attention has been drawn to your drug by an old medical colleague of mine who read an article concerning it in an old copy (1963) of The English Digest. Being now an elderly geriatric patient herself, she wrote to me to ask whether I knew anything about your drug, and whether I could recommend it. I was ashamed to have to admit that I had not seen the article and knew nothing whatever about the drug referred to. I then immediately started this letter to you in the hope that you would be willing to fill up yet another hole revealed in my professional knowledge.

I sincerely hope this letter will not be too great a nuisance or inconvenience to you.

Yours sincerely,

Ian M. Macgregor,  
Medical Superintendent,  
Silverstream Hospital,  
WELLINGTON, NEW ZEALAND.

Mr. Ian M. Macgregor  
Medical Superintendent  
Silverstream Hospital  
Wellington  
New Zealand

Dear Mr. Macgregor,

Thank you for your letter and for your interest concerning our work. It would indeed be interesting if you were able to organize treatments with our drug (Gerovital H3) in your hospital. The product is exported by the Rumanian State Company for Foreign Trade "Chimimport" (10, Bld. Republicii Bucharest). Licence rights for manufacture in other countries are handled by another Company, "Industriaexport" (2, str. Gabriel Peri, Bucharest).

If you wish to import supplies from Rumania - or from one of the distributors in Europe as mentioned in enclosure - I think you must first be assured of getting the necessary permits from your authorities. I do not know the regulations in this respect in your country, as they vary from one place to another.

I am including some general information and sending you a series of reprints by surface mail, together with references and a list of investigations carried out in different countries with our method.

If you are able to make the necessary arrangements and decide to undertake a clinical trial or to apply the treatment more extensively, please let me know and I will gladly give whatever further information or advice you might require.

Yours sincerely,

A. Aslan

Dear Doctor Simpson,

I have received both - yours and Mrs. Goldenberg's - letters and apologise for this delayed answer but I was away from Bucharest for a rather long while.

I am glad to hear you intend to apply our treatment to your patients. In our Institute we are using our own drug Gerovital H3. Geriform, mentioned in your letter, has another composition than our product and it never has been experimented by us. I am therefore unable to inform you about its efficiency. Gerovital H3 is exported to foreign countries and can be obtained through the Rumanian exporters CHIMIMPORT, Bld. Republicii nr. 10, Bucharest, to whom you may address your order directly. I enclose herewith the cost of our drug and the way of payment.

For your kind information I am sending you herewith a reprint and a reference list of our works.

If you wish to have further details about our therapy please write again I shall gladly answer any questions in this respect.

Yours sincerely,

Prof. Anna Aslan, M.D., D.Sc  
Director, Geriatrics Institute  
Bucharest

A<sub>1</sub>-3388/25-

Mrs. H. Goldenberg

3

December

24

Dear Mrs. Goldenberg,

I have received your letter and Mrs. Simpson's as well to whom I answered by the same mail, sending the requested literature and information.

I was interested to hear that the distinguished researcher Dr. Goldenberg was your husband. I quite understand how difficult it was for you to leave Vienna but certainly you found a real support in your new country.

In the hope that I could be helpful to you and Dr. Simpson, I remain,

Yours sincerely,

A<sub>1</sub>-3388/63

Dear Professor Aslan,

Geriform was much discussed and never has there been an earnest attempt to import, or even try the product. N.Z. Has so many old people that it is disturbing. Dr. Dorothy Simpson, an old friend, who used to work with me in the Health Department is now a general Practitioner and could I hope do some useful work here. Kindly write and tell her who is the nearest agent. And if you can advise her on relevant literature.

I am an old nearly 60 year old nurse from Vienna. The sad story of so many of my kind is not new to you. I am now alone <sup>and</sup> trying to work at my specialty Orthoptics. A little support <sup>here</sup>.

Dr. Marcel Goldenberg who found Noradrenaline was my husband <sup>and</sup>.

This is only a form of introduction to somehow prove to you that the request from Dr. Simpson is genuine interest in H.3.

With my very best wishes for your success, remain

Yours sincerely

C-X. Haus

Do not trouble about my letter I hoped it will support the enclosed request a little and I wrote this in such a hurry, forgive me please.

RUMANIA PEOPLES REPUBLIC.

Dear Sir,

Could you please forward to me any available literature etc. that you may have regarding the use of H.3. I have for some years been researching into arthritis and joint inflexability, but although I have studied reports of a number of reputable writers, I have not as yet come up with anything spectacular.

Although medical scientists here in New Zealand are experimenting with various drugs etc., the results have not been overwhelmingly dramatic.

I have found that a phosphoric acid and alkali phosphate combination composed of ortho phosphoric acid, calcium and manganese in powder form for correcting the phosphate deficiency resulting from too little of the cereal Phytates in the diet seems to be quite good for muscle and joint stiffness, myositis and pre-arthritis syndromes, etc. It does appear possible that manganese glycerophosphate 140 M.G. six times daily could be the answer. However, such substances are expensive and difficult to obtain.

I would appreciate anything you can send and any lead you can give me on the treatment of osteoarthritis, joint inflexability, etc., etc.

Would you kindly send your reply by airmail as seamail is so slow between our two countries.

Thanking you for a reply,

Dear Sir !

Referitor la : I have received your kind letter of the 3rd October and thank you for your interest concerning our work.

I was glad to see that we are working in the same field of activity and am ready to give any information required.

Old age, its treatment and prophylaxis are indeed the chief objects of the researches carried out by our Institute according to a method of our own, and using a special product. This product is a 2 % solution of Procaine, buffered and stabilised according to our own procedure, with a pH between 3,3 and 4. It makes the object of a registered trade mark under the name of Gerovital H3.

This product is not used only on senile patients or to prevent old age, but also in the following affections : cerebral and peripheral arteriosclerosis (arteritis); Parkinson's disease; vasospasm, angina pectoris (sequelae of myocardial infarction); post hemiplegic sequelae; degenerative rheumatism (arthrosis); neuritis; neuralgia; trophic disorders; dystrophies of the skin, nails and hair (neurodermitis, eczema, alopecia, psoriasis, vitiligo); scleroderma; bronchial asthma; gastric and duodenal ulcer; troubles of the nervous system.

Favourable results have been obtained also in arthritis and osteoarthritis with a prolonged treatment of Gerovital.

I enclose herewith a reprint in English and a reference list of our works that you could eventually obtain directly from the publishers.

Gerovital H3 is now exported to different countries. Supplies can be obtained from the Rumanian exporters CHIMIMPORT, 12 Strada Doamnei, Bucharest.

Would you bring to our knowledge the results obtained in case of application of the treatment ?

With best regards,

Sincerely yours,

Prof. Dr. Anna Aslan

Dear Professor,

I have recently read a book by an English journalist, Olga Franklin about your treatment of ageing by the drug you call H.3. I would like to treat myself with your drug and have written to the drug firm Ghimimport mentioned in Olga Franklin's book to ask if they will supply me with the drug. However I may not be allowed to send money to Rumania from New Zealand. Could you please give me names and addresses of drug companies in other countries who could supply your drug?

If I am unable to buy the drug from other countries there are drug manufacturers in New Zealand who are prepared to

make the drug for me from the prescription  
in Olga Franklin's book. Do you recommend  
this?

In the meantime for the past three weeks  
I have been treating myself with 2% isotonic  
procaine.

I remain,

Yours faithfully,

Peter C.M. Sparrow

Dear Doctor,

I have received your letter and in reply to your questions I am giving you herewith the following information :

Our treatment which is used to fight against old age phenomena would not fail to exercise a favourable influence in your case. As you intend to apply the treatment with Gerovital H<sub>3</sub> to your patients I am sending you some reprints of our works in which you will be able to find the necessary details concerning the researches carried out in our Institute and its results.

As regards the product Gerovital H<sub>3</sub> it is manufactured according to our own procedure and formula in Rumania and exported to different countries. No licence of manufacturing it abroad has been granted so far. If you wish, you can obtain supplies from the Rumanian exporters CHIMIMPORT, Bld. Republicii nr. 10, Bucharest.

With best regards,

Yours sincerely,

  
Prof. Anna Aslan, M.D.

Dear Professor,

I have been extremely interested to read recently in one of our New Zealand Weekly Magazines, an article regarding your wonderful work of healing with the drug H.3. I also read in the article of your kind offer to let other medical men have the formula of H.3, and as a qualified Physiotherapist I am wondering if you would be willing to send your formula to me.

I have had heart trouble myself for sometime and am therefore interested in the drug H.3 for myself as well as for helping other people.

Awaiting your reply,

Yours faithfully,

*T. G. Walker.*

Dear Mr. Harvey,

I have received your letter and I am glad to have so good news about your health.

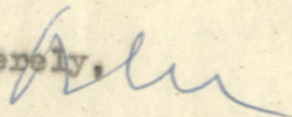

Inquiring at Chimimport they informed me that they did not receive money from you, so they could not send you the medicine Gerovital H3.

Herewith enclosed the addresses of the distributors of Gerovital H3 in Europe where you can obtain the Rumanian original product.

Unfortunately, I am not able to solve commercial problems our Institute being a medical research institution. All commercial matters are handled by Chimimport, Bul. Republicii 10, Bucharest.

With all best wishes,

Yours sincerely,

  
Prof. Anna Aslan M.D., D.Sc.

Dear Professor Belan -  
I have been having injections of Cerovital H3 for arthritis of the  
hips. These have been of considerable benefit.  
Fortunately, I am no longer able to get supplies from Ireland.  
If it is necessary to continue these injections, could you arrange for  
supplies to be sent from Bucharest? I need one box of  
injections every two months.  
My regards to Dr. David, Mr. Casagi and yourself.

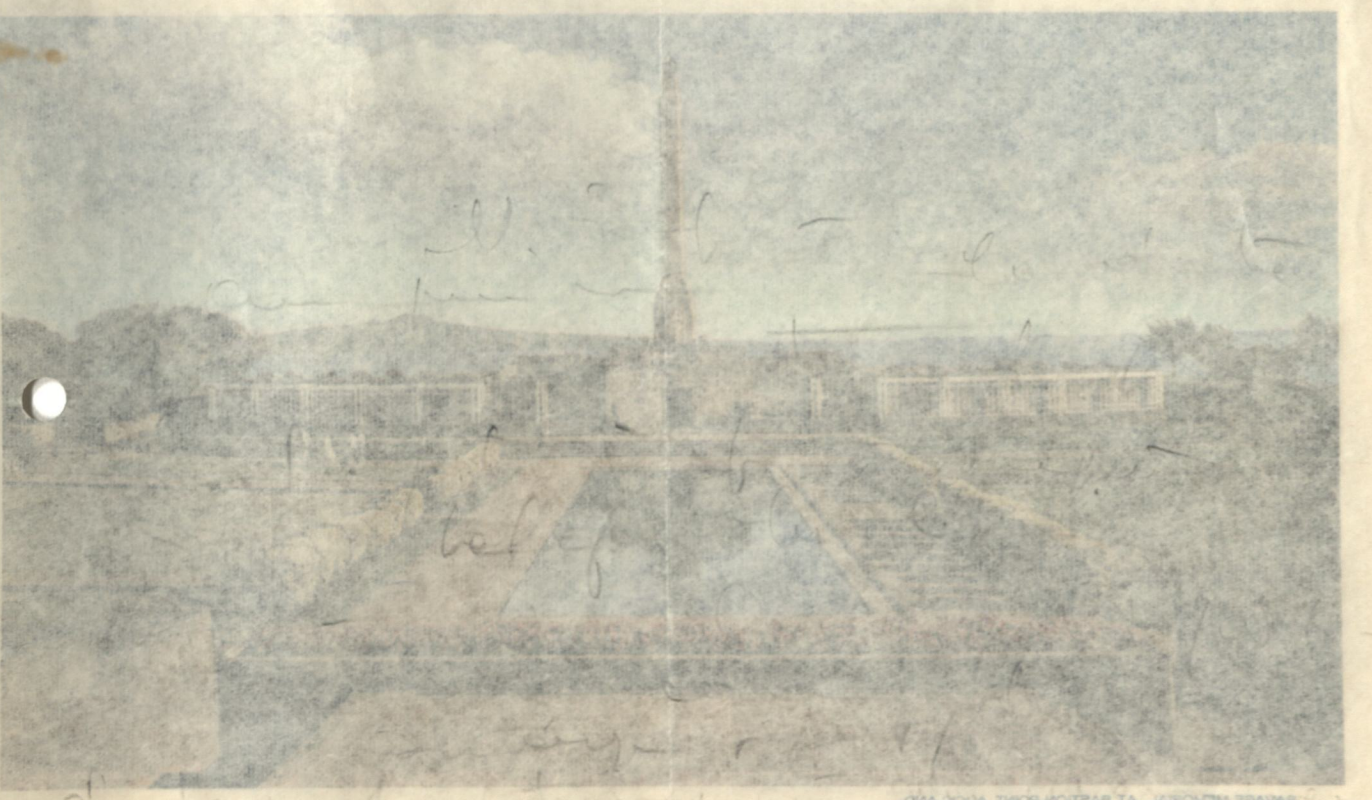

Edward Harvey.

Sept. 9th, 1961

Dear Friend -

Since leaving Rumania, I have travelled through Europe, first to Denmark, then Switzerland, then Holland and, finally, England.

In the meantime, I have secured a supply of H<sub>3</sub>, but only after some difficulty, I have even had trouble trying to find a doctor who would give me the injections. The first one refused to give them and sent me to a hospital. As this was a waste of time, I went to a local clinic where one of the doctors told me that they did not believe in H<sub>3</sub>, but said that if I thought the injections were beneficial, I could have them. I have therefore arranged to have them.

I would like ~~to return~~ to return to Rumania, but owing to the attitude of the authorities, and of tourist agents, it will not be possible to do so. All they seem to think of is money and regulations, which is not the way to peace and friendship.

With Regards to All,

*Edward Harvey*

Mrs. Ilma Tuckett  
76 Kildare Ave.  
St Heliers Bay  
Auckland  
New Zealand

Dear Mrs. Tuckett,

I am glad to have news from you and to hear that you are well, and continue the treatment. KH3 is an imitation product which - I was told by the patients - is not as effective as Gerovital H3. I shall ask the Romain exporters Chimimport of Bucharest, Blvd Republicii 10, if they are able to send you the medicine as requested.

As regards your wish of having Olga Franklin's book I am unfortunately unable to satisfy your desire possessing myself only one copy sent to me by the author. I am sending you herewith another enclosure (one of my works) with a few words for you.

Chimimport informed me that they can send you the pills if you give them an address in your capital Wellington where you have an airport. When you send the money by cable write them directly giving them the address in Wellington.

hoping to hear from you again, I remain

Yours sincerely,

Prof. Anna <sup>Aslan</sup> MD, DSc.

411  
76 Kildare Ave.  
St Heliers Bay  
Auckland  
New Zealand.  
9/1/70.

Dear Pro Anne,

I am writing to you, in the hope of getting a copy of your work written by Olga Franklin I have read a copy, lent to me by a friend and I would like to have one of my own. and if you could write something in it for me I would be thrilled.

I also would like Two(2 years) years supply of PILLS, as I have some of the Intramuscular injections, and they are quite expensive when a doctor has to inject them. besides I have been on K.H.3 for a few years which is better than nothing you can get the K.H.3 from Australia quite easily, but I do not think they are as good as the ones I get from you. anyway I would like to have some from you

Would you mind answering this letter, and letting me know just how much money I would have to send to you, as I can have my bank send the amount as soon as I hear from you.

I am very well and thank you very much for your treatment because it does keep you in good running order.

Hoping to hear from you by return mail.

Yours faithfully,

Alma M. Tuckett.

76 Kildare Ave.  
St Heliers Bay,  
Auckland  
New Zealand.

Dear Prof. Anne Alsan,

This is just to let you know that I have received the consignment of Gerovital H3 that was sent in error to AUSTRALIA instead of to NEW ZEALAND. I think that I was very lucky to receive it so soon however I was also disappointed that the Gerovital H3 was not in Pill Form because I asked for them to be as I have wanted to try them in Pill Form for some time now. would you please let me know how much I would have to send you so you could let me have a years supply of Gerovital H3.in Pill Form. I have been having FOUR BOXES OF TWELVE INJECTIONS A YEAR and I feel wonderful. so if you could let me know as soon as you can I will send over the money.

Thanking you for past favours.

Yours faithfully,

(Mrs) Elma. Tuckett.

Dear Mrs. Tuckett,

I am so very pleased with the good results you are obtaining with our treatment. It is so wonderful for you to be able to work and do so many agreeable things, and so interesting.

As you did not inform in due time the exporters Chimimport on your wish of having pills instead of ampoules, they have sent you on the loth of March, vials for the amount of \$20.39.-- airmail fees included. Next time when you order the medicine do write them directly indicating the exact quantity and form you wish to have it.

Hoping to hear from you soon, I remain

Dear Prof. Anna,

I am sorry that I have to write to you again concerning the money that I had my Australain Bank send to the State Bank of Rumania for a course of pills in the place of the injections. My bank sent the money over to the bank last November, and since then I have not heard anything from you although I have written to you .

My bank is now making inquires as to what has happened to the money, I still want the pills as soon as you can send them. by air mail . I have been having injections since 1960 and feel very well so I think the pills should be good for me as I will not have to have the injections all the time.

Thanking you for past favours, and hoping you are well.

*Warmest Regards (Mrs) Ilma Tuckett*

Dragă Profesor Aslan,

Acum cîtva timp v-am scris pentru a vă întreba dacă ași putea face tratamentul cu GEROVITAL H3 oral, deoarece găsesc injecțiile cam scumpe, iar dumneavoastră mi-ați răspuns afirmativ.

Fac de cîtiva ani tratamentul cu injecții pe care le găsesc minunate, nu numai că mă fac să arăt și să mă simt cu ani mai tînără, dar am început o nouă viață făcînd toate lucrurile pe care ani de-a lungul am dorit să le realizez.

Doresc doar ca noua mea carieră să mă poarte spre țara dumneavoastră pentru a putea constata dvs. înșivă ceiace a făcut Gerovitalul pentru mine. Nu pot să vă mulțumesc destul pentru descoperirea unui medicament așa de minunat, care îți dă o minte și un trup sănătos pentru a putea trăi cum se cuvine.

Am trimis bani la CHIMIMPORT și ași dori să mi se trimită GEROVITAL H3 tablete pentru a le putea administra oral, v-ași ruga să faceți aceasta pentru mine.

Mulțumindu-vă pentru toată sollicitutinea pe care mi-ați arătat-o, rămîn a dvs. credincioasă,

Ilma M. Tuckett

Traducere din engleză

Dragă Profesor Aslan,

Am citit un articol despre minunatul dvs. medicament de întinerire, în care spuneți că acesta vindecă reumatismul și echilibrează tensiunea sistemului nervos.

Am 50 ani și socotesc că sistemul meu nu se poate elibera el însuși de nepăceri, astfel încît mă întreb dacă medicamentul dvs. m-ar ajuta. Ar fi intradevăr un medicament minunat. Sper că puteți să mă ajutați.

Nu sînt bogată, dar m-aș lipsi de cîteva lucruri pentru a avea o sănătate bună.

Sperînd să primesc curînd răspunsul dvs., rămîn a dvs. sinceră,

Ilma M. Tuckett

Dear Prof. Ana Aslan,

Some time ago I wrote and asked you weather I could take the GEROVITAL H3 treatment orally as I was finding the injections a little expencive, and you answered that I could.

I have been having the injectings for a few years now and I find them wonderfull, not only does it make me look and feel years younger, but I have started on a new life doing all the things that I have wanted to do for years.

I only hope that my new Career takes me over to your country so you can see for yourself what the "GEROVITAL H3 has done for me. I cannot thank you enough for finding such a wonderfull drug, that will give you a healthy mind and body to be able to live as we are supposed to live.

I have sent some Money over to CHIMIMPORT and I would like you to send me the "GEROVITLA H3 " in tablet form so I can take it orally, would you do this for me please.

Thanking you for past favours.

I am,  
Yours faithfully,

Dear Professor Arbar,  
I have read  
an article on your wonderful  
drug of rejuvenation, you say  
it will cure rheumatism  
and release the tension of the  
nervous system.

I am 50 yrs of  
age, and I find that my  
system does not rid itself  
of the acids, so was wondering  
if your drug would help me

If so it is indeed a wonderful  
drug. I hope you can help  
me.

I am not well off, but  
would certainly go without  
a few things to have good  
health.

Hoping to hear from you  
soon.

I remain,  
Yours faithfully

In hat. cu ref. f. hme -

Professor Anna Aslan,

I have received the packing slips or Invoices No 5868. and am waiting for the parcel to arrive which should not be long.

I read in a book, an article written by OLGA FRANKLIN about the work being done by you, in it, it states that the treatment can be taken Orally or it can be mixed with the intramuscular injections. I am very interrested in taking it Orally if it does the same for me that the injections do. So I was wondering whether you would give me some advice on the matter. I find that the injections are very expensive when you have to pay a doctor to inject them every time.

I am very pleased with the results of H3 and although middle aged, can do YOga, DANCE DRAMA, along with young teenage people, and they treat me as one of their own age .

Hoping that this finds you well, and that I hear from you soon.

I am,  
Yours faithfully,

GRAFTON. N.S.W.

P.O. Box 3.

16th January, 1963.

Professor Anna Aslan,  
INSTITUTUL de GERIATRIE  
BUCHAREST.  
RUMANIA.

Dear Professor Aslan,

During September, 1962, Mrs. Ilma M. Tuckett of 76 Kildare Avenue, St. Heliers Bay, New Zealand, requested the remittance of US\$19.00 to you at the above address in payment for medicines for her use.

On 9th October this transfer was forwarded by our Martin Place & George Street, Sydney, branch, the amount being English currency £6.15.10, which is the equivalent of US\$19.00. Owing to our Exchange Control Regulations the transfer could not be made in United States currency.

During early December last, advices were received from our Sydney branch informing us that our agent bank in Rumania handling the matter had advised that payment had not been made as the reason for the item was unknown to yourself. Mrs. Tuckett was requested to again write you in the matter.

We have to-day received a copy of your letter of 8th November, 1962, to Mrs. Tuckett giving the name of Banque d'Etat de la Republique Populaire Roumaine (Banca de Stat a R.P.R.) to whom the remittance should be directed on account of Chimimport. We understand that the money had gone forward to this bank but for your credit not, as now advised, for credit of Chimimport.

To clear the matter, should it be still outstanding, would you please arrange with that bank that the money be credited as necessary. Our Sydney branch will no doubt be writing the bank also in the matter.

We trust that shipment of the Gerovital H3 Ampoules will have been made ere this to Mrs. Tuckett and that the desired relief will be obtained.

In passing and for your information, it was noticed some time ago that favourable press publicity was given in Australian newspapers to your product and work.

Yours faithfully,

*K. J. Way*  
MANAGER.

Dear Madam,

Answering your letter of september 10th I am giving you herewith the name of the bank to which you may send the money required for Gerovital H3 ampoules. It is the State Bank of the Rumanian People's Republic (in translation: "Banca de Stat a R.P.R.") , Bucharest. The money should be sent on the account of CHIMIMPORT.

With best regards,

Sincerely yours,

Prof. Anna Aslan, M.D.  
Director, Geriatrics Institute  
Bucharest

Dear Dr.

Very pleased to receive  
your answer to my letter  
regarding treatment

I would like  
to know into what bank  
I could pay the \$19. U.S.  
currency. I can arrange it  
with my bank if you could  
tell me where to send it.

I  
also read a very interesting  
piece in the Australian  
post where George Burchett  
of Rosebud, Victoria, Australia  
has had very good results  
from your treatment so it  
has given me hope

I hope that

2  
I hear from you soon

I remain

Yours Faithfully

(Mrs) J. M. Tuckett

Comrade M. H. Williams  
5, May Road  
Mt. Roskill  
Auckland, New Zealand, S.3

Dear Comrade Williams,

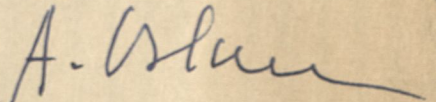

Thank you for your letter and for the news it brought. I was very satisfied to see that you had benefited from the treatment.

For the future, it would be advisable to have five courses of 12 injections every year, with intermissions of one month and a half between every course. If you consider it necessary, you can include a course of 24 pills during the intermission (i.e.: after termination of injections, follows a two-week stop and then a course of pills at a rate of two a day, one pill taken two hours after meals, totalling 24 pills in 12 days. Follows another stop of two weeks and then resume a course of injections.)

I should appreciate it if you kept me informed about your condition and request you not to hesitate to ask for whatever advice you might ever require.

With best wishes,

Yours sincerely,

Prof. Anna Aslan, M.D., D.Sc.

Re.

Comrade V. Williams's  
medical report from  
Peking Hospital

14 November 1964.

For general condition impaired by an old TB with operation of the lungs; chronic cervical spondylosis; deafness of nervous origin; chronic dermatitis, we advise:

- 1) Biotrophic treatment with Gerovital H3.
- 2) Periodical check up by cardiologist to avoid heart failure or respiratory insufficiency.
- 3) Avoid exposure to stress, damp climate, cold; eliminate smoking; avoid respiratory infections.

1) Biotrophic treatment with Gerovital H3:

- Tolerance test: 1 injection of 1 cc, subcutaneous; next day: 1 injection of 2 cc intramuscular. If no allergy occurs (local rash, etc.), start treatment as follows:
  - One course of 12 intramuscular injections of 5 cc in four weeks (three injections a week, Mondays, Wednesdays and Fridays).
  - Follows an intermission of two weeks.
  - Resume another course of injections as above.

After the third course of injections, intervals between the courses will be extended to three weeks. Eight courses of injections should be administered in one year according to this schedule.

With every other course of Gerovital H3 injections, associate vitamin B1 (100 to 200 mg), injected immediately after Gerovital, through the same needle.

Treatment to be taken under medical control.

- 2) Electrocardiogram, vital capacity and VEMS to be checked every six months. According to specialists' advice: Digitalis'-glucosides; sali diuretix; vasodilatators, etc.
- 3) as above.

Rumania.

Dear Madam,

I wrote to you a few months ago, asking about coming to Rumania to see you for some treatment, but to date, I have not heard from you.

I had written to you about 5 years ago, about coming over, but owing to financial problems, was unable to do the journey. I am now generally in a better situation to reconsider the matter & would like to hear from you again.

As a guide, I will repeat what I stated in my last letter.

Age 53 years. — 6 ft. tall —  
weight 147 lbs. — Eye sight failing.  
Losing energy, but generally in  
good health except for arthritis  
in my back.

I have been used to an active  
life & hard work, but now losing  
my energy.

Looking forward to hearing  
from you at an early date,  
and I can then make further  
arrangements as to what date  
I can come, hoping that I can  
have your personal attention.

Yours faithfully

Ron. M. Forbes:

Dear Madam,

I have written to  
you twice since last November,  
about coming over to you for  
treatment, but to date, have  
not heard from you. I was in  
touch with you about 5 years  
ago about coming over, but was  
not able to do so then. Would you  
please let me know as soon as  
conveniently possible, as I am  
planning to go to Australia  
in a month or 6 weeks time &  
I would like to hear from you  
before then whether your treatment

is still available or not.

I am about 55 years old. Underweight, eyes failing, lack of ~~energy~~ energy, some arthritis in back.

Hoping to hear from you soon,

Yours faithfully,

Ron. M. Forbes.

Professor Anna Aslan, M.D. D.S.R.  
Bucharest Institute of Geriatrics,

Dear Madam,

I wrote to you in  
February 1965, about coming over  
to you for some treatment in your  
Institution. I had hopes of seeing  
you in June or July 1965, but  
owing to financial problems, was  
unable to come to Bucharest.

The (~~set~~) situation has now  
improved & I can think more  
seriously of the trip again, and  
would like to hear from you  
and hear what the position  
would be, for me to come to  
see you next year, about June  
or thereabouts.

To explain my history to  
you again.

I am 55 years old, married  
with grown up family. Have had  
reasonably good health, but always  
been under weight. Find now  
that I have lack of energy,  
eyes are failing me & very  
thin. Have had arthritis  
in my back for many years.  
My height is 6 ft. & weight  
is  $10\frac{1}{2}$  st. (147 lbs.)  
Am still active & been used  
to hard work all my life.

Please write as soon as  
possible & let me know full  
details again about coming  
to see you personally.

Yours faithfully,

Ron. M. Forbes

Dear Mr. Forbes,

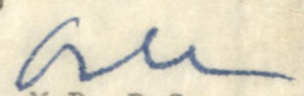

As you mentioned in your letter of several months ago that you might be able to come to Bucharest in July this year, I wish to inform you that you will be welcomed at that time. Kindly let us know at your earliest convenience the date you propose to come at.

After a stay of two weeks for thorough examinations and a period of treatment under our control you will receive our prescriptions for the continuation of the treatment at home.

You can now come without any Rumanian visa and get one on arrival at Bucharest airport.

Please let us know what you decide.

Yours sincerely,

Professor Anna Adlan,  
Institutul De Geriatrie,  
Bucaresti.

Dear Madam,

It is  
with the greatest regret + disappointment  
that I will have to cancel my  
trip over to see you, this year.

My wife has been very ill  
& had to have an operation, which  
she is recovering favourably from  
now. It will be one or two months  
before she is really well enough,  
to carry on normally, & in  
the meantime, I cannot leave  
her for any length of time. I  
still hope to see you next winter  
(here).

I am a contractor & for  
a few months at this time of

The year, my work eases up & I can find some spare time to attend to other things. In another 6 or 8 weeks we will start to get very busy again for 8 or 9 months. I own a big bull-dozers (tractor) & do a lot of road formation & other earth moving jobs. The last season, I have been engaged with other contractors, on a big Government scheme, doing preparation work for dams, canals, & tunnels for a hydro-electric project.

I am very health conscious & put a lot of importance on being fit & well. That is why I am so interested to meet you & have your treatment. I was wondering, if you would mind telling more about your

treatment & how it works on  
the human system. I have made  
a hobby of studying different  
theories of medical science  
& have become a believer in  
dieting & looking to the cause  
rather than the effect of  
sickness & ailments.

Hoping to hear from you  
again in the near future &  
also hope to meet you again  
about July of 1966.

Yours sincerely,

Rhodes

P.S. I have my passport & visas  
all arranged with travel plans.

Dear Sir,

In reply to your letter dated May 30th I am sending you a copy of our letter dated April 5th and our general information concerning the cost of treatment in our Institute.

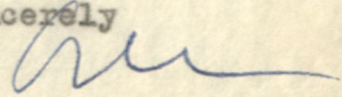

I am delighted to hear that you decided to come to Bucharest. You are welcome any time ! I shall be here until August 25th and after October 1st. Nevertheless, should you arrive in my absence from Bucharest, my assistants will be at your disposal !

Should you decide to stay at the Lido Hotel or elsewhere, reservations should be made in advance by your travel agency with the National Tourist Office "CARPATI" of Bucharest. In this case you come to our Institute for treatment. In this regard you may have your choice !

Please do settle your visit whenever you feel inclined and contact us a few days prior to your arrival.

We are anticipating the pleasure of seeing you in our Institute !

Yours very sincerely

Professor A. Aslan, M.D., D.Sc.,  
Director, The Bucharest Institute of Geriatrics

"Bucuresti."

Dear Madam,

I have written to you before about coming to you for treatment. I tried to make arrangements to come to Rumania about a year ago, but owing to financial difficulties, the trip could not be done.

However, I now feel that I could be there in Bucharest about the 20<sup>th</sup> July to undergo treatment, providing that satisfactory travel arrangements can be made, & that it would be convenient for you.

In case you may not have

my previous letters on hand, I will again give you some details of myself.

Age 47 yrs. Weight 10 1/2 stone. (147 pounds) Height 6 ft. - married. Have been used to hard work all my life & have had trouble with a strained back for many years & arthritis has set in. Generally my health is good, but gradually losing weight & slowing down. I desire to carry on with an active life for a long time yet & feel that your treatment could help me.

19<sup>th</sup> July 1965

I have a copy of your first letter with particulars of your charges etc. I feel that, to get the best results of the treatment, that it would be best to be an in-patient in your hospital, but at the same time I would like to live among

E  
L  
L

some of your people I get to know something about your country, by boarding out. If it was no inconvenience to you, I would be grateful if you would decide which would be best & perhaps make some definite arrangement after I meet you. In the meantime, I am prepared to come to you as an in-patient.

Any other information or advice that you can give me I would appreciate. Would you please reply as soon as possible to confirm this letter. In the meantime, I will make arrangements about my passage.

Yours faithfully,

R.M. Forbes. **R. M. FORBES**

P.S. I wrote to you a second time, about a year ago, but got no reply.

Dear Sir,

I have received your letter of 1st Febr. 1965 and wish to inform you that I shall be glad to receive you at our Institute for treatment.

If you wish to come while I am personally in Bucharest, I suggest any time after the 20th of June.

As apparently you have no particular ailment, a stay of two weeks will be sufficient for full medical examination and the beginning of the treatment under our care. The treatment can afterwards be continued in your country, according to our prescriptions.

Your journey to Rumania can easily be arranged through one of your travel agency with the Rumanian National Tourist Office "CARPATI", Bucharest, with whom they are connected and who look would look after all arrangements such as visa, reservations, payment, etc. You should mention that you wish to come directly to our Institute as an indoor patients

Kindly let me know the exact date of your arrival so that we can make the necessary reservation.

Yours sincerely

Professor Anna Aslan, M.D., D.Sc.,

Dear Madam,

I wrote to  
you in June 1963 about coming to  
you for treatment in 1964.

Owing to lack of necessary finance  
& business arrangements, I was unable to  
come to your country, although I am  
very anxious to do so.

I was wondering if it would suit  
you for me to come over this year  
about June or July. Please write to  
me again & send as much  
information as possible. I think that  
I would prefer to be treated as an  
inpatient, to make certain that  
the treatment is most satisfactory.

I would repeat again, for your information, that I am 47 yrs of age. starting to ~~become~~ lose vitality which is usually expected. Generally my health is fairly good, but have had much trouble with a misplacement in the spine. Have always been used to hard work & wish to continue doing so for a long time yet. I am a married man & a grand father.

Looking forward to hearing from you again.

Dear Sir,

I have received your letter of June 23<sup>th</sup> 1963 and in reply to your questions I am giving you herewith the following information:

The treatment with Gercovital H3 - the drug which is used in our Institut - can be undergone in our clinic where a sanatoril section has newly been arranged with all modern accomodations.

As apparently you do not have any particular ailment a stay of 2-3 weeks will be sufficient for full medical examination and the beginning of the treatment, under our medical supervision. The treatment can afterwards be continued in your country, according to our prescriptions and under your physician's care. Herewith I enclose the cost of hospitalisation per day.

Your journey to Bucharest can easily be arranged through a foreign travel agency with our National Tourist Office "CARPATI", who would look after all arrangements as visas, reservations, payment, etc. You should mention wether you wish to come directly to our Institute and be treated as an inpatient or to be an out-patient living at an hotel and undergo an ambulatory treatment at our Institute.

Concerning the date of your hospitalisation I agree with your coming in about 10 months but I shall be very obliged to you to keep me informed with the exact date of your arrival.

Hopping to hear from you soon I remain, your

Professor Anna Adam,  
Institutul de Geriatric,  
Bucharest.

Dear Madam,

I was very interested to read an article here in New Zealand, in a local magazine, about your work & the drug that you have discovered (H.3. drug) to combat the ravages of old age.

I understand, from the article that I read, that you were treating different people, who had come to see you, I would be very interested to visit you for treatment, & if it is not too much to ask you, I would be very obliged, if you would write & let me know, some further information, such as; "How long would it take for

The necessary treatment, <sup>2</sup> what would  
the accommodation arrangements cost,  
<sup>3</sup> would it be necessary to stay at a  
clinic or hotel, <sup>4</sup> any information about  
travelling arrangements etc?

I am 46 years of age. Generally  
fit & well except for trouble resulting  
from a strained back. Normal in  
~~physic~~ physical & mental aspects. Tall  
& underweight. Used to hard manual  
work & a desire to keep going for  
a long time yet. Starting to feel  
that I am not as good as I used  
to be. am married with a family.

If financial means are available,  
I would like to come & see you  
in about 10 months or 1 year time  
from now.

Looking forward to hearing from  
you & like to hear as much as possible  
about your treatment.

Yours faithfully,  
R. M. Forbes.

Mr. John Goyder  
c/o P.O.Box 1934  
Auckland  
New Zealand

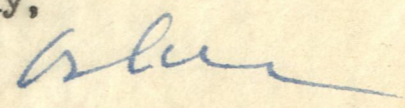

Dear Sir,

Thank you for your letter which I found on my return. In answer to your request I inform you that you can order any amount of Gerovital H<sub>3</sub> directly from the Rumanian exporters "Whimimport", 12 Strada Doamnei, Bucharest. The cost for 25 ampouls amounts to US \$ 10.- to which \$ 9.- should be added for airmail postage fees, for a parcel up to 2 kg.

You could begin the treatment with 3 series of injections according to the enclosed directions; meanwhile please send us some details about your present condition - eventually your physician could send us a short report.

If you decide to undergo the treatment, please let us know the results obtained.

Yours sincerely,

Professor Anna Aslan, M.D.  
Director of the "C.I.Parhon" Institute  
of Geriatrics

Dear Madam,

I wish to thank you very much for your letter of the 6th November, which I have just received.

I note that you have obtained certain results in respect of Parkinson's Disease. I am not badly affected with rigidity- my chief trouble is the trembling- and when walking I am inclined to lean forward. It would not be possible for me to visit Indonesia.

I see that you say you would be visiting Indonesia about the end of November and as I have just received your letter, of course this means I would not have been able to reach there in any case.

I also note that you consider I could undertake treatment in New Zealand according to your indications and with your drug, under my Physician's care.

If it is possible for me to be treated under your instructions, would you let me have the instructions and what the cost would be.

Again thanking you for writing to me.

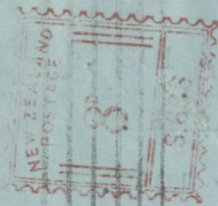

Yours faithfully,

*John Goyder*

Auckland, Cl.  
New Zealand

Dear Mr. Goyder,

I have received your letter and thank you for your interest concerning our work.

We have obtained certain results in Parkinson's disease, especially in cases of rigidity. Our treatment might have a favourable influence in your case, but it is a long duration treatment.

If you wish to come to our Institute, to be examined and to commence the treatment - which would afterwards have to be continued in your country - we shall be glad to receive you. However, in order to avoid such a long journey, you could undergo the treatment in New Zealand, according to our indications and with our drug, under your physician's care.

On the other hand, I will be visiting Indonesia towards the end of this month. As it is nearer to your country, you might eventually visit me there, if you wish and consider it necessary.

Kindly let me know what you decide and I shall answer accordingly, with the required details and medical advice.

Yours sincerely,

Professor Anna Aslan, M.D.  
Director of the "C.I.Parhon" Institute  
of Geriatrics

NEW ZEALAND.

24th October, 1961.

Professor Anna Aslan,  
Parhon Institute of Geriatrics,  
BUCHAREST.

Dear Madam,

An article appeared in our local papers describing the wonderful cures you have effected as a result of your treatment with H.3. In this article which was written by Nino Lo Bello it mentions you have effected cures of Parkinson's Disease apart from many other types of diseases.

I am very interested as I have been a sufferer from Parkinson's Disease for the last five years having the tremors on my right side. I am 65 years of age, am in perfect health and my Neuro-Surgeon has recommended that I should have a operation on the brain for this, which meets with about 75% successes, but it is still in the experimental stages.

I was wondering whether it would be possible for me to take your treatment and if so, assuming I could travel by 'air' to Bucharest, what the cost of the treatment would be for myself, how long I would need to stay, such estimate to cover the expenses of myself and my wife. I would also like to know whether you are fairly optimistic of the chances of success.

I am still quite active and carry on my position as Manager of a Trustee Company, but it is the trembling of the arm, hand and leg which is so disconcerting.

Any information you could give me in this direction would be very much appreciated. The whole thing would depend on:

- (1) possibility of success and
- (2) the cost of the treatment, hotel expenses etc.,

quite apart from 'air travel' which I could ascertain from this end.

Yours  
Sincerely,  
*John Goyder*

Geehrte Frau Doktor!

Ich bin polnischer Abstammung  
Schweizerische Bürgerin.

In ~~verster~~ Hälfte Mai fahre  
ich nach Polen und bei Durchreise  
möchte ich mich paar Tagen in Baka-  
rest aufhalten, aber nur in diesem  
Falle falls die Möglichkeit besteht  
von Ihnen unterstützen zu werden und  
par Ratschläge zu bekommen.

Von Beruf wahr ich 30 Jahre  
Lehrerin jetzt pensioniert.

Ich bin 62 Jahre alt und seit  
10 Jahren leide ich an "Angina  
pectoris". Ausserdem for 5 Jahren erkrankte  
ich auf "Reumatoide Arthritis".

Bitte höflichst mich benachrichtigen  
ob Sie mich empfangen können,  
damit ich weiss wie ich meine  
Angelegenheiten einrichten soll.

Mit voller Hoffnung verbleibe  
ich

Hochachtungsvoll

Dear Sir,

In answer to your letter of March the 30th I inform you that you can apply in London to Doctor Pierre Jonescu, Harley street 23, who is using our method of treatment since several years and can give you full medical assistance.

The medicine - Gerovital H3 - can be obtained from Tudor Trading Ltd., M. May, 1, Laburnum Gardens, London N21.

Yours sincerely,  
*anna*

Dear Madam,

I thank you for your letter of 22nd December and wish to advise you that we shall be leaving by air on 3rd May and will be in London about 10th May.

I myself am very keen to undergo your rejuvenation treatment, but I feel that I like to obtain recommendation from medical practitioners here or in England. I spoke to my local doctor as well as to several specialists in Wellington who were not prepared to recommend this treatment. I would therefore like to obtain a recommendation from some prominent doctor in England and I would be obliged if you kindly advised me which prominent doctors in England and preferably in London know your treatment and are likely to recommend it.

I send you this letter by airmail and I suggest to send your reply to me care Mr. R.H. Flament, 55, Sloane Gardens, London SW 1, England so as to reach me there not later than 10th May.

Thanking you.

PS: Do you feel that your treatment would also help my enlarged prostatic gland and my wife's migraine?

Yours faithfully

JOHN STERN

Stimate Doamne Vandoros,

Ca răspuns la scrisoarea Dvs., vă informez că pentru diagnosticul menționat se recomandă tratamentul cu Gerovital. Noi am obținut rezultate foarte bune.

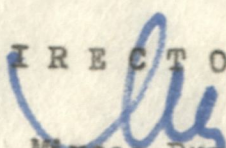

Vă recomandăm stațiunea Eforie Nord - Hotel Europa unde Institutul nostru are un cabinet medical și odată cu efectuarea tratamentului geriatric aveți posibilitatea să faceți și tratament cu nămol. Perioada 1 iunie - 15 septembrie este foarte indicată.

Dacă doriți să veniți, vă rugăm să ne comunicați data și vom comunica medicului nostru sosirea Dvs.

În aceeași perioadă poate ne faceți o vizită la Institut, sau un reprezentant al Institutului, poate chiar eu personal, vă vom consulta la Institut sau la Eforie.

În așteptarea răspunsului Dvs.,

DIRECTOR,

  
Dr. Mircea Dumitru

Stimate Domnule Doctor,

FLAT A-25 Rex St.

MIRAMAR 3

WELLINGTON, NEW ZEALAND

23 Martie 1987

Rog de a lua - raspuns.

Pentru a putea veni in vizita de recomandare tata mamei

Cu dragul-tiu si un amic al-tai -  
am rugat sa

Săptămină trecută am primit scrisoare de la amicul Dr. Belevu Sumitru care mi-a scris despre "meacău" care se schităse pe... capul meu. În Iulie 1986 (în plină iarnă) am simțit dureri creștind ca și fi sciatică sau lombago. Până atunci în toți anii și până la "Arste rez-pectabile de Sodi" am n-am fost măduște sau fennid (bolnav). Durerea care s-a manifestat persista și doctorul care te înlocuia pe me-dicul șaher m-a lăsat la Londra pentru două luni, mi-a prezentat niște pilule care nu au avut nici un efect; a doua oară deținea der și de data asta fere a-am amelioret durerile care te simțeam aproape peste tot corpul, miim, puore, mijlocul, spatele etc etc, mersul im-era foarte greu. În fine medicul a sosit, m-a consultat și mi-a prezentat 60 pastile PREDNISONE 5MG TAB (64) din care eu am o pastile la fiecare patru ore. S-a doua zi am simțit ameliorare, ce prin "farmec" durerile dispăruseră. Au urmat apoi 28 pastile două pe zi imediat după mîncare; ultime "serie" mi-a spus medicul să nu dețiu, ci dacă după 15 zile simt nevoie să încep, dacă nu să le arunc. V-am scris pe scurt "pătôniz" mea.

Diagnoză: POLYMYALGIA RHEUMATICA.

Întreb: Este recomandată băi de mare și apoi la Tekirghioe pentru un ca nămolue miraculos? Și timp de 10-15 zile?

Medic: MALCOLM NICOLSON cere mi-a det în scris

Diagnoză.

Domnule doctor, sunt în ostepere (cum mi-a scris d. Belevu) să-mi anunțati referitor la tratamentul adecuat, localitatea și pretul în dolari americani de fiecare zi.

\* Durerea a început în Iulie și a durat aproape pînă la finele lunii FEBRUARIE!..

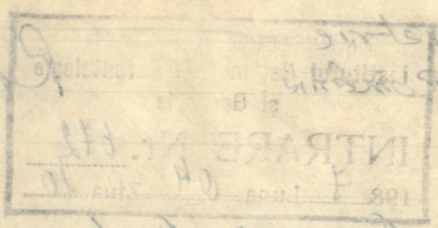

H. Vondoros

23 March 1987

Dear Sir,  
I am pleased to hear from you.  
I have enclosed a copy of the  
report on the results of the  
survey conducted in the  
area of the hospital.

În ceea ce privește  
starea de sănătate a  
medicilor și a personalului  
și odali, cu speranța că  
vă va fi de folos și  
vă va ajuta să luați  
decizii corecte în ceea  
ce privește personalul  
medicilor și al personalului  
de îngrijire. În ceea  
ce privește personalul  
de îngrijire, vă recomandăm  
să luați în considerare  
posibilitatea de a  
realiza o evaluare  
a personalului de  
îngrijire și să  
luați decizii în  
baza rezultatelor  
acestei evaluări.

Ch
