

ARHIVA I.N.G.G. „ANA ASLAN”

S.U.A. (serie). PACIENȚI (sub-serie).

DOSAR (I-J)

Conține documente cu număr de înregistrare al INGGAA

Este ordonat alfabetic de la I la J.

Decadele: `60 – `70 – `80.

Limbi: engleză, română,.

Documentele sunt dactilografiate și manuscrise.

Documentele sunt pe suport de hârtie.

Dosarul conține: 11 plicuri, 4 cărși poștale, 1 felicitare, 4 fotografii, 3 partituri, 1 carte de vizită, 1 bon fiscal.

Unele scrisori au atașată traducerea în limba română și însemnări explicative în limba română.

Conținut:

Scrisorile de răspuns conțin semnătura, în original, a prof. dr. Aslan sau, în absența acesteia a reprezentanșilor INGGAA (dr. Cornel David, director adjunct INGGAA, dr. Mircea Dumitru, dr. Constantin Bălăceanu-Stolnici).

Conșinutul dosarului este compus din corespondența între pacienți și INGGAA, analize medicale, buletine medicale, scrisori medicale, recomandări medicale, rapoarte medicale, cereri de informașii cu privire la Gerovital H3, furnizare de informații despre Gerovital H3, informații despre administrarea fiolelor de Gerovital H3, detalii privind cazarea pacienților, informații privind costurile tratării în cadrul INGGAA sau ale clinicilor sale etc..

Conține o corespondență între o cetățeană americană, de origine română și prof. Ana Aslan în cadrul căreia se discută detaliile mai multor vizite ale acestora în cadrul țărilor unde locuiesc. Datează 1976 – 1987.

Conține o corespondență între un cetățean american și prof. Ana Aslan, în cadrul căreia se cer mai multe detalii despre metoda de cură specifică INGGAA. Datează 1960.

Conține o corespondență între o cetățeană americană, de origine română și prof. Ana Aslan, în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns se precizează că nu poate fi comercializat în cadrul S.U.A. și că ar trebui să ia legătura cu un furnizor european. Datează 1966.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan, în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către I.C.E. Chimica. Datează 1985.

Conține o corespondență între un cetățean american și prof. Ana Aslan în cadrul căreia se cer indicații privind tratamentul cu Gerovital H3. În scrisoarea de răspuns și se oferă câteva informații generale, pentru mai multe detalii este recomandat medicul american dr. S.J. Wilson care utilizează metoda de tratament a INGGAA. Datează 1974.

Conține o corespondență între producătorul de muzică Frankie Izzo și prof. Ana Aslan în cadrul căreia se discută pe marginea unor topicuri amicale. Datează 1978.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan, în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către I.C.E. Chimica. Datează 1986.

Conține o corespondență între un cetățean american și prof. Ana Aslan, în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționat către Chimimportexport. Datează 1980.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan, în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către furnizorul britanic Arcode Ltd. Plantation House și către furnizorul american Rom Amer. Datează 1973.

Conține o corespondență între un cetățean american și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționat către furnizorul britanic Arcode Ltd. Plantation House și către furnizorul elvețian Pharmacies Grosclaude. Datează 1983.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către furnizorul italian "Metropoli". Datează 1973.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns i se oferă o listă cu toși furnizorii străini. Datează 1973.

Conține o corespondență între un cetățean american și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționat către Chimimportexport. Datează 1985.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către Rom Amer. Datează 1973.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3, specifică faptul că vrea să utilizeze Gerovital H3 împreună cu soțul ei pentru a se menține în formă. Datează 1975.

Conține o corespondență între un cetățean american și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționat către furnizorul elvețian Pharmacies Grosclaude. Datează 1984.

Conține o corespondență între o cetățeană americană, de origine română și prof. Ana Aslan, în cadrul căreia se discută pe marginea tratării sale, dar și subiecte personale. Datează 1981 – 1988.

Conține o corespondență între un cetățean american și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționat către Chimimportexport. Datează 1978 – 1981.

Conține o corespondență între un cetățeană americană și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către I.M.E.C.O.. Datează 1974.

Conține o corespondență între un cetățeană americană și prof. Ana Aslan , în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către Chimimportexport. Datează 1969.

Conține o corespondență între o cetățeană americană și prof. Ana Aslan, în cadrul căreia se cer indicații privind modalitatea de achiziționare a medicamentului Gerovital H3. În scrisoarea de răspuns este direcționată către furnizorul elvețian Pharmacies Grosclaude. Datează 1983.

INTRARE Nr. 1084
1987 Luna 07 Ziua 10

Mrs. Elizabeth ILIBSCU
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

Dragă sora,

Academia noastră mi-a făcut recent deosebita cinste de a organiza o sedință festivă pentru a-mi sărbători aniversarea. Ți trimit alăturat programul acestei ceremonii, știind că-ți va face plăcere. Imi pare rău că nu ai putut fi prezentă!

Restabilită, sînt totuși încă la Otopeni, unde este mult mai comod și mai plăcut în acest anotimp de arșiță. Mă ocup de treburile Institutului, primesc pacienți, oaspeți și eternii ziaristi. Sper să întreprind o călătorie în Europa, dar nu știu încă exact nici cînd, nici itinerarul. Nu întrevăd însă o vizită în S.U.A. deocamdată.

Aștept vești de la tine și pînă atunci te îmbrățișez cu dragoste.

Lisette Ilesca

Draga mea Lisette,

Academia noastră mi-a făcut recent
describa cîste de a organiza o festivă
festivă pentru a-mi sărbători aniversara
! ti trimit alăturat programul acestei
ceremonii, oînd că ti va face plăcere.
Imi face rău că nu ai putut fi prezentă!
Restabilită, sîm totuși încă la otopeni,
unde este mult mai comod și mai plăcut
în acest anotimp de arșiță. Mă ocup de
treburile Institutului, privesc parcuri,
oaspeti și eternii ziaristi. Sper să între-
prind o călătorie în Europa, dar nu
stui încă exact nici cînd, nici
itinerarul. Nu întrezăresc încă o vizită
în U.S.A. Locaundată.

As teji vesti de la tine și
pînă atunci te îmbrățișez cu dragoste

Mrs. Elisabeth Iliescu
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

Mi-a făcut plăcere felicitarea de Paști a ta și a întregii familii.

Nu am putut veni în S.U.A. în această vară după cum am promis pentru că am avut chiar atunci o viroză care s-a terminat cu bine.

În prezent sînt în concediu de recuperare și sper să-mi reiau peste o săptămîină activitatea la Institut.

Acum lucrez acasă și scriu corespondența după cum vezi. Sper să reiau în curînd legătura cu societățile științifice.

Am

Nr. 2942 / 28.12.1984

Mrs. Elizabeth Iliescu
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

Dragă Lizeta,

După cum vezi n-am putut sosi în Statele Unite și nu voi fi acolo decât în anul care vine.

Mi-a făcut plăcere să vorbesc despre dumneata cu reprezentanta "Vocii Americii" care a fost în țară și care mi-a luat un interviu, pe care l-am și auzit apoi. Te rog, dacă o vezi, să-i mulțumești călduros din partea mea.

Nu mai știu nimic de dumneata. Cum merge sănătatea? Unde locuiești? Ești cu copiii sau cu soțul, sau te împarți ca de obicei?

În Institut totul este așa cum știi. Deocamdată n-am luat încă pensiile ^{vătrânilor.} Dar nu știu cum va fi pînă la urmă.

Eu continui să mă duc zilnic la Institut. Lucrez cu Ileana și cu alte patru secretare dintre care pe Teodora cred că o cunoști (acum are o gripă). Tocmai vorbeam de dumneata cu Ileana.

Totuși aștept să te văd și să ne mai amintim de timpurile cînd erai la noi și de tot timpul pe care mi l-ai acordat în S.U.A. și pentru care-ți mulțumesc.

Cred că de data aceasta voi face Anul Nou în București.

La mulți ani și cele mai bune urări de sărbători pentru dumneata și toată familia.

Sărutări,

New York, N.Y. 10013
U.S.A.

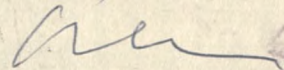

Dragă Lizeta,

Cred că ai fost bombardată de telefoane care anunțau și amîneau știrea despre sosirea mea în Statele Unite. Si totuși nu am venit deoarece au fost foarte mulți pacienți străini veniți în țară cu ocazia Zilei de 23 August și care doreau să mă întîlnească.

Dar nu este decît o amînare. Dacă nu apare iarăși ceva care să împiedice venirea mea, cred că voi sosi în cursul lunii noiembrie. Te voi anunța la timp.

Aștept cu mare nerăbdare să ne revedem și, dacă vrei, să stăm împreună.

Sărutări,

July 30th,

Mrs. Elizabeth Iliescu
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

Dragă Lizeta,

În fine se apropie venirea mea în Statele Unite.
Cred că voi veni însoțită de o doctoriță care apoi va sta
la Chicago pentru bursă, deși aș putea să fac traversarea
și singură.

Mi-ar face mare plăcere dacă ai avea vreme să stai
cu mine la New York sau la Washington. În orice caz să știi
că nu aș putea avea un ajutor mai bun decât ajutorul dumitale
atât de eficace și de grațios.

Vin în S.U.A. pentru a participa la cel de-al 38-lea
Congres Internațional CIDESCO ce va avea loc la New York între
19-21 august. Dar am și alte lucrări interesante la Washington
și în Canada. Poate că voi merge și în Florida să văd prieteni.
M-aș bucura să poți veni cu mine în Florida. Chiar dacă însoți-
toarea mea va sta în apartament, cum odaia mea are de obicei două
paturi, am putea sta împreună.

Cu dragoste,

Ana Aslan

Răspund și eu imediat la scrisoarea dumitale.

Deocamdată n-am putut veni în Statele Unite în aprilie
întreucît trebuie să particip la alte congrese în Europa. Dar
sînt aproape sigură că voi veni în august, *între 19-25.*

Ai dreptate că, întrucît soțul dumitale nu se simte prea
bine, nu poți să stai cu mine, dar o să-mi facă întotdeauna
plăcere să te revăd. *și să stăm puțin împreună.*

Iți mulțumesc pentru gîndurile dumitale bune.

*Îmbrățișări
și un Paște fericit.*

Inf

Mrs. Elizabeth Iliescu
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

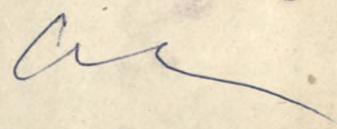

Dragă Lizeta,

Mi-a făcut plăcere scrisoarea Dumitale, mai ales că nu mai aveam de mult vești.

Acum sint inaintea plecării. Mîine plec in Spania, pentru a participa la un congres la Valencia. Apoi voi sta citeva zile la Madrid.

Am in program și o călătorie la New York pe care trebuie s-o efectuez la inceputul lunii aprilie sau ^{data} poate in luna iunie. De data aceasta ai putea să mă ajuți? Dacă Dumneata ai putea, n-aș mai lua o altă secretară.

Cu dragoste

Mrs. Elizabeth Iliescu
40, Harrison Street #20E
New York, N.Y. 10013
U.S.A.

Dragă Lizeta,

De mult n-am mai primit nicio știre de la Dumneata. S-au întimplat foarte multe, pentru că au trecut luni de cînd nu ne-am mai scris și nu ne-am văzut.

De atunci am efectuat următoarele călătorii:

Prima după New York a fost în Argentina, Brazilia, Italia și Spania. A doua în mai multe țări din Europa: Ungaria, Austria, Elveția. A treia în R.F.G., Italia, Spania, Austria, Grecia. Cu aceasta s-a terminat programul pe acest an.

Prima călătorie în 1984 va fi în Coasta de Fildeș. Aceasta înseamnă că încă pot efectua aceste drumuri, ținînd și conferințe peste tot.

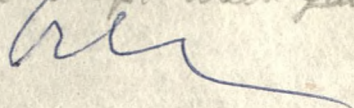

Ca un lucru deosebit este un premiu "ANA ASLAN" instituit anul acesta pentru lucrări de geriatrie și care se acordă din 2 în 2 ani, ceea ce desigur este o mare realizare. (Premiul german).

Imi pare bine că ești la New York, dar deocamdată n-am în vedere de a vă vizita, deși mi-ar fi făcut o deosebită plăcere, mai ales că ești mai liberă acum. Poate voi veni în martie 1984.

În Coasta de Fildeș voi merge într-adevăr cu Teodora, pe care ai cunoscut-o și ai văzut cît e de eficientă.

În București este destul de frig acum: -10°C .

Plus se încălesc serisoarea, s-a mai încălzit: -2° - -3°C .
Sărbători ferice și la mulți ani pt. toată familia.

SUSA
Draga Elizabeth Hlescu

Dragă Lirita,

Cîtă plăcere mi-a făcut scrisoarea ta. Ai ajuns acum în cuibul din New York. Deși temperatura a fost atît de ridicată, totuși este plăcut să fii acasă la tine, chiar dacă ți-e dor de copii și nepoți.

Eu între timp am fost în Argentina. Am plecat la 12 iunie. După două săptămîni, am fost pentru 4 zile la Rio de Janeiro la Mariana Bona. După aceea în Italia, unde am stat mai mult, fiind luna mea de concediu. Dar în această lună de concediu am dat peste tot interviuri la radio și televiziune (în Argentina 4, în Rio de Janeiro 1, la Madrid o masă rotundă cu celebrități și același lucru la Milano). Îți închipui că odihna a fost oarecum odihnă activă.

Nu știu dacă voi veni în S.U.A. în toamna aceasta, pentru a avea plăcerea de a te revedea. Vei afla mai tîrziu dacă voi veni sau nu.

Îți mulțumesc pentru scrisoarea atît de caldă. Imi pare bine că sănătatea este mai bună și sper și doresc să se amelioreze treptat.

Dragă Lizeta,

Întoarsă în țară de mai bine de o lună, am fost prinsă de obligațiile zilnice - pe care le cunoști în parte - și n-am putut să-ți scriu cât de mult m-a bucurat să te reîntâlnesc, să mai stăm puțin de vorbă ca altădată și să constat că nu ești bolnavă, ești tot atât de activă ca întotdeauna.

Din păcate șederăa mea la Washington a fost scurtă și întrevederile pe care le-am avut destul de numeroase, astfel încât n-am putut sta de vorbă cât ar fi dorit.

Te rog, dacă vrei, să-mi scrii când te muți din nou la New York.

Cu dragoste,

Ana Aslan

Mrs. Elizabeth Iliescu
40, Harrison St. #20E
New York, N.Y. 10013
U.S.A.

Dragă Lizeta,

Îți urez la mulți ani, cu sănătate și bucurii în familie și societate.

Care vom avea plăcerea să ne revedem cu ocazia călătoriei mele în februarie la New York și Washington? Măcar în unul din aceste orașe.

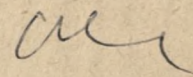

Sînt foarte îngrijorată că n-am mai primit nimic de la D-ta.

Se pare că va fi un program foarte interesant la New York și la Washington. Dar, cum știu că D-ta nu poți să mă ajuți, va trebui să vin însoțită de cineva.

Cum noul nostru ambasador este așa de activ și de amabil, cred că această călătorie va fi cu și mai mare succes.

Dacă vei sta sau nu cu mine, mă voi bucura cel puțin să te pot vedea.

Cu drag,

16 iunie

1488

Mrs. Elizabeth Iliescu
40, Harrison St. #20B
New York, N.Y. 10013
U.S.A.

Poate că ai aflat că pe data de 10 mai am primit, în cadrul Organizației Mondiale a Sănătății, la Geneva, Premiul și Medalia "Leon Bernard" care este al doilea ca valoare (după Premiul Nobel) în domeniul medicinei. Manifestarea a fost extrem de impresionantă. Au fost de față miniștri ai sănătății din toată lumea. Mi s-a făcut elogiul, mi s-a înmănat medalia și apoi am ținut un discurs. A doua zi a avut loc o conferință de presă, iar a 4-a zi această veste a și fost publicată în presa OMS difuzată în multe țări ale lumii.

Anul acesta, după ce m-am întors în ianuarie în țară, n-am mai plecat decît cu ocazia unei ședințe premergătoare pentru Adunarea Mondială la Viena și de acolo în Elveția pentru premiu, călătorie care a durat o lună. În rest am fost tot timpul în Institut.

Nu știu dacă voi avea plăcerea să vin în SUA și să te văd.

Adunarea Mondială a vîrstei a 3-a va avea loc între 27 iulie - 6 august tot la Viena și - intrucît eu am propus ca această adunare să aibe loc - cred că voi lua parte la ea. După aceea se va mai ține o ultimă ședință la New York, la Națiunile Unite, ca încheiere pentru tot cortegiul de multiple ședințe ce au avut loc în vederea Adunării Mondiale.

O altă știre pe care ți-o pot da este că la data de 9 iulie va avea loc sărbătorirea a 30 de ani de activitate a Institutului. După această dată aș vrea să mă duc la Ischia, unde sînt invitată înainte de Adunarea Mondială. Voi vedea dacă va fi posibil.

Starea sănătății mele este destul de bună. Gitul mă mai jenează din cînd în cînd din cauza numeroaselor discuții și a activității mele intense. Programul de activitate nu e deloc relaxat și nici cu menajamente, dar numai eu sînt vinovată pentru aceasta. Cît privește accidentul menționat în scrisoare, a fost o mică fisură care s-a vindecat în 2 săptămîni. Nu m-a necăjit prea mult și n-am stat la pat decît cîteva zile, deși medicii mi-au spus să stau mai mult. Am și uitat de el.

./.

Imi pare bine că la Academia de Stiințe din New York cotizația era plătită pe 1981 și 1982, deci rămâne pentru anul viitor.

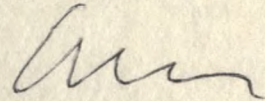

Mă bucur că vei avea plăcerea să ai încă un nepotel sau nepoțică. Nu cred că trebuie să ai emoții în această privință.

Aici vorbim adesea de D-ta și te regretăm mult.

Am aflat de Violeta. Negrilă este și necăjit și bucuros în același timp.

În ceea ce-o privește pe D-na Tulbure, este în aceeași stare oscilantă.

Aștept în continuare vești de la D-ta.

N. York, 25-III-82

SVA

Dragă soamnă Profesor,
Vă mulțumesc din toată inima
pentru caldă scutoare pe care mi-ati
trimis - o după întoarcerea acasă, plină
de vesti bune și plăcute despre conti-
nuarea viajului spre casă. Sunt feri-
citate că totul a decurs bine după ce
am fost nevoită să vă părăsesc,
cu program plăcut și companie agre-
abilă, aici, precum și în Europa.

Pentru mine, timpul petrecut cu
dumneavoastră a fost o încântare de
care m-am bucurat din plin și
pentru care vă mulțumesc cu toată
căldura.

Acum, sunt foarte necăjită de
vestea primită despre usorul acci-
dent pe care l-ati avut (mi am deta-
lii), dar care v-a ținut la pat cu
o fisură de femur. Sunt sigură că,
într-un timp, sînteti complet sau aproape
complet restabilită, dar ati avut
de suferit durerile și plictiseala mo-
bilizării, greu de suportat de o per-
soană așa de activă ca dumneavoastră.
Vă doresc din tot sufletul deplină
însănătoșire, cât mai grabnic
Sper că, după aceea, programul de

activitate va fi² mult mai relaxat,
cu mai multe menajamente decât
cel pe care îl aveți în neod obișnuit.

După plecarea dumneavoastră de aici
m-am dus să platesc cotizatie la
"Academy of Sciences" dar am avut
surpriza plăcută de a afla că era
platit pe 1981 și 1982, deci rezolvat.

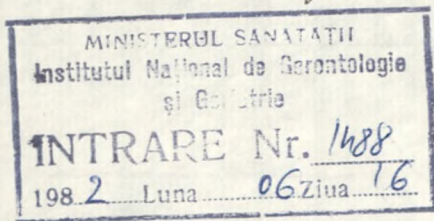

La noi, ca veste importantă este astep-
tarea unui nepotel sau nepotice, în sept.,
de care, evident, că ne bucurăm, dar
avem și emoții data fiind vârsta saudei
39 ani. Sperăm ca totul să meargă
bine pentru mamă și bebeluș, să fim
cu adevărat fericiți de eveniment.

Probabil că ati aflat deja, că
Dioleta s-a căsătorit aici cu un
bărbat capabil, se înțelege bine și
este multumită, deci părinții trebuie
să se bucore.

Ducei, nevorind să vă obrose
mai mult cu lectură acestei scrisori.

Vă doresc, încă odată, multă,
multă sănătate și să vă înbrățișez
cu tot respectul și dragostea.

Lizeta

Mrs. Elizabeth Iliescu
40, Harrison Str. #20B
New York, N.Y. 10013
U.S.A.

Am primit scrisoarea D-tale și trebuie să-ți spun că mă doare să aflu că ai tulburări cu articulația. Aș putea să te văd și să constat dacă este vorba mai mult de durere sau de o leziune. Se întâmplă uneori să fie durerea mai mare și leziunea mai mică sau să fie leziunea mare și durerea mică.

Trebuie să te informez că voi fi la New York între 5-15 decembrie. Mi-ar fi foarte utilă prezența D-tale și mi-ar face o deosebită plăcere să stau cu D-ta ca altă dată, după cum bine știi.

Poți să-mi telefonezi dimineața la orele 7, la Shoreham Hotel - 2500 Calvert Street, N.W., Washington - telephone: 301 234 0700. Am un program atît de încărcat, trebuinșă să iau parte și la întîlnirea directorilor de institute naționale de gerontologie și la Conferința de la Casa Albă ^{între 27.XI - 3.XII} Poate că ai putea să mă ajuți ca traducătoare și acolo, nu numai la New York.

Un răspuns îmi poți da și la Ambasada Română din Mexic, Calle Tennyson 120, Col. Polanco, Mexico 5 D.F. - tel. la Ambasadă: 545-18-77; ~~acasă la Ambassador: 2-50-21-16~~ sau la Washington

Sosesc în S.U.A. direct la Washington la 27 noiembrie venind din Mexic - dacă mine, 21 noiembrie, se aranjează plecarea. Dacă nu, plec direct la Washington pentru a fi acolo pe 27 noiembrie. Mai poți avea noutăți și de la Ambassador - D-l Ionescu - care este foarte amabil. ^{de cît din Mexic!}

D-na Dr. Ionescu nu vine cu mine și D-ta îmi vei fi de un folos unic.

20 October 17th, 1981
3126

Mrs. Elizabeth Iliescu
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

Este aproape sigur că voi veni în S.U.A. Trebuie să fiu la Washington între 27 noiembrie - 5 decembrie. Desigur că voi mai vedea și alte localități, în special New York-ul care mă atrage prin interesul pe care-l trezește pentru activitate, viață, cultură - așa zice prin îndrăzneala lui atît ca oraș cit și ca posibilități.

Aș dori să cunosc care sînt posibilitățile D-tale de a fi împreună cu mine pentru două săptămîni. De acest lucru depinde dacă voi veni însoțită sau nu.

Întîi mă voi duce în Mexic și de acolo la New York. În Mexic voi sta timp de 10 zile și voi fi însoțită de D-na Dr. Magdalena Ionescu, pe care ai cunoscut-o.

Te rog să-mi spui dacă vei fi liberă și dacă ai putea să mergi cu mine și în alte orașe, bineînțeles nu pe contul D-tale.

Eu tot mai am plictiseli cu gîtul, dar sper să fiu mai bine pînă vin în S.U.A. De acest lucru depinde și necesitatea de a fi însoțită sau nu.

Aștept răspunsul D-tale.

U.S.A.

Sintem la capitolul corespondență, acasă cu Ileana, și in primul rind mă opresc la tine.

Îți mulțumesc pentru urarea plină de simțire pe care mi-ai făcut-o, ca și pentru aprecierea și prietenia ta cu totul deosebită. Imi recomanzi să muncesc mai puțin - caut, dar e greu.

In ultimul timp am călătorit mult - nu eram aici cînd a sosit felicitarea ta. Am fost in Maroc, unde vor să înființeze un institut de geriatrie, și am petrecut revelionul într-o splendidă atmosferă marocană de cel mai bun gust. Apoi am fost in Spania, unde activitatea a fost foarte intensă, dar primirea a fost așa de grandioasă: 13 interviuri, o emisiune la radio in direct cu publicul (întrebări și răspunsuri), o emisiune de o oră la televiziune la masa celebrițăților (tot întrebări și răspunsuri). Tot timpul cit am stat acolo n-a fost frig. Am avut noroc de soare și cer albastru.

In afară de activitatea științifică, am vizitat Barcelona. Sigur că ai auzit cit e de interesantă și una din cele mai vechi așezări urbane. De asemeni Valencia, pe care o cunoșteam deja. Impreună cu D-na Dr. Ionescu, care cunoaște bine limba spaniolă, am fost într-un weekend la Palma de Mallorca. Aici n-a fost prea cald, totuși mai cald ca la noi (dar seara ieșeam cu blană).

De o lună sint in țară. Deocamdată nu-mi fac planuri, dar aș vrea să știu dacă voi veni la Washington - și poate ar fi bine să vorbești cu Janitschek dacă va fi sau nu "anul bătrîneții". Ce se mai aude cu statuia? Este vorba să plec in martie in Italia și să mă întorc pe 15 aprilie. S-ar putea să mă opresc la Viena. Ii voi scrie și eu direct lui Janitschek, dar poate să-i vorbești D-ta mai înainte.

Nu știu dacă se va ține conferința la Casa Albă și dacă directorii de institute sînt invitați. Dacă se va ține și voi veni în S.U.A., aș dori să știu dacă putem fi împreună. Aceasta - după cum știi - este pentru mine o mare mîngiere sufletească.

Anul acesta Congresul Internațional de Gerontologie se va ține în iulie în R.F.G. și cred că e obligatoriu să particip.

Starea sănătății mele este destul de bună. Gitul e ceva mai bine și îl îngrijesc.

Aștept vești bune de la tine.

Cu dragoste,

A handwritten signature in dark ink, consisting of a series of fluid, connected loops and a long horizontal stroke at the end, resembling a stylized name or initials.

U.S.A.

Iarăși scriu în grabă. Mîine plec spre Maroc și mai tîrziu în Spania.

Sigur că-mi va lipsi compania D-tale care face ca șederea mea la New York să fie cea mai plăcută.

Azi am vizitat pe mama D-tale care ca de obicei se vaită, totuși eu am găsit-o într-o stare bună, cu atît mai mult cu cît n-o văzusem de mult.

Legături cu oamenii din S.U.A. am mai avut, cu Dr. Butler, cu Ianischek, care-mi trimit știri pe de o parte despre gerontologie, pe de altă parte despre Anul Bătrîneții. Cred că în 1981 va avea loc ședința la Casa Albă și sper să particip și eu. Sigur că atunci voi sta și la Washington și la New York. Așa că aștept cu plăcere să te revăd.

Pînă atunci îți urez un an nou fericit D-tale și toți ai D-tale și să ne întîlnim iarăși. *cu*

P.S. După 15 ianuarie voi fi în țară.

SUA

12 iunie 1980 / 2110

Mrs. Elizabeth Ilescu
40, Harrison Street, Apt. 20E
New York, N.Y. 10013
U.S.A.

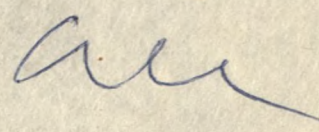

Cum vara stau mai mult in București, am început să scriu prietenilor, printre care te numeri și Dumneata. In realitate cred că ți-am mai scris o scrisoare și n-am primit nici un răspuns. Dar nu era vorba de nici o cerere.

Anul acesta cred că in luna octombrie voi veni din nou in S.U.A. Nu știu dacă voi veni însoțită sau nu. Programul cuprinde cîteva zile la New York și apoi la Washington. Îți voi scrie din nou cînd voi ști exact data călătoriei mele.

Te rog să fii așa de bună să-i comunicîi lui Lucy că am primit pachetul prin Domnul Răiescu (culoarea și șamponul necesar). Te rog să-i mulțumești foarte mult din partea mea intrucît eu nu mai am adresa ei. Dacă poți, poate tot prin Domnul Răiescu, să afli adresa D-nei Kay din Palm Beach pentru că n-am putut să-i mulțumesc încă pentru primirea ce ne-a făcut-o mie și colaboratoarei mele. Are un apartament minunat in Palm Beach, foarte frumos mobilat. Deși am fost acolo, n-am notat adresa.

Secretariatul n-a mărit din nou cu două colege pentru limba franceză și pentru germană. D-na Busch a ieșit la pensie.

Aștept noutăți de la Dumneata.

SUA

Lizeta Gheșcu

11 ianuarie 1980

Dragă Lizeta,

Formele sînt aproape gata pentru plecarea spre S.U.A. și, pe lângă toate celelalte scopuri, pentru a avea plăcerea de a na revedea.

Intrucit ma înțeles că ești așa de ocupată și n-ai putea să mai stăm tît timpul împreună ca altă dată, voi veni însoțită de un medic-femeie, foarte amabilă, tinără. Sper să mă impac bine cu ea. Dar în orice caz, sigur că va fi loc ca să stăm în trei cît timp voi fi la New York sau Washington.

Programul meu este următorul:

Se pare să voi pleca întii în Florida, apoi în Nevada, trecînd prin New York la aeroport, iar după 27 ianuarie voi fi ori la Washington ori la New York. Vei ști mai precis prin Dl Răiescu care sper să vină la aeroport în tranzit pentru a discuta programul.

Acum fac preparativele cu Ileana, care scrie. Ca de obicei este foarte mult de lucru, dar destul de interesant.

Mama dumitale este bine îngrijită, deoarece medicul care este acum la sectorul ei e foarte conștiincios.

Mrs. Lizeta ILIESCU
40, Harrison Street, Apt. 20E
New York, N.Y. 10013
U.S.A.

Dragă Lizeta,

Mi-a făcut mare plăcere scrisoarea ta.

Programul meu pentru S.U.A. incepe in decembrie, spre inceput si voi sta acolo aproximativ o luna, cautind sa vizitez in acelasi timp Florida si California. Si mai ales Institutul de Gerontologie din Bethesda, personalitati din Washington, plus prieteni si pacienti.

Sigur ca pentru mine ar fi extrem de placut, dupa cum ti-am mai scris, sa fim impreuna un timp. Voi cauta ca si altadata sa aranjam un apartament. In momentele in care n-ai putea sa stai cu mine, voi sta si singura.

Cu Luci am vorbit si iti multumesc foarte mult ca mi-ai facut comisionul.

Aș vrea să-i văd pe toți prietenii noștri și în același timp să-l mai ajut pe Răiescu în activitatea sa. Dacă poți, dă-i un telefon și anunță-i sosirea mea.

În primul rând, D-ta ești prima pe listă de a te vedea și a sta cu D-ta, dacă se va putea. Întotdeauna aceasta a fost o plăcere și mi-ai fost și de mare folos.

Paty Alper s-a adresat cu rugămintea de a înființa un centru în Bahamas. Sigur că aș vrea să vorbesc și cu ea.

Aștept cu nerăbdare să ne revedem.

Amu

11 aug. 1979

Draga soamnă Profesor,

Mă grăbesc să vă răspund imediat prin această aerogramă în speranța că o veți primi în timp util. Am primit ieri frumoasa dumneavoastră scrisoare pentru care vă mulțumesc mult. Laudele mă copleșesc precum și bunăvârta dumneavoastră de a o vizita pe mamă, și pentru care vă mulțumesc din nou, din suflet.

Noi ne ne-am mutat încă definitiv la Washington, deocamdată numai eu, prin în dec. când revine ginerele meu din Thailanda unde face cercetări lingvistice. Deși am venit pentru weekend, pentru prima oară de o lună, și mi've plec înapoi, altcari vin cu autobuzul și plec înapoi în aceeași zi fără a veni acasă. Mutarea definitivă va avea loc numai în circa un an, dacă hotărîrea copilor rămîne definitivă pentru Washington.

Dacă veniti în U.S.A. după Crăciun sper să pot fi cu dumneavoastră, dar dacă vizita aici are loc mai devreme nu pot veni decît să vă văd o zi, două, spre marele meu regret.

Am chemat-o azi pe Lucia care vine la București la 19 aug. cu Panam, va sta la Athénée Palace două zile pentru a vă vedea pe dumneavoastră, după care pleacă la Eforie pentru cură. Vă va chema acasă îndată ce sosește la hotel, are transferul de la aeroport, asigurat de Turism. Am vorbit și cu Raiescu care s-a oferit să

Mrs. Lizeta ILIESCU
40, Harrison Str. #20E
New York, N.Y. 10013
U.S.A.

De curind m-am intors dintr-o ultima calatorie in Venezuela si Mexic. Nu am stat decit 3 saptamini, trebuind sa ma intorc in tara intrucit incepe sezonul de pacienti straini care vin la noi la tratament.

Acum plec din nou pentru 3 saptamini in Europa. O sa-ti mai scriu din drum.

Nu am avut adresa lui Lucy, deaceea am trimis felicitarea prin D-ta. Dacã o mai vezi, roag-o sa anunte de acuma data sosirii la Otopeni. In iulie si august sint aproape sigura ca voi fi in Bucuresti. Cind vine, o rog sa nu uite loțiunea pentru permanent care nu mi-a dat nici o alergie. Aș dori sa refac in cursul verii un permanent. Te-aș ruga sa-mi trimiti pina ma intorc si adresa lui Pablo, intrucit m-a rugat sa trimit o invitatie pentru el si Dna Freeland.

. Rămîne sa scriu din drum si sa-ti dau detalii, acum trebuind sa-mi pregătesc lucrările in vederea plecării.

DI Răiescu a fost pe aci. Mi-a arătat fotografia din Palm Beach. Dacã n-o ai, cereți-o. Poate ca voi aranja cu el sau poate cu Dr. Butler, Directorul Institutului de Gerontologie din S.U.A., care va veni in România, sa revin in toamnă in S.U.A.

Dna Iliescu,

Dragă Lizeta,

N-am primit scrisoare.

Am fost într-o ultimă călătorie în Venezuela și Mexic. Nu am stat decît 3 săptămîni, trebuînd să mă întorc în țară întrucît se apropie sezonul de pacienți.

Acum plec pentru 3 săptămîni în Europa. Dacă o să am timp liber o să mai scriu din drum.

Nu am avut adresa lui Lucy. Deaceea am trimis prin D-ta felicitare. Dacă o mai vezi, să anunțe de acuma data cînd vine. În iulie și august sînt aproape sigură că voi fi în Buc. Dacă vine, să nu uite loțiunea pentru permanent care nu mi-a dat nici o alergie și pe care aș vrea să refac în cursul verii un permanent. Dacă ai vrea, să-mi trimiți pînă mă întorc și adresa x lui Pablo, să-i scriu ceva, întrucît m-a rugat să-i trimit o invitație pentru el și Dna Freeland.

Rămînînd să scriu din drum, acum îmi pregătesc lucrările împreună cu Ileana- Dar mai tîrziu îți voi da detalii. Dl Răiescu a fost pe aici. Mi-a arătat fotografia din Palm Beach - dacă n-o ai, cerei-o. Si poate că voi aranja cu el, sau poate cu Directorul Institutului de Gerontologie din SUA - Butler - care va veni în România - să reviu în toamnă în SUA.

New York, N.Y. 10013
U.S.A.

Dragă Lizeta,

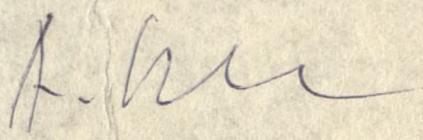

Acum s-a hotărât drumul pe care-l am de parcurs și după călătoria în Argentina ce se va efectua între 23 octombrie și 2 noiembrie, voi fi la New York între 3 și 7 noiembrie. Poate în acest interval de timp voi merge pentru o zi sau două la Washington.

În orice caz, știi că-mi va face o mare plăcere să fim împreună. Cred că ar fi bine să stau tot la "Doral" și te-aș ruga să vorbești pentru aceasta cu Răiescu, iar el să vorbească cu Laura pentru a avea aceleași condiții pe care le-am avut când am fost amândouă la "Doral" penthouse. Sînt și aproape de Ambasadă și de Răiescu, ceea ce este iarăși un avantaj.

În ziua de 10 noiembrie trebuie să fiu la Reno, Nevada și în ziua de 15 noiembrie la Philadelphia. La sfîrșitul acestor drumuri voi fi din nou la New York. Si nu știu dacă nu voi face și o vizită în California și Florida. Deci voi rămîne aproximativ o lună în S.U.A.

Fii bună, deci, și pregătește-te dacă vrei să mă însoțești într-una din aceste călătorii, întrucît eu sînt invitată și cu însoțitor. Dacă vrei să-mi scrii ceva, te rog să-mi răspunzi la Sheraton Hotel în Buenos Aires, unde voi fi între 23 octombrie și 1-2 noiembrie.

Deabia aștept să te văd.

New York 22 aug. 1978

dragă Soamnă Profesor,

M-am bucurat mult la primirea scrisorii de la dumneavoastră și de vestile bune pe care mi le dați, prima fiind sosirea aici, apoi viajul superb pe care-l faceți în orient. În prezent sunteți la Tokyo, la congres, unde sper că totuși mergeți bine și, în afara de lucrări, aveți timp să vedeți frumoșetea ce vă înconjoară.

Patty Alper e extrem de perseverentă, m-a sunat și pe mine de 2-3 ori, e foarte contrariată de faptul că nu i se da un răspuns clar, da sau nu, ci tergiversări, eschivări, etc.

Ann Turner m-a chemat recent, dorind să știe când sosiți, rugându-mă să vă scriu că dorește să vă vadă când veniți, în legătură cu cartea pe care o scrie. Se pare că lucrează cu asiduitate și meticulozitate dorind să facă o lucrare bine documentată.

E bine că n-ați venit în vară, aici căldura umedă e insuportabilă. Cred că mă veți amuza cu câtva timp înainte așupra datei sosirii ca să mă fac liberă, să nu fiu plecată din N.Y.

Sanda a făcut o vizită fulger la

MSA Glescu

New York 14 dec. 1977

Dragă Doamnă Profesor,

Vă mulțumesc mult pentru
reîntoarcerea de la Roma, din care
am aflat că ați ajuns eu bine,
și - deși v-a obosit zborul - simțeti
relaxată, în atmosfera pe care o
înțeleg.

Sper că v-ați ^{după} continuat
în Spania și la Paris așa cum
aveți în program.

Deși s-a dat la televiziune,
în cadrul emisiunii de știri de la
ora 6 p.m., în două serii conse-
cutive, la capitolul "sănătate",
reportajul despre Gerovital H3. S-a
făcut mult din partea de la
recepție, prezentându-vă pe Dumneavoastră
doar la începutul interviului, pe
Bailey de loc, pe Lillian Fish și încă
2-3 persoane fosti pacienți necu-
noscuți. Evidența, în linii gene-
rale, a fost bună, punând în
vizorul general medicamentul a
cărui inventatoare simțeti și pe
FDA care se opune la introduce-

2
rea unor produse cerute de marile pu-
blice, cum este și haetrile (pentru
cancer). S-au arătat și fotografii ale
capurilor de alopecie și năvăliri pre-
matură, și Răescu va va expedia
toate fiarele și nevestele în care s-au
scris articole, și punându-le la
cirou pe toate.

Patty Alper m-a găsit la telefon
și mi-a spus că a fost la Washington
și-l vada pe el Ambasador căruia
i-a dat în scris un memoriu do-
cumental, promițând că va trimite și
un neavastă același material. Afi-
m-a chemat din nou și mi-a spus
că poate va avea un răspuns săptămă-
nă această. Cu privire la Dr. Adler
m-a informat că nu este dr. în
medicină, ci doar „podiatrist” și
deci, mi-a duce pe mama ei la el
pentru tratament.

lui Pablo îi scriu acum o
felicitare repetind mulțumiri le
un neavastă pentru buna recepție.
Verificând lista am constatat că
am vorbit cu toată lumea înainte
de plecare.

Aici a venit iarna cu frig
vânt tăios, dar fără zăpadă.

Sper să nu găsiți prea frig
la București la întorcerea acasă
și să nu vă aveți prea mult de
lucru ca să vă obosiți din nou.

Concordeul zboară și de la Roma
la N. York sau doar de la Londra
sau Paris? Sursele mai mult
dumurite la aeroport decât zborul
în sine! Sui veti povesti la în-
trarea și/sire aici.

Vă mulțumesc pentru furna-
sele și caldele surse în care
mă călcați. Bucuria și onoare
de a fi împreună sunt pentru
mine un privilegiu deosebit.

Vă îmbrățișez cu toată
dragostea și respectul.

Lașcuță

Dragă Lizeta,

Mi-a făcut mare plăcere să am vești de la D-ta prin Dl Iliescu. Sigur că, după cum mi-am dat seama, a fost foarte fericit să vă vadă și să cunoască în același timp succesele dobândite din punct de vedere tehnic și social.

În același timp m-am bucurat să primesc loțiunea medicală din partea *lui Pablo*.

Cele două vorbe pentru el ți le pun în plie, cu rugămintea de a i le transmite, necunoscându-i bine adresa.

Acum am bucuria să te anunț că în octombrie și noiembrie voi fi în Statele Unite și ca de obicei mi-ar face mare plăcere să fim împreună. Între 21-23 octombrie se va desfășura un congres la Charlston în Statul Virginia și apoi Congresul de Gerontologie de la San Francisco; urmează o conferință de presă cu ocazia lansării cărții lui Beiley și în fine o întâlnire a directorilor Institutelor de Geriatrie la Betseda în Statul Maryland și la O.M.S. unde voi fi Advisor. Probabil vor fi și alte drumuri, poate în Nevada sau în alte locuri din California.

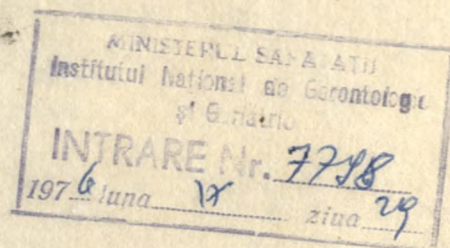

Mă bucur încă de pe acum că te vei revedea. Bineînțeles, aș vrea să știu dacă ai putea să mă însoțești măcar în unele din aceste locuri, la New York sau Washington, sau ești foarte ocupată?

În așteptarea revederii rămân cu toată dragostea,

Dragă Lizeta,

M-a intristat vestea neozului pe care l-ai avut
cu hoții.

Îți scriu în mare grabă deoarece plec peste două
zile într-o călătorie în Germania, Olanda, Elveția, Franța
și Spania și îți voi mai scrie după drum.

Nouă ne-ar face tuturor mare plăcere să vii la noi,
să ne ajuți la Congres. Poate vom aranja ceva cu Dl Răiescu.

Dacă va fi posibil să vin pînă atunci la New York,
te voi anunța.

Te rog foarte mult să-i mulțumești D-lui Mansony
din partea mea și să-i transmiți complimente.

De asemeni te-aș ruga să vorbești cu Dr. Berger, dacă
il interesează, să pregătească un raport asupra îmbătrînirii
și depresiei (The Depressed Aging Patient).

INTRARE Nr. 3756
1976, luna 5, ziua 4

N-am mai avut vești de la D-ta, dar acum îți dau vești care cred că o să te bucure. Sint aproape sigură că voi veni pe la 5 sau 6 iunie la New York. Sigur că-mi face plăcere să te văd și să stăm ca altădată. Deaceea îți scriu sa să te faci liberă. Vorbește și cu Răiescu. Motivul venirii - întâi un congres de Gerontologie Educațională la Virginia Beach care durează numai 3 zile și apoi voi veni la New York. Îți voi mai scrie după drum deoarece călătoria se face în multe țări din Europa și până în Kuwait, iar de aici, din una din aceste țări voi veni direct la New York. Îți voi scrie când să anunți prietenii pentru că nu sint încă absolut sigură, însă formele sint făcute.

Intr-una din zile am văzut-o pe mama D-tale. Ca sănătate se poate spune destul de bine. Ii voi scrie acum și D-lui Răiescu.

Dear Dctor Aslan:

At the suggestion of the Editor of "EPOCA" magazine published in Milan, Italy - I am writing you to find out details about your wonderful H-3.

I am 75 years old, retired after being a barber for many years. My legs feel weak and after reading in the above mentioned magazines about the many sensational cases of rejuvenation performed by you with your H-3, I wonder if it will do the same for me.

Kindly let me know the price of H-3 and whether it is a liquid medicine to be taken by mouth or is it injections. Also tell me if you can send same to me C.O.D. once I know the price.

Since I am very much interested in learning the facts about your H-3, I will appreciate it very much if you reply to this letter by an early mail for which I thank you in advance.

Very truly yours,

Anthony Jacobacci

Mr. Costa Iana
22 Kilsyth Road
Medford, Mass. 02155

Stimate domnule Iana,

Am primit scrisoarea dvs. din 21 septembrie a.c. prin care solăcitați informații referitoare la tratamentul cu Gerovital H3.

Tratamentul acesta are o influență favorabilă asupra întregului organism, regenerându-l și stimulându-l. Vă trimit alăturat informațiile noastre generale, precum și adresele la care puteți procura produsul original Gerovital H3. Din păcate, legile americane interzic importul de medicamente străine și în consecință urmează a vi-l procura din Europa prin persoane care călătoresc sau dacă reușiți să obțineți permis de import de la Food and Drug Administration.

Dacă doriți alte informații de ordin medical vă vom sta cu plăcere la dispoziție.

Cu bune salutări,

Anna Aslan

Dear Sir,

I have received your letter of February 17, concerning the case of Mrs. Inglis.

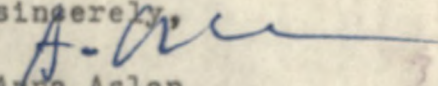

I inform you that our product "GEROVITAL H3" is now manufactured on an industrial scale and is exported to different countries. Its sale is handled by the Rumanian exporters CHIMIMPORT, 12 strada Doamnei, Bucharest.

Being a procaine solution buffered and satbilized after our own procedure, it has been proved to be more affective than other procaine (novocain) solutions, during comparative experiments carried out by our Institute.

The treatment with GEROVITAL H3 could be associated with the medication specific to the case of Mrs. Inglis.

We shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Dear Mrs Aslan:-

We have been giving my wife your recommended Novocain treatment for 13 months and as she does not seem to respond I wanted to write you to see if we are doing something that we should not be doing or if we are not giving the treatment correctly.

Mrs Inglis is 73 years old and four and one half years ago she complained of being dizzy and our Doctor, Dr Collis, sent her to Stanford Hospital in San Francisco for a complete check up and their findings were that she had hardening of the arteries of the brain and as a result she has lost the power of speech, She can not feed herself or take care of herself. She can walk with a little help and move her arms and hands and there seems to be no paralysis. Our doctor had no remedy for her and on the advise of consulting doctors they started giving her Ritalin, Amio acid, Iodio Niacin, Metrasol and Oxygen.

On December 1958 we saw the article in Coronet and sent for the English translations of the seven papers from the Consultants Bureau and in January 1959 our doctor commenced the Novocain treatment and have continued it ever since.

While we feel that the treatment has arrested the progress of the disease, we were wondering if there is something that we should be doing that we are not doing at the present time. If you can give us any further advise we would appreciate it very much.

Yours truly
W E Inglis

Dear Mr. Aslan, Prof. Ciocub

I have read on and off for several years about your discovery B43 or Gerovital.

I also realize that I will never have a \$1,000 to spend to come to your clinic at the Romanian Institute for Geriatrics.

I am a 39yo, male in good physical health

No. 9841301E-1978
I weighing 155 lbs and troubled with a depression that 4 years of antidepressant medications and 16 years of therapy has not been able to resolve.

In many ways I regret that only the wealthy and well known are able to benefit from your treatments.

I implore you to please send me some information about the
(over)

3 medication - appropriate dosages,
any contraindications etc,
and some information about
pharmacies anywhere that
I might purchase a supply
and have it shipped to
me.

I promise you that I am
a responsible person and will
follow instructions and any
medical follow up such as blood
test or whatever be needed

Thank you for your time and
consideration. cord. cards

Dr. Ana Aslan
Romanian Institute of
Geriatrics
Bucharest, Romania

Dear Dr. Aslan:

I have read, with great interest, the enclosed item regarding the wonderful discovery you made.

I am most anxious to relay this information to as many persons as possible via letters, newspapers, radio, television or in any way that I can.

I would like to know if you would be kind enough to give me your permission to tell as many persons about the GH3 as possible.

I am hoping that if many persons learn about it, that some of our Drug Manufactures will make it available to the U.S. States and that our Food and Drug Association will approve it for us and of course I not only think of our own people in the U.S. but do hope that it can be made available to all persons all over the world.

Is there anything that you would like me to know and be able to tell about GH3, or YOU that is not in the enclosed article?

I will be most grateful if you would find time to answer my letter and allow me to help "spread the word" about you and this miracle that you have discovered.

Sincerely,

Marjorie Ingram

Marjorie Ingram

Enc. Newspaper clipping
from The Star (photo copy)

PH: I would really appreciate and enjoy having a photograph or snapshot of you if you happen to have an extra one.

Thank you,

New miracle drug could help you live to be 150, claims doctor

A NEW miracle drug can help you live to 150 according to the prominent doctor who discovered it.

The drug, GH3 or Gerovital, already is widely used and sold over the counter in 42 European countries, and reportedly has been used by many well-known persons and movie stars.

However, the U.S. Food and Drug Administration has not yet approved the drug's use in this country.

Dr. Ana Aslan, the 78-year-old Romanian physician who pioneered the fountain-

of-youth research in 1956, told THE STAR: "There is no reason why man should not now live to be 150 years old in full vigor."

She said she discovered the drug, which also is said to cure depression, "in my lab at the Romanian Institute of Geriatrics in Bucharest while working on cellular studies.

"I discovered that GH3 has regenerative effects on cells and actually works to

prolong the vitality, youth and life of the cell," said Dr. Aslan, who received her M.D. degree from the University Bucharest in 1924.

Veteran medical researcher Herbert Bailey told THE STAR: "An application from the Rom-Amer Drug Company in Nevada is under consideration by the F.D.A. If approved, GH3 will be available in the U.S. within three months.

Dr. Bailey, the author of the GH3 (Bantam book, \$1.95), says he has been taking GH3 for 15 years. He describes himself as "an 87-year-old who still drinks vodka martinis and has friends who say I look 50." He added: "There haven't been any side-effects noted as yet. It cured my bad back and my arthritis. It's perfectly safe."

He suggested that people should start taking the drug at the age of 30 or 35, "in order to preserve the body and the mind. GH3 is no longer a theory. It is a fact.

"The F.D.A. has over 500 laboratory studies on GH3 on file. They should approve its use in the U.S.," he added.

An F.D.A. spokesman told THE STAR: "We'll make a decision in the next few months."

GH3 consists of a two percent solution of procaine (a form of novocaine), with benzoic acid added as a preservative and potassium metabisulfite as an antioxidant.

Dr. Aslan recommends the capsule-form drug "for anyone from 2 years of age to 150 years of age."

At a recent party in New York to hail the effects of GH3, artist Salvador Dali told THE STAR through an aide:

"I get all my artistic vibrations out to the tips of my mustache from GH 3."

Bailey said: "Many well-known movie stars have visited Europe for GH3 treatments, but they will not admit publicly that they are using an anti-aging drug. They want the world to think they are ageless by some miraculous intervention."

Until the F.D.A. approves GH3, Americans can travel to Romania for a two-week stay at a government clinic to learn about the drug and take home a two-year supply.

The trip and the drug cost about \$1,000. The trip can be arranged through the Romanian National Tourist Bureau in New York City.

One 62-year-old, who asked to remain anonymous, told THE STAR: "I'm in my prime of life. I have no wrinkles. I'm spry. I'm in perfect health due to GH3."

A 70-year-old male believer said: "I'm not showing the normal signs of old age like balding. GH3 is the elixir for a youthful life."

But Bailey warned that "imitations of GH3 are beginning to creep into the United States.

"These imitations, known as 'KH3' and 'Gerovital Plus', have not been as thoroughly tested as GH3. The public should be careful," he added.

Dr. Aslan said: "I know these imitators are making money on our discoveries. I make no money, nor do I wish it. I want the world to have the benefit of our findings."

Dr. Anna Asland,
Bucharest, Roumania.

Dear Doctor Asland:

My purpose in communicating with you is three-fold.

First, I wish to ask you to inquire into the latest methods of treating emphesema, if you do not already know them, and transmit any information you may obtain that would assist me in dealing with both a personal problem and one also of general humanistic interest.

I have a friend who has this dread disease, for which I have been told there is no cure. And recently I read a book on smog in the USA, With Every Breath You Take, which has added to my already general interest in air pollution and remedies for it. An American doctor writing recently on the subject estimated that between 10% and 15% of American males have this ailment and stated that many of them do not find out about it until it is well advanced. Do women also have it?

There is every indication that smog, and its attendant harmful effects will become worse, in the USA, before it gets better and anything that you can tell me about this that will help medical and/or non-medical persons to deal with this complex health and socio-political problem will be useful and greatly appreciated. I read in the Los Angeles Times recently that Tokyo is even more plagued with smog than Los Angeles. Is there much smog in the Socialist countries? Is it a health problem in your country?

An important and related matter is the degree of progress that has been made in the Socialist countries, in the matter of human body replacements. Perhaps the time may come when a man, anywhere in the world, needing a new lung, may fly to a distant city and get a replacement.

It has been several years since I have seen anything on this in the American press, at which time I recall seeing a picture of a large dog on which Russian scientists had grafted the head of a smaller dog, and the arrangement had been working for sometime.

Even a non-medical person like myself can recognize the tremendous advancement in this feat which meant that the central nervous systems and the circulatory systems of the two dogs had been connected. The story related that this had been working for sometime and that whenever the host dog did something that the guest dog did not like, it bit the host.

With so much emphasis nowadays, in the USA, being placed on killing people, instead of saving them, all worthwhile processes are being slowed down, in this country.

My second reason for writing to you is to thank you for discovering and developing the remedy, H-3. I have received great benefits from this medicine, both from Dr. Cecelia Rosenfeld, and others.

And the latter part of 1959, I had some correspondence with you about obtaining this medicine for my husband who had suffered a crippling

stroke in 1951 and could not dress himself.

The National Guardian, in New York, stated that you would send this medicine to persons who wrote you asking for it. My husband asked me to write to you, which I did, and you replied that if I would see the Customs Bureau and obtain an Import Permit and send you the number of the Permit, which you would put on the medicine you sent to me, that you would send it.

But, when I asked the Customs people for this permit, they said that I did not need it, and when I communicated this information to you, you replied that they were holding up shipments for lack of such numbers. At that stage of the discussion, my husband died. Later, I obtained shots from doctors that greatly helped me.

There seems to be several varieties of medicine available in the USA, all under the name of H-3, and I have had some of this medicine given to me, but it did not do the work that the original H-3 did.

I have been told that the American Medical Association will not let H-3 come into the USA, is that true?

At the time that I tried to get an Import Permit, I was questioned sharply on the basis of it being a narcotic.

Is there a possibility of my getting some H-3 medicine from you, either sent to me, or to a medical doctor in this country, for my own use?

And thirdly, and finally, my purpose in writing to you is to send you the accompanying booklet, which is self-explanatory. I am sending it in appreciation of the great socially beneficial work you are doing, and should, of course, be glad to have any opinions, either pro or con, concerning it that you would care to express.

With warm personal regards, and best wishes, I am,

Sincerely,

Mary Inman

U.S.A.

Dear Mrs. Ippolite,

In answer to your letter I have to inform you that Gerovital H3 has no side effects. The only caution is to avoid simultaneous use of Gerovital H3 with sulphonamides (inactivation). It should not be injected after previous administration of eserine or neostigmine. Before starting the treatment with Gerovital H3 it should be tested the tolerance to it: first day - 1 injection of 1 cc subcutaneously; second day - 1 injection of 2 cc intramuscularly. If after this test the patient does not present any allergical phenomena, he may begin the real treatment.

For your information I am sending to you enclosed herewith a brochure regarding the geriatric treatment in Romania, and our conditions.

If you decide to come to us, please, let us know in time the date of your arrival, in order to make a reservation.

Waiting for your decision, I remain

Yours sincerely,

Acad.Prof. Ana Aslan, M.D., D.Sc.
General Director
National Institute of Gerontology
and Geriatrics

Dr. Doctor

For many years now, I have been reading about your antiaging process and would very much like to know more about it right from the source..

Somewhere I read that it can be obtained somewhere in the U.S. I assume with your permission and is called Serovital H3.

Can you give me more information on this, what are the pros and cons, are there any side effects if so what does blood pressure and other things have any bearing on it or any other contraindications, does one come to your clinic or can it be done in the U.S. & - Cost, Time etc please

Thanks very much

on coming to your Clinic for
next spring- have many questions.

How long does a patient stay?

What is your climate like in comparison to
what part of the United States? Is it like
San Fransisco? or more like Seattle?

Does the patient stay in the Clinic or in
a nearby Hotel?

Is there a train into Bucharest? From France?
What is the price of the treatments? and the
Price of the Gerovital h3 that I take home
enough for 1 year for Injections?

Thank You

Mrs. Lucile Irby

Dear Miss Irish,

Thank you for your letter and for your interest in our product. The treatment with Gerovital H3 may improve your condition.

If you want to come and undergo a treatment under our direct supervision, I am sending you enclosed herewith our conditions. If not, you can obtain the medicine from one of our representatives on the enclosed list, and you may consult a physician who knows very well our method of treatment (see the enclosure).

I shall gladly give you any further information or whatever advice you might require.

Yours sincerely,

Acad. Prof. Ana Aslan, M.D., D.Sc.

*A Prayer For Those
Who Live Alone*

I live alone, dear Lord,
Stay by my side,
In all my daily needs,
Be Thou my guide.
Grant me good health,
For that indeed, I pray,
To carry on my work
From day to day.
Keep pure my mind,
My thoughts, my every deed,
Let me be kind, unselfish
In my neighbor's need.
Spare me from fire, from flood,
Malicious tongues,
From thieves, from fear,
And evil ones.
If sickness or an accident befall,
Then humbly, Lord, I pray,
Hear Thou my call.
And when I'm feeling low,
Or in despair,
Lift up my heart,
And help me in my prayer.
I live alone, dear Lord,
Yet have no fear,
Because I feel Your Presence
Ever near. Amen.

Dear Prof. Aslan:

I read with interest in the National Guardian the report on the work being done in your clinic. So much interest was aroused that the Guardian has now printed your address for the benefit of persons who like myself would like further information.

Does your treatment consist of taking Vitamin H³, alone or is this given in conjunction with something else?

Are you now marketing Vitamin H³, and is it obtainable direct from your clinic? If so, what price are you charging for it?

I will greatly appreciate hearing from you at your earliest convenience. Thank you in advance for your courtesy.

Yours sincerely,

Diane Irvine

267 Cordanille Road
Ashland - Mass.

Dear Mrs. Irving,

We confirm receipt of your letter and consider that a prolonged treatment with Gerovital H3 might have favourable results in your case, as it has also a direct action upon the nervous central system.

However, before giving you any definite opinion, it would be necessary for us to receive a medical report from your physician.

Should you decide to undergo the treatment, kindly keep us informed about the results obtained.

Yours sincerely,

Dr. C. David

Dear Dr Aslan:-
I received your
letter & thank you so
much for answering.
What I would give
to able to talk with you.
I am going into the
hospital for a blood tests.
my stomach pains terribly
after I eat, no matter
what. some things worse
than others. The soreness
is across my stomach
in a straight line just
above my navel, when I
have pain it pushes
up through my chest

itches & burns when
the acid is real bad.

In the past year or
less I have thickened
2 inches around the waist
& I have been the same
weight for 7 years.

I broke my left leg at
the ankle & tore all the
ligaments out of the calf
of the leg. it was not
set right or stretched
so the heel is one inch
short. throws the body
out of shape. when the
tumors were removed
they worked two hours
taking my intestents
apart, they were all

2.

under my ears & lands
on the top of my head
hurting the roof of my
mouth & bone of my
nose, it also goes
out both arms & they
feel heavy & dead.

Across my shoulders
& up the back of my
head I have tension
most of the time.

I have no strength
around my middle &
can not go up stairs
with out a hand rail
to pull on.

I am 34 years old 5ft
8ins, weight 195 to 210
in matter of days & back
again.

6.
adhered together. it took
3 years to get over the
operations

The human body is such
a wonderful thing. if they
would spend half as
much trying to learn
about it as this country
as they do in burning
up money making mistakes.

Why there is so much
unrest & they think
need for protection.
is that there are so
many sick people
in the world. Did you
ever see so many happy
sick people? and so

in case

Dear Dr Aslan:

I received your letter & thank you so much for answering.

What I would give to able to talk with you.

I am going into the hospital for a blood tests. my stomach pains terribly after I eat, no matter what. some things worse than others. The soreness is across my stomach in a straight line just above my navel, when I have pain it pushes up through my chest

I did farming as a child
 & worked hard & lifted
 heavy things. I had 2
 children 9 years apart
 The youngest one is 23
 now.

Six months after the
 last one was born
 I had the top ^{taken} of my
 uterus it was all
 fibroid tumors, they
 found that out when
 he was born. I had
 Caesarian.

In the morning when I
 wake I perspire until
 I get up, and all my
 insides are so stiff
 you would think I had
 been pounded half to death.

It is very hard to find a
 Dr that will listen
 to all you have to say.
 He puts a lot of what
 you say as it being
 all in your mind.

The past seven years
 I have worked quite
 steady in my nursing
 homes, I had three &
 a day nursery. I don't
 believe what's bothering
 me is just in my mind.

I believe its raw calens
 from nerves & an excess
 amount of acid. every
 thing comes that I eat
 & explodes. the rectum

Bucharest, Rumania.

Dear Dr Aslan:

The article that
Olga Franklin had printed
in the American Weekly about
your procaïne treatments in
the Institute at Bucharest
is marvelous. God surely
has given you a cure
that's out standing for
many ills.

Why do the Drs here not
know more about it?

What your treatments could do
for us if a Dr here with
your instructions treated
us, it would be a blessing

from heaven.

I understand Dr Hermann
Gardner has been treating
patients in New York but
there is not any N.Y. address
for him in the article Miss
Franklin wrote.

I do so wish you would
write to me about your
treatment.

"May God bless you in your work,"

Sincerely

Theresa L. Irving

What Is Music?

(A SALUTE TO ASCAP)

A SPECIAL TV OR MOTION PICTURE FILM MONOLOGUE

Music is joy to the world. Music is sorrow, at its greatest. Music is military - Army, Navy, Marines, Coast Guard, Air Force, Submarines, Astronauts whizzing through the sky.

Music is the soul of both male and female, reaching to every corner of the earth, and painted in beautiful colors. Music is nationality of every origin and of every description and of every country throughout the world.

Music is a circus - a parade, a funeral, a T-V spectacular, a movie masterpiece, a factory theme song.

Music is, associations, fraternities, clubs, religious organizations, schools, unions, all working together and in precision harmony.

Yes! When the trumpet blows, and the rooster crows, please remember to place a smile on your face, and sing along, you'll feel so so so much better "any place."

FRANKIE IZZO

chain you to my heart _____ "Cette"! Love Love

Love Love Love Love Love

The first system of music consists of a vocal line and piano accompaniment. The vocal line is in treble clef with a key signature of one sharp (F#) and a 4/4 time signature. It contains five measures of music, each with a dotted half note followed by a quarter note. The lyrics "Love" are written below each note. The piano accompaniment is in grand staff (treble and bass clefs) with a key signature of one sharp. The right hand plays chords in the treble clef, and the left hand plays chords in the bass clef.

That is all I dream a - bout Love Love

The second system of music continues the vocal line and piano accompaniment. The vocal line has six measures. The first four measures contain the lyrics "That is all I dream a - bout" with notes of quarter, quarter, quarter, and quarter. The fifth and sixth measures contain "Love Love" with dotted half and quarter notes. The piano accompaniment continues with chords in both hands.

Love Love Love Love Love That is

The third system of music continues the vocal line and piano accompaniment. The vocal line has six measures. The first five measures contain the lyrics "Love Love Love Love Love" with dotted half, dotted half, dotted half, quarter, and quarter notes. The sixth measure contains "That is" with a quarter note. The piano accompaniment continues with chords in both hands.

all that's in my heart. — Hoo-ray!

The fourth system of music concludes the vocal line and piano accompaniment. The vocal line has two measures. The first measure contains the lyrics "all that's in my heart." with a dotted half note. The second measure contains "Hoo-ray!" with a quarter note, followed by a repeat sign and a first ending (marked "1.") and a second ending (marked "2."). The piano accompaniment continues with chords in both hands.

Mrs. Corinne Jackson
1919 Arbor Walk Court
Dayton, Ohio 45459
U.S.A.

Dear Mrs. Jackson,

In answer to your letter I have to inform you that we have obtained good results in cases of vitiligo using Gerovital H3. You may try it according to the following schedule:

- One course of 12 injections, 3 injections/week (an i.m. injection of 5 cc every second day). Rest interval of 1 week, after which:

-One course of 24 pills in 12 days, 2 pills/day (1 pill taken 2 hours after breakfast and 1 pill 2 hours after midday-lunch). Rest interval of 1 week after which you repeat the schedule.

Before starting the treatment you should make a tolerance tests as follows:

First day: 1 subcutaneous injection of 1 cc.

Second day: 1 intramuscular injection of 2 cc.

If after this tolerance test you do not present any allergical phenomena, you may begin the real treatment as above.

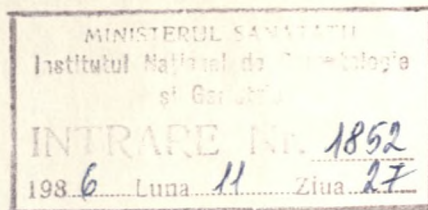

You may order the original Gerovital H3 directly to I.C.E. CHIMICA, our Enterprise for Foreign Trade, Splaiul Independenței 202 A, Bucharest, Romania, Export 6 Department; telex: 11489/10073 danaz r; telephone: 49.26.20.-

Waiting with interest for further news from you, I remain

Yours sincerely,

R O M A N I A

Dear Dr. Aslan:

I am writing to you seeking your help and advice regarding Vitiligo. I am 40 years old and I have had Vitiligo for four years. Having read that you have had success in reversing this condition using Gerovital (GH-3) injections, I would very much appreciate hearing from you regarding the course of treatment that you used. Please include specifics of your proctol, such as any additional vitamins or minerals that you used, special dietary requirements or restrictions, and so forth.

Would you also please advise me if I can purchase GH-3 vials from you, or if there is someone in the United States from whom I can buy GH-3.

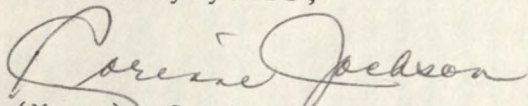

Having Vitiligo has been very devastating for me, and I would be very grateful to you for any help that you can give me. Please write to me at:

Mrs. Corinne Jackson
1919 Arbor Walk Court
Dayton, Ohio 45459
U.S.A.

If you prefer, you can telephone me collect at: 513-433-3242.

Many, many thanks!

Sincerely yours,

(Mrs.) Corinne Jackson

INTRARE 2146
1978 luna III, ziua 22

To whom is in Charge:

I am interested in purchasing
a two-year supply of your miraculous
drug that we are hearing about here in
the United States but unfortunately haven't
access to, at present.

It is the Gerovital (GH3) that
Doctor Ana Aslan discovered in her
lab there.

I plan a trip to Romania in 1980
and look forward to spending two weeks
in the clinic there, as well as some
sight-seeing.

Meantime, I'm a 50 year old who
suffers from depression, as well as the
usual complaints one usually encounters
at this stage of life, and it would
really be wonderful to get this help, I
understand Gerovital gives.

Would you please let me know how I
can obtain GH3 in capsule form, or if
you could send it by mail?

I would be very willing to pay
whatever its cost is, including shipping
charges.

Thank you, and will be anxiously
awaiting your reply.

Yours Sincerely,
(Mrs.) Lois S. Jackson

AUG. 12, 1963

Inf. cepe dent,
in tablete -

Dear Doctor Aslan

A₁-3611/63

enc. 27-XI

We had been reading accounts of your work with procaine in treatment of Geriatric cases, but have read nothing for several years. The work that you are doing is important to the future of every man, woman, and child.

This letter then is a request for a source of information as to the latest developments with procaine, and information as to a oral preparation that would be available in this country.

There is a preparation available called Procestyl put out by Squibb. It is Procainamide Hydrochloride. P-amino N(2 diethylaminoethyl)-benzamide Hydrochloride which is the amide analogue of procaine Hydrochloride. It is available in

.25 gm - oral capsules. pH 5.4-5.8
Any comment as to this preparation
would be appreciated. Thanking You
I am

Sincerely Yours.

Dr. Aslan

I'm sorry I missed seeing you while there since I felt your treatment might have been more effective if I could have had my many questions answered by someone who speaks English fluently.

The doctors here, as you may have guessed are not cooperative with your methods & they feel anyone desperate enough to come to you for help is a hypochondriac & I feel I surely wasted much money when I know you could have helped me more. All Americans are not rich, especially my daughter & I, and each of us only getting 5 minutes of Dr. Davids time was downright wrong. Dr. Cousins was excellent but he would only listen to Frau Kauffman as our interpreter when she would talk to him in one language I couldn't understand & then interpret to me in front of him in another language neither he or I could understand. We could see what she was doing & couldn't understand why. It was her that told us & convinced us you were the only one in the world that could help. She kept us from seeing a Dr. Gehr in Zurich. We are still paying for our trip to Romania. All Americans I met there were either frustrated or mad. We thoroughly enjoyed your Countries hospitality and beautiful setting at Snagou & seeing the Television or Movie Company film at Snagou. That's one 4th of July we will always remember. My prayer is you will arrange proper translations for your Americans in Romania.

Sincerely
Mary Beth Jacobs

Dear Mrs. Jacobs,

Thank you for your kind letter and for your trust
in our researches.

We are informed that you can obtain our pharmaceutical
product Gerovital H3 in London: ARCODE Ltd., Plantation House,
Mincing Lane, London E.C.3, England or The Continental Commercial
and Financing Comp., Rüttenscheiderstr. nr.63, 43 Essen/Ruhr,
Federal Republic Germany.

Also you can apply to Dr. Alfred T. Sapse - ROM.AMER.
Pharmaceutical Ltd., 233 South Beverly Drive, Suite 100,
Beverly Hills, California 90212, U.S.A. (for the prophylactic groups)

Hoping that you will obtain the medicine and will have
good results, we remain

Yours sincerely,

Prof. Anna Aslan, M.D.

Re. : Gerovital H3
.....

Dear Prof. A. Aslan :

I have followed your work and progress
for a long time. My admiration for you
is tremendous.

What I fail to understand is the FDA reac-
tion here. How can they still have doubts.

My biggest wish is to join a research
group as a volunteer.

Can Gerovital be purchased in West Germany
or England ?? Can you help me with a hint
how I could obtain it ??? I know I can fly
to Romania, but right now Can not afford it.

Again, I congratulate you on your fine work.

Sincerely yours

M. Jacobs

Dear Mr. Jackson,

In answer to your letter, I have to inform you that our Institute does not deal with the export of our medicines. You may order them to one of our representatives on the enclosed list.

You can obtain Cerevital H3 more easily and rapidly either from England - ARCODE LTD., Plantation House, Mincing Lane, London EC3; telephone: 01-623 7074; telex: 883476; telegrams: Tenchim London EC3 - or from Switzerland - Pharmacies GROSCLAUDE S.A. Genève, Rive Lac, 2, Cours de Rive (Herr Jacques Winteller); telephone (022) 24.62.15.

For your information we send you a brochure regarding the geriatric cure in our country.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Dear Doctor, KH3

Jahnke 19383/1.8
Circ. 18-X

I am an american citizen who read the articles printed in readers digest about the pill H. H. 3. In our country we don't have anything to help if a man loses some of his sexual capabilities. I have gone to many doctors & they said there is nothing wrong with me, that it is all in the head. But when a man can not get aroused until a woman has to tease and play with him for at least an hour, something has slowed up. I have spoken frankly about my problem and I hope there is some way you can help me. Is it possible to ship me C.O.D. a treatment of H. H. 3, pills. I would be very grateful, because my problem is embarrassing to many men.

Sincerely yours

Herbert Jahnke

My DEAR DR. ASLAN

Will you RECALL OUR SHORT CONVERSATION AT THE ROMANIAN LIBRARY IN NEW YORK ON JANUARY 14, 1975 IN WHICH I SPOKE TO YOU ABOUT THE USE OF GH³ CAPSULES FOR THE TREATMENT OF MY DAUGHTER'S PSORIASIS CONDITION?

I AM ENCLOSING SOME ARTICLES ABOUT THE NEW TREATMENTS BEING TESTED here AND OF WHICH I ALSO SPOKE TO YOU.

I Do hope THAT your TRIP HOME WAS PLEASANT AND THAT YOUR STOP-OVERS AT COLOGNE AND DÜSSELDORF WERE INTERESTING.

With sincerest REGARDS,

M. H. JANCOURTZ

Dear Dr.

since I wrote you I sent you some advice as to apply head shots to the venetel gonail head sutures. I do wish you and million wishes of success in the future. I had not received any answer to my letter. Most committment of our is its unwinnin in cause plus its method of courtesy communication.

However I suppose there are plenty of non militents about that and this careless world that ~~not~~ do not wish to co-operate!

I find it quite amazing and it demoralizes. That is why I came to you

to ask you to feel
free to communicate
with me.

I have been
trying to experiment in a
successful taint and hair
nourisher but as of yet
I have not been able
to succeed ~~only~~ partially.
My youth drug
does not have the full
potence keep the hair entirely
black.

A belated Happy May Day
to you.

I would like to
receive some communication from
you Dr. if you could only
find it in your communist
heart.

Sincerely

Yut Dr. John D. Sanchez

Dear Dr. Anna Aslan:

When I was in Bucharest for my Treatment, I purchased 8 jars of Gerovital H-3 face cream for my wife which she found very beneficial for her skin.

What I would like to know is, may I order some more of this cream, and if you can mail this to me in the U.S.A.?

If this is possible, I will order 12 jars and send you American Express money order to cover the cost of the cream and shipping costs in advance. Please let me know if this possible and amount in American money.

Hoping you and yours are in the best of health, I remain,

Yours Truly,

Attention: Dr. Ana Aslan or Associate

Dear Friends:

RE: GEROVITAL H3

Being into middle-age (a 57-year old woman) I am keenly interested in your Gerovital H3. It is very frustrating to know that such exciting help is available to combat the depression and fatigue that comes with time, but not, it appears, within my reach.

Circumstances will not allow me to come to Bucharest for some years to come. (I hold down a job and am a housewife as well.) I am hopeful that I may be able to order a supply of Gerovital H3 by mail--that and its various cosmetic derivatives. If this is possible, please send information as to how to go about it, its prices, etc., and I will be overjoyed to order.

Perhaps it would be helpful if I were to tell you that I am in good health, but definitely am interested in preventive therapy. Perhaps you would also like to know what drugs I now use. They are: estrogen and an occasional tranquilizer.

Thank you for any help you can give me, and many, many congratulations on your success and on your interest in Geriatrics, a much neglected field.

Sincerely yours,

Phyllis Jaquett
(Mrs.) Phyllis Jaquett

P.S. I am enclosing a stamped, self-addressed envelope.

Dr. Ana Aslan, Director
Romania's Institute of Geriatrics
Bucharest, Romania

Dear Dr. Aslan:

Six month's ago I began taking GH-3 in liquid form (2 teaspoons in about 2 tablespoons of water), in hopes of bringing down my blood pressure. I have been taking this medication once a day an hour before breakfast. As yet, I have not experienced any improvement.

I obtained the medication, GH-3 from a pharmacist named, Dr. Alan Kratz, Executive Director Club Senex in Miami, Florida, U.S.A.

Does Dr. Kratz have your formula? Have you given out your formula to any physicians and would you do so?

For how long a period of time is your medication used and how soon does it take effect?

I would deeply appreciate hearing from you. In fact I would even like to take a trip to Romania to see you for treatment but the trip is so costly and I probably would have to stay there for a long time.

Sincerely,

Ann Jarosz
Ann Jarosz

P.S. Is it possible to get your medication by mail?

Dear Mrs. Jarosz,

In answer to your letter, we inform you that your mother and yourself can benefit or our treatment. For your information we send you enclosed herewith a brochure regarding the geriatric cure in our country.

As regards Gerovital H3, you may order it to one of our representatives on the enclosed list.

We generally recommend alternating courses of injections and pills. If for special reasons injections cannot be associated, pills alone will be administered with ten-day intervals between the courses.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Dr. Ana Aslan
Institute of Geriatrics
Bucharest, Romania

Dear Dr. Aslan:

I have read with interest an article that appeared in our newspaper on Monday, January 31, 1983, with reference Aslan's Gerovital treatment.

I have a mother who is 87 years old. She had a coronary at the age of 79, had 2 minor concussions and other illnesses that she had come through with flying colors. However, at this time, she has hardening of the arteries and has become somewhat senile, her hearing is failing as well as her eyesight. She has conquered her heart ailment, diabetes which is under control, has strength that is unbelievable. I would do anything possible if I could help her conquer senility, hearing and eyesight problems.

I realize that this drug is not available in the United States. Is there any other way that I may purchase this drug for her as well as myself (I am 62 years old) have heart pains and my legs are failing me. Can this drug be administered by following specific instructions or must it be supervised by a doctor. I would be more than happy to have mom and myself be living proof in America that your findings could be beneficial to all aging people in the United States.

May I please hear from you?

Very truly yours,

Eugenia Jarosz

Dear Dr. Aslan:

I read an article in our newspaper this morning "The Birmingham News" about your treatment which slows down the aging process.

I will be 40 this year and am very much interested in learning how, when, and who would be able to give these treatments? Is it possible for my doctor to give me these treatments and if so, where would he receive instructions on use of same? Is it possible that you might send him the necessary information? If so, I will give you his name and address...or would he have to request this himself? His name is Dr. Clare W. Barclift, 1922 Ninth Avenue, South, Birmingham, Alabama.

I know you are terribly busy and probably have little time for answering this letter but it would be greatly appreciated if a reply were possible.

Hoping to hear from you in the near future, I remain,

Very truly yours,

Jo Jarrett

Mr. Erwin Jausz
149 Greystone Avenue
West Springfield, MA 01089
U.S.A.

Dear Mr. Jausz,

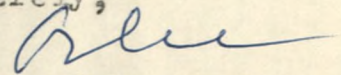

I received your letter and I do not understand why you want to change your mother's treatment if she feels so well after chelation therapy. If you want our advice we would recommend her an Aslavital treatment, which you may order directly to our Foreign Trade Company "Chimimportexport" (our sole exporter) (Blvd. Republicii 10, Bucharest, Romania, P.O.B. 525; telephone: 13.04.46.; telex: 184, 185).

For your wife it would be indicated a treatment with Gerovital H3 according to the enclosed schedule.

And for yourself, if you give up the other medicines, you could try an associated therapy with Gerovital H3 injections and Aslavital pills (indications enclosed).

After a few courses of treatment, please, write us again.

Yours sincerely,

Acad. Prof. Ana Aslan, M.D., D.Sc.

Institutul National De Gerontologie
Str. Ministeria Caldarusani Nr. 9
Bucuresti, Republica Socialista Romania

Dear Madam:

Two days ago, I spoke with your office over the phone requesting for advice on taking GH-3 & Aslvital,- I was advised to write a letter describing our medical conditions.

There are three persons involved: my mother (age 81), my wife (age 54) and myself (age 59)

My mother had two slight strokes,- one in the fall of 1982 which we did not even notice and one in February 1983. Thank God, none had left any damage of significance! My mother has some slight increase in blood pressure that she has under control for many years,- her reading is usually 150/70 or slightly higher or lower.

Mother's primary problem that we are seeking help for is a slight senility! She is perfectly capable of simple conversation and answering questions normally,- she knows me and my wife and she walks with help, has good appetite and good sleep. She is not capable of developing any ideas of her own and she needs help in her personal needs: feeding, dressing, etc. not because she would not be strong enough to do that but she can not concentrate on doing these things. She does not recognize any family members of friends and does not remember her past,- sometimes, though, she does remember some things and she is capable of being very sharp in her mind!

Mother HAD received from September 1983 till August 1984 a total of 28 treatments of Chelation Therapy (reported on in my letter of Sept. 5, '84) which is an intravenous treatment to clear blood vessels from calcium, fatty substances and plaque.

The formula of the chemical used in this treatment is as follows: 500cc sterile water,- Heparin,- Vitamin C,- Magnesium Chloride,- Potassium Chloride,- Pantothenic Acid,- Niacin and Adrenal Cortical Extract and Vitamin B1 - B6 - B12,- B-Plex - Folic Acid,- HCL. This therapy has helped her significantly and we are told that the likelihood for a repeated stroke is remote!!!

Her present medication consists of: Persantin 50 mg 2x/day,- Tenormin 25mg 1x/day,- Lasix 20 mg 1x/day,- Bufferin 2x/day,- Carnitine (label attached) 2x/day,- and Basic Preventive (label attached) 3x/day. She also takes Kyolic garlic extract powder capsules with brewers yeast, kelp & algin 4x/day.-

My wife is, thank God, basically healthy! She has a slight increase in blood pressure with the reading of 130/70 or slightly lower or higher. She takes the following medications: Tenormin 50mg 1x/day,- Trinsicon 1x/day (for slight anemia),- Kyolic garlic extract powder 4x/day.

I myself have developed a cardiac arrhythmia. Early symptoms started in September of 1981,- by March of 1983, I was put on medication: Procan 500 4x/day,- by September of 1983, I was so tired and exhausted that I could not work anymore and went on disability leave which I am still on! I had also the Chelation Therapy of which I received 20 treatments from Jan 1984 to August of 1984 (same formula as described before) This treatment has also substantially helped my condition! Most of my symptoms have subsided except some skipping of the heart which is not such that it would bother me. My present problem is tiredness, exhaustion and sleepiness, I am quite forgetful and can not concentrate for any length of time! Apparently I also have a certain extent of depression which is of no new origin and I learned how to live with it. As of December 1984, I have switched from Procan 500 to Quinidine Gluconate 324 mg 2x/day,- we assumed that this would improve my tiredness but it did not!

In addition, I am taking: Basic Preventive (label attached) 5x/day,- Isotonic Mineral Formula (label attached) 2x/day,- Vitamin E (label attached) 1x/day,- Para 15 (label attached) 3x/day,- & Kyoloc garlic extract 4x/day.-

In our conditions, we are placing a great deal of our hopes into your medications in their therapeutic as well as preventive applications!!! For a long time, we did not know how to acquire your original medications and I had some correspondence as well as some telephone calls with your office on this item,- this is now solved in that we can get our supplies from the Tudor Trading Co in California.

Thus far, we had two courses of GH-3 taken with 14 days of rest interval (24 dragees each)

What we request advice on is whether we shall take the GH-3 or whether the Aslavital would be better for our conditions or whether we should take GH-3 and Aslavital alternately! Also, whether the 14 days rest interval must be observed or whether the dragees could be taken continuously!? Is there any time limitation for how long the medications can be taken, how many courses, or can they be taken constantly without stopping!? We will have to stay with the dragees because we can not administer any injections to ourselves and we can not find a physician who would do that for us!

I beg you, please do answer our questions because we are desperate to use your medications but we want to do it the proper way! We do believe that either GH-3 or Aslavital or the combination of the two will be of great benefit for our health!!!

Your advice and your help is most sincerely appreciated! If there is any charge, please do let us know and we will most certainly take care of it!!! Unfortunately, in our present conditions, we can not travel to Bucharest which we would love to do!

Thank you! Cordially yours,

Erwin Jausz

Ps.: we are continuing taking the GH-3 until we receive your answer to this letter!

August 15th,

84

Dear Madam:

This is to inquire whether there is a possibility to obtain from your laboratories your original medication Gero-H3, both in form of injections as well as in capsules (pills)

Two years ago, I did purchase some pills from a source the name of which I have forgotten already, - those pills were outdated and I could not use them. This is why I rather would like to receive the supply from your organization: I would know that your supply would not be outdated and I would have your original formula!

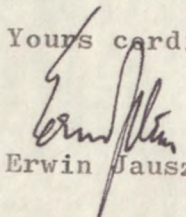

If I could obtain Gero-H3 from you, please do let me know the price in \$ for both, the injections as well as the capsules (pills) so that I could mail to you a cheque in the proper amount.

It would be very important and essential if I could get your medication because I literally place all my hopes into your Gero-H3 to help my mother who is by now 80 years old and had two slight strokes in 1982-1983. I also would like to take Gero-H3 for my wife as well as for myself!

I do hope that you will be able to help us!

Thank you most sincerely!

Yours cordially,

Erwin Jausz

Dear Madam:

I am writing this letter in behalf of my mother. Please forgive me for coming to you with a request. We have heard a long time ago of you, your achievement in medicine, and your medication "H-3". My mother would very much like to obtain the "H-3" Pills but, unfortunately, there is no way to purchase it here in the USA. I learned that H-3 was acknowledged by two american university medical schools,- this gave me confidence that your medication will be available to us also. Still, we can not purchase it in any drug stores. Sorry to say, but my mother is in no financial codition to allow herself a trip to your clinic in Bucharest,- if she could she would have done so long time ago.

Mother was heatlhy for the best part of her life. When my father died, himself a surgeon, in agina pectoris at his early age of 53, mother's health started to decline. Still, she was farily good until two years ago. She is 75 years old now and suffers of some arthritis, has a blood-preassure moving between 150/70 and 200/110 all according to change in atmospheric preassure and weather change, and lately she became quite forgetful. All this depresses her quite a bit and this is the reason why we request your help to obtain your "H-3" pills. We hope that your medication would help if only we could purchase it here.

If I may, would you please be kind enough as to inform me whether there is a possibility for purchasing the "H-3" pills any place in the USA or whether there is a possibility to obtain it from your clinic directly. I can understand that you are very busy still if you could, please, help us to obtain your medication we would very much appreciate it! Thank you!

Sincerely yours,

Erwin Jausz

ASLAVITAL TREATMENT

- indications for your mother -

ASLAVITAL ampoules and pills: one course of 12 injections (an injection of 5 cc every Monday, Wednesday and Friday) and 2 pills a day (1 pill taken 2 hours after breakfast and 1 pill 2 hours after midday-lunch every Tuesday, Thursday and Saturday). Rest interval of 14 days, after which another course as above. To be continued according to the above schedule, with the prescribed rest interval between each associated course of pills and injections.

Dear Madam:

On July 30th, 1984, I've mailed a letter to your attention (see copy attached). I did not receive an answer,- I assume the letter got lost in the mail. I'll mail this letter Registered.

On August 28th, 1984, I've phoned your office in Bucuresti to inquire. The lady I spoke with advised me to contact Deutsche Chefaro Pharma in West Germany (Tel Nr. 49-2306-1697) I tried to contact this Company at several occasions: no answer! I inquired with the German Te. Co Information Service: Company unknown and not carried on the telephone list!

Meanwhile, I picked-up contact with Tudor Trading Co in London, England. Well, to me it is very important that I receive the GH-3 manufactured in your own laboratories so that I have assurance that I get the real, unadulterated, formula! Tudor claims that they are supplied by your organization directly and the GH-3 they sell is the original formula from you! Please do confirm!

Also, I picked-up contact with an Institute of Medical Research in Florida, USA (literature attached) This Company claims that they manufacture and distribute your original formula but in LIQUID form to be taken ORALLY. It is to work faster than the pills! Please advise whether this is correct, whether you approve of their medication, and whether this formula in liquid form would not be harmful to take! Please do advise!

./.

Erwin Jausz

to Prof.Dr. Anna Aslan

September 5, 1984

A further item of importance in above reference that I would like to request your advice is this: my mother and I have recently completed a CHELATION therapy which is an intravenous treatment to clear out blood wessels from calcium, fatty substances and plaque.

The formula of this chemical is as follows:

- 500 cc sterile water
- Heparin
- Vitamin C
- Magnesium Chloride
- Potassium Chloride
- Panothenic Acid

In addition, my mother takes daily slight medication to control her bloddpreassue (she had two slight strokes in 1982-1983),- I take medication to control an arrythmia of my heart and we both take a substantial amount of diverse vitamins and minerals.

Please kindly advise whether this medication is compatible with GH-3: can we take GH-3 shortly after we completed Chelation,- does one mix with the other without harm!

Dear Professor Aslan, your advice on above matters is of great importance to our health and we will be much appreciative to you for your help!

Yours cordially,

Erwin Jausz

Dear Madam:

This is to inquire whether there is a possibility to obtain from your laboratories your original medication Gero-H3, both in form of injections as well as in capsules (pills)

Two years ago, I did purchase some pills from a source the name of which I have forgotten already, - those pills were outdated and I could not use them. This is why I rather would like to receive the supply from your organization: I would know that your supply would not be outdated and I would have your original formula!

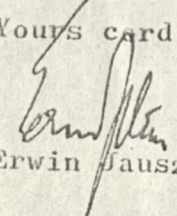

If I could obtain Gero-H3 from you, please do let me know the price in \$ for both, the injections as well as the capsules (pills) so that I could mail to you a cheque in the proper amount.

It would be very important and essential if I could get your medication because I literally place all my hopes into your Gero-H3 to help my mother who is by now 80 years old and had two slight strokes in 1982-1983. I also would like to take Gero-H3 for my wife as well as for myself!

I do hope that you will be able to help us!

Thank you most sincerely!

Yours cordially,

Erwin Jausz

West Springfield, Mass.01089
U.S.A.

Dear Mr. Jausz,

In answer to your letter of January 19th, I have to inform you that the stamped code number on the sent label represents the date of manufacture, namely 1972. So that you should order another fresh supply of medicine, either directly to our Foreign Trade Company - CHIMIMPORTEXPORT - 10, Blvd. Republicii, Bucharest, P.O.B. 525; telephone: 16.34.63. or 16.45.80; telex: 184, 185 - or to our representative in England: ARCODE LTD., Plantation House, Mincing Lane, London EC3; tel.: 01-623 7074; telegrams: Tenchim London EC3; telex: 883476.

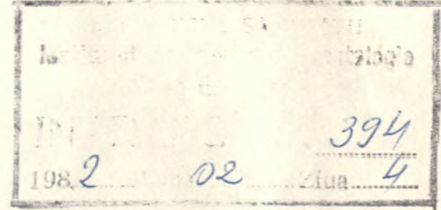

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Acad. Prof. Ana Aslan, M.D., D.Sc.

Dear Madam:

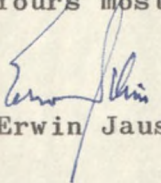

In June of 1979, you were very kind responding to an inquiry (copy attached) I made about your prominent medication Gerovital H3. I requested for your help on behalf of my mother, now age 78. Thank you sincerely!

Recently, I had a chance to acquire some of your original medication. The labels, however, show some stamped code numbers which I assume to indicate dates. Am I correct to assume that those dates are dates of manufacture or dates of expiry? (label attached)

Please do kindly advise whether the pills (shiny coated yellow pills 12 mm in diameter) are outdated by now, whether they still can be taken safely without damaging effects, and whether they would have the same healing effect even if outdated?

Your kindness in advising us is greatly appreciated!

Yours most sincerely,

Erwin Jausz

Dear Mr. Jausz,

I received your letter of June 11th, and I inform you that a treatment with Gerovital H3 will be useful to your mother. You may order it to one of our representatives abroad (see the enclosed list). It would be more efficacious to associate the courses of pills with courses of injections.

I shall be glad to have further news from you and to give you any further information or whatever advice you might require.

Yours sincerely,

Acad. Prof. Ana Aslan, M.D., D.Sc.

I wrote you in Oct 1974 and you graciously answered my questions by return mail.

My age is 54 and I feel I have a lot more to do while on this old world; however my body has given up.

I received a diagnosis of multiple sclerosis recently and I also have a severe constant back pain, along with stiffness in knee joints and my fingers are gradually getting stiffer. Arthritis is throughout my body.

Do you think the ~~Gerontol~~ Gerontol H's will help the multiple sclerosis? You have already indicated it no doubt, will help the arthritis. I need a vacation, therefore plan on coming to Bucarest.

I realize all bodies don't react the

same and it is, all a mere possibility
I am thinking positively and feel
certain the arthritis will be helped, however
I would appreciate your opinion on the
multiple sclerosis.

Your letters will always be treasured
by me.

Sincerely

Dear Doctor Aslan,

My husband and I are writing to inquire if there is any possibility of joining forces with you in some way. We are both interested in our health and are both looking younger than we are. He is 56 and I am 55. Enclosed, you will see recent pictures of us.

Our children are grown and away from home. We have the time, brains and inclination to work with you in some capacity.

Of course we would like to work there, helping with the Americans, or we could work here helping promote the tours. Would like to hear your response to this.

Mr. Jensen is a graduate Engineer and I am working in the Nuclear Medicine Dept at St. Elizabeths Hospital.

If there is no way we can work with you, is there any way we can buy the Gervitol H3? Do you have any outlets in Canada?

Please answer this letter, as we are both very anxious to stay as young as possible. Life is beautiful.

Dear Dr. Aslan:

Thank you very much for the invitation to visit you and the Geriatric Institute in Bucharest.

I still hope to have an opportunity to visit you this year - however, there are several reasons which may prevent my trip.

Jes

Meanwhile, I started using Gerovital on five patients. I am very much concerned about my assuring continuous supply. Recently I received 26 ampules of Gero - H3 through the American Embassy in Paris, and hope that it is the same product as Gerovital. Some of my patients informed me that, as a physician, I can obtain Gerovital by mail from the manufacturers in Bucharest or some other European cities. Dear Dr. Aslan I am sorry to bother you but will you please let me know how I can establish a regular supply of Gerovital from abroad - or, perhaps, from some pharmaceutical house in the U.S.A.

With great appreciation for your help.

Sincerely,

Helen Z. Jern

Dear Dr. Aslan:-

I have just read your article in midnight
(Enquirer) magazine. I have been interested
in any thing to make one stay young and
healthy for the past 25 years. I'm not
afraid to try new things if proven okay.
people have thought I am 25 years younger
than I am. when I hear people say well!
I'm 60 or 65 & they really look old. then
I know why. I'd like very much to know where
I can get this KH3 I have a brother age 61
gets moody & sometimes cries. he feels so tired.
I'd love for him to take this. would you
please tell me how I can get it and
how much it will cost.

I know you are busy but would love
to hear from you. I would put money in
for stamp if I knew this would reach you.

Sincerely

Mrs Vicki Jerry

MAT. INSTITUTE IN BUCHAREST

BUCHAREST

ROMANIA

DEAR PROF. DR. ANA ASLAN :

ON JANUARY 31, 1983 I READ IN CHICAGO SUNTIMES AN ARTICLE: MEET DR. ANA ASLAN, THE ENEMY OF AGING. BY JAMES A. FABRIS.

I NEED YOUR HELP AND ADVICE.

ON JANUARY 12, 1983 I HAVE HAD AN HEART ATTACK. AFTER 4 DAYS IN EMERGENCY ROOM AND 10 MORE DAYS IN HOSPITAL I AM NOW AT HOME FOR RECOVERY.

I AM BORN ON MARCH 10, 1910 AND WONDER :

- 1) WHETHER WITH MY HEART PROBLEM I WILL BE ABLE TO TAKE "THE ASLAN THERAPY."
- 2) WHETHER THE THERAPY HAS TO BE PERFORMED ONLY IN BUCHAREST IN YOUR INSTITUTE.
- 3) WHETHER THERE IS A POSSIBILITY OF TAKEN THIS THERAPY IN MY RESIDENCE UNDER A SUPERVISION OF MY FAMILY DOCTOR.

IF THIS IS POSSIBLE I WOULD LIKE TO GET FROM YOUR INSTITUTE ALL THE PILLS OF GEROVITAL H3 AND ASLAVITAL NECESSARY FOR THE TREATMENT. I WOULD LIKE TO HAVE ALSO THE INFORMATION HOW TO PERFORM

8891-8-E

THIS THERAPY.

WILL YOU PLEASE, DEAR DR. ASLAN, SEND
ME A BILL FOR YOUR HONORARIUM AND
COSTS FOR EV. PILLS AND I WILL MAIL
TO YOU INSTANTLY A BANKING CHECK
OR POSTAL MONEY ORDER IN DUE AMOUNT.

THANK YOU

YOURS TRULY

Prof.

Mrs. Frances Joffe
10 Avon Court
Dixs Hill, NY 11746
U.S.A.

Dear Mrs. Joffe,

In answer to your letter, I inform you that our pharmaceutical product is not yet available in the U.S.A. Enclosed herewith you will find a list of our representatives abroad by whom you can obtain Gerovital H3.

At the same time I would suggest that you get in touch with Dr. Alfred Sapse, 233 South Beverly Drive, Suite 100, Beverly Hills, California 90212, who is carrying out the necessary research to have Gerovital approved by the Federal Drug administration.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

G
Acad. Prof. Ana Aslan, M.D., D.Sc.

Mr
Adrese

Dear Dr. Aslan:

MINISTERUL SANATAȚII
Institutul Național de Gerontologie și Geriatrie
INTRARE nr. 592
1975 anul 08 ziua

I would like to know whether
your Gerovital H3 treatments are
available in the United States.

I have made various inquiries
here. but so far have not been
able to find an answer.

Sincerely yours,
Frances Joffe

Professor Ana Aslan
Director of the Geriatric Institute
Bucharest, Romania

Dear Dr. Aslan:

Re The Milwaukee Sentinel - World of Women - Thurs. Nov 7, 1968, Page 4, Part 3, and Page 10
"Europeans' Answer Is The 'Youth Pill'," by Margaret Walsh, Special to The Sentinel, from
Zurich, Switzerland and quote "A 'youth pill' is a must with morning coffee for thousands of
Europeans." "The pill, simply named K.H.3 claims to...."

The pill - like many - may be good for some but bad for others - as a Swiss doctor too has
certain reservations re K.H.3 and he prefers hormone and vitamin products, which are a more
natural means of rejuvenation. So too America is working for the Natural - Nature to be
properly cleaned up - so all natures - the temperments and personalities are better the
World over - the organic processes being the natural thing again - as God created the World.
And us - for a healthy seed brings forth healthy bodies - with all biological, botanical,
etc. processes functioning in a clean safe health environment - inside and outside - youth,
vim, vigor, vitality, mobility, ability, mentality, agility will be prolonged for all people.
Common sense to prevail - better Thinking, communicating, understanding, love of thyself,
family, relation and friends - the neighbors too. For Cleanliness is next to Godliness.

I wonder if consideration has been given by your scientists, researchers, educators, pro-
fessionals, medical people, health service officers, nurses, teachers, students, all people,
along with your environmental conditions - the long years of existence of your lands, soils,
waters, lakes, rivers, streams, ponds, oceans, homes, houses, shacks, barns, yards, forests,
woods, buildings, industries, hospitals, clinics, libraries, habits, customs, cultures, wars,
integration and segregation of people - the traveling, playing, working, sports, vacationing,
cooking, cleaning, farming, grazing, raising of what grains, fruits, gardens, cattle, pets,
trees, shrubs, birds, fishing, insects, seeds, etc. - all of life's processes in all things -
Nature - but where good and where poor - why - cause of neglect, disinterest, poor health
or education in science, biology, botany - humanities? Who cares to see that all people
and all conditions of your environments - ours too - the World over - are rehabilitated,
scientifically checked - as our bodies need many doctors to help us - so do the earthly
products - the animate and inanimate objects - right or wrong - why, when, how, where?

As we need the sun, moon, stars - for the earth - so does it need good soil, sand, stones,
gravel, mulch, peatmoss, coal, iron - the minerals, jewels, oils, gases, wood, trees,
shrubs, gardens, animals, pets, game, fish, insects, birds, - the wildlife - seafoods,
leaves, grains, fruits, vegetation, cloths or clothing products, rubber, cattle -
but to get rid of hoof and mouth diseases - to stop the many epidemics existing for so
long - who carrying what, when, where and why when traveling, eating, sleeping, nesting, wars,
loving, playing, vacationing, moving to and from where - as has been the case with the soldiers,
migrants, the immigrants, the emigrants, ^{missionaries} - whether to or from your lands - to and from our
lands - or anywhere on this earth now - and so we can have a true peace to exist - all to
learn more right than wrong - one hand washing the other - across the seas if necessary.
Yes, it is necessary for the plane travel - more ships - open waters - for better unity -
understanding - peace of mind - all knowing how important we all are to one another - to
make the World a truly round one - with no dents - so the axis becomes more upright than
downright. The atmosphere and the air waves being much cleaner and healthier - prettier too.

Preservation and conservation so important of the earth and all its good - its people to be
helped to learn right from wrong - so they can continue to grow well and healthy - to retain
youth and beauty - more walking, talking, crying, laughing, praying as well as playing.
But we must clean up all surroundings - here, there and where. Each person to learn how to
do it - more willing to work, learn, pay and save and buy too - to stop any form of depression
from growing in us, on us, around us, about us, over us, under us, between us - togetherness.

Some areas too old, too cold, too wet, too damp, too dark, too bright, too hot, too moldy,

too sooty, too green, too dry, too sandy, too rocky, too hilly, too watery, too dirty, too filthy, too clean?, too black, too white, too red, too yellow, too brown, too tan, too tight, too loose, too dense, too thick, too thin, too tall, too small, too high, too little, too poor, too rich, too sick or any too well? So who too smart, too brilliant, too dumb, too stupid, too crippled, too handicapped, too diseased - many cry for help - so many helping too. So many problems to be solved - a learning, doing, helping, earning program for all now due. The testing, proving, searching, researching, wars of many kinds - the World over - have been going on since before the birth of Christ - so to continue too but on a more common sense, peaceloving basis - to respect and honor all mankind - but under better understanding systems - less prejudice, intolerance, fear, hatreds, superstitions, idolatries, stealing, cheating, lying, wishing or hoping, killing, abusing, arguing tho good if done properly, etc.

You areas may need the new washing machines, electric or gas dryers, lights, phones, radios, television, more schools, libraries, churches, (I know you have many olds ones - but what about new materials) - different types of cleaners, cleaning establishments for cleaner clothes, cleaner homes, better built homes - according to health standards, better housecleaning and housekeeping instructions, better methods of cooking - food preparation, storage, handling, serving, refrigeration, canning, smoking, curing, baking, roasting; so too with sewing, upholstery, tailoring, etc. - what too tight or too loose for too long - too tight hats, belts, bras, girdles, corsets, shoes, dresses, coats, pants, undies, caps, scarves, headbands, hats, wrist bands, neck bands, jewels - or what too heavy - too old - too dirty - too old-fashioned - incorrectly designed - too long, too short, too stiff, too hard, too tough, too thick, too thin, too sheer, too dark, too bright - so too the glasses - too old too tight - too dirty - wrong kind - same with the dentures, the fillings, partials, bridges, crowns, caps - what metals fighting one another in the mouth - what is growing underneath in the way of roots that have not been cleaned out - growing into the sinuses, the head ventricles, the ear, nose, eyes - so what headaches, poor thinking, poor mobility - who calls them crazy or insane - blind, deaf and dumb - homely - what wisdom teeth or other teeth that did not come out but growing inward - who and when extracting done - if ever - so what mouth infections, strep, staph, moniliases - tumors, cancer, chorea, tics or what going on? What discolorations on face, tongue, mouth, lips, warts, moles, molds, funguses, black tongue or vitamin deficiencies affecting the brains - yes, the medulla oblongata not working properly - so the motor areas affected - the wires are crossed - so to speak? So who and what is aging too soon - loses sensibilities, proper hormonal functions, reflex actions and nerves failing to respond - or maybe too highly inflamed and stimulated? So has or has not proper willpower, self-control, proper thinking and proper actions - lack of education doing what to whom - yes, for many more girls and women - in nursing - for men too - and along with it personal and oral hygiene programs - along with Public Health - Sanitation - science, biology, botany, engineering, carpentering, plumbing, home economics, banking, etc. Cording to present day needs and tomorrows - not so much of yesterdays tho background and history is important too - for better understanding and the solution to many problems.

The rats, mice, lice, cockroaches, beetles, worms, germs, bacteria, garbage, trash, litter, urine, stools or body wastes has done much harm and still doing it - here, there and where. The disposal systems according to each so necessary now - so too with bodies of very sick or diseased people, cattle, animals - to save the water, soil, salt, minerals, air - us. This needs scientific study - along with products made and consumed today - how eliminated and where - the detergents, the oils, paints, gases, soots, dust, leaves, grass, wood, greens, gasoline, dyes, chemicals of many kinds, weeds, dope, pills, medicines, metals, steel, iron, plastics, china, ceramics, glass, aluminum, cans or tins - what can we salvage - or re-use properly - for the benefit of the earth - or the people? So too the soap, lard, grease, mold? What insecticides, molds, dropouts, fallout, etc. - moth balls, carbon tetrachloride, DDT, affecting our systems too - or what liquors, wines, cigarettes, tobaccos, chocolate, spices, - from what areas, properly grown, healthy seed, soil, water, rain, - clean picking habits, clean and wise instruments, machines, people in good health - making, using, drinking, handling, packing, shipping, etc.?

Who being penny wise and pound foolish - eating what dangerous leftovers - rancid bacon grease, butter, oleo or what other products - lard - too much of the fat, gravies - but more how old, how stored - what molds or funguses hidden - we consume and then ill but when?

Sorry - for errors but this typewriter with plastic ribbon wheel controls just not the best.

Yes, sex education - the family planning - Gift of Life programs - so necessary for all people too - for every age - as to the animal or pet biology functions and on to the human - at the right age - at the right time - by the proper teachers, doctors, if parents do not have the proper information or training - tho in time - we hope it will be on a much wiser basis - for all - for too many public playgrounds - hurting and abusing the natural resources - within our bodies - man losing respect for baby, girl, boy, girlfriend, sweetheart, wife, mother, father - and the same with the women - one for the other - in many areas of the World - cause of the false stories, untrue tales or who telling whom what or what not to do - or the baby came from the navel, the stork brought it and left it on the roof, the chimney or where - who swallowed a watermelon seed or other seed which grew maybe into a tumor but should have been a baby cause of neglect of physical-medical-dental health-pathology testing? Too many got married or did not marry - but so children or no children - sick or not - but in time what happened - nervous breakdowns, insanity so they say - or too many of the same blood - what got too weak - the seed? Yes, or what unhealthy seed put into woman's body or joined with hers - so sick people or well - depending on God's work, doctor and nurses work, natures work - to bring about miracles - plenty good food, clean water, clean meats, hard work, fresh air, sunshine, rest, and walking, exercise - keep going no matter the aches or pains - for better body circulation - so too for better air circulation - much in motion on all levels is so necessary as the World grows or to keep growing properly - so too its people - for one can't do without the other - nor us without you and yours - Europe, Asia, Africa, South America, North America, all lands - all waters - their good products too. Too many still today have not been circumcised - the boys, men - so what venereal diseases are spreading - or other sex deviations forming - or maybe if we clean up the earth, our personal habits - it would be better to not circumcise boy babies or the men - but to teach how to have clean toilets, hands, organs, proper washing and health care - so too proper cohabitation teaching - the natural thing when married - young - with true love - for better or for worse - to have babies to have them baptized - marriage and baptisms in church for all once again - for proper respect - for immortality to exist for each. Why so many prostate gland operations - is the circumcision - wrong or right - if God put the folds on the skin of the organ - it has its purpose - to protect the organ better than it is being done today? I don't know - a question to be answered by the researchers - but more to think about it too? For too many organs have been abused by the wrong acts - by ones-self - or with others cause of lack of proper education in biology, health, science, the human body and its functions more? Are we pruning too much of the body today - trying to make who well? Trying to sterilize the people so they can't reproduce cause of this and that poor history or lack of proper reasoning, researching, diagnosing - where, when, how, and why? The reproductive system must be respected by all - gentle organs - so too precious organs - for they give life to another - as well as a life to each one of us born and so to continue - so the mind works well too - body stays young - the proper hormonal action working - when properly mated, loved, respected, guided - with good dental, physical, medical-pathology, nutrition, vitamin, elimination, work, etc.

Isn't more important to grow old gracefully, lovingly, honestly, appreciatively, kindly, gently, sensibly - a healthy body and a healthy mind - with more working, loving, caring, helping, learning, walking, talking, seeing, hearing, eating, drinking, resting, playing, vacationing, traveling - with more togetherness - for husband, wife, children, grandparents, grandchildren, relation, friends, neighbors - all brothers under the skin - for Peace? Each one having a role in life - the great stage - to grow and mature properly - yes, how does your garden grow - important - but more so how are the people in these beautiful or wilted, diseased gardens growing today - so will we help to sanitize all areas for better living? God's work must truly be our own - as the miracle waters can be all about us if we but care to take care of them properly - clean, feed, circulate them so no stagnation takes hold nor the diseases or the diseased insects, animals, pets, livestock, soils, grains, fruits, nuts, fish, poultry - anything that is washed with it, swims or lives in it, that we drink, bathe, wash in or wash with, cook with purer waters - so what is pasteurized or not or what utensils not properly sterilized - glasses, dishes, tools, needles, razors, cutlery, hypos, etc.?

What poor or inadequate ventilation, exhaust fans or exhausting systems in homes, apartments, buildings, businesses, industries, housing projects or where - so what are the respiratory systems of the humans, the pets - who where for too long in drafts? Yes, too, consideration of all inputs and outputs in all systems. So what foods we eat, what we drink - what we use - does it agree with each one of us - for we are individuals - not carbon copies - with different chemical properties - so many reasons for neuralgia, rheumatism, rheumatic fever, neuritis, arthritis, spasms, heart conditions or diseases, cancer, trembling this and that, epilepsy, Parkinson's Disease; the brain tumors, other tumors hidden where or in the lymph nodes - with pus - coming from nose, throat, sinus areas and traveling or settling where in body and growing - the viruses - so the virology studies are important but to treat and cure too. Who looks for the internal head problems - the mastoid, runny ear, runny nose, head noises, ear noises, eyes seeing what or not, ears can hear or not or what, internal bleeding where, poor circulation cause of no work, not enough exercise or what constrictions - known or unknown - so may need the swimming, water baths, heating pads, light treatments, heat treatments, x-ray therapy, or the physical therapist, the osteopath, the chiropractor?

Who has or has not had the necessary vaccines for measles, diphtheria, scarlet fever, yellow fever, cholera, malaria, mumps, smallpox, tuberculosis, polio, - the typhus and typhoid too - but many need the tetanus shots too for the many cuts, bruises, sores; cinders-metals-glass snell powder, gun powder imbedded where; razors, nails, pins, needles, hypodermics, surgeries, tools, contraceptives, manure, garden tools, slivers, splinters, stabbings, knife cuts, what fell on head or body to cut - to twist - or what falls, bumps, twistings, slipping, bending, what too heavy lifted improperly - so how is the walk - posture - heels and soles of shoes show you what - the humps where - the beatings, the slappings - where on head - ears, back, between shoulder blades - yes, in sports too, in games, in fun - or husband to wife or wife to husband - who hitting, beating the children - letting them fall out of bed, high chairs, buggies, playpens, bicycles, tricycles, strollers - known or unknown - so what internal twisting took place - what does the spinal x-ray show you - slip disc or what out of position - so how the muscles, blood, tissues - cells - growing or impinged? Or what babies twisted at birth or what tool injuries - not given tetanus shots - or what in eyes, mouth - when vagina not lab tested before and during pregnancy - day of birth - so what grows in way of bacteria in baby - not seen till when? Who delivered the baby, mother, father, midwife, doctor - in field, in home, in shack, in barn, in doctor's office, in clinic, in hospital - clean or not? Are humans taking enough internal baths - but proper kind too - women especially? Or too many men playing too many fields - women too - no moral scruples - so the venereal diseases build up if not bathing, washing, getting proper medical attention - until too late - the mental conditions build up - or the bad operators, destructive ideas instead of constructive? Who failed to see that the people need to be given good dental and medical health - good food, clean homes, education - more than so many monuments, churches, cultural centers - all important but first things first - so to clean up the earth too - always - a continuing program - all having a proper place in society.

Seems too Europe has a lot of art, sculptures of men, women, children in the nude - but why so many so prudish - cover up too much - or who doesn't cover up enough - we have it in USA too - so spouse other parts of World too? Or who looks at cohabitation, births, ~~xxx~~ marriage as wrong - filthy acts - where the marriage and births from proper cohabitation are so necessary for the World to grow with happy families? All organs of the body must be properly stimulated at proper time - in moderation - gently - with much love and respect - so to have the body beautiful from birth to grave - a clean egg to come from clean seed - saving the reproductive systems of man and woman - which give life - to save life for the next generation and so to continue - but more as a natural act - natural source - rather than ingesting what seeds, how - thru indecent acts - desires - no matter what the result - to build a sick society - or a costly bigoted, destructive one? Too much insemination for too many - artificial - and now with Birth Control Pills - other Pills - dope, painkillers, etc. - tranquilizers - all with ifs and ands - have their good and bad points - but more for the organic materials for better organs - organ playing. Does K.H.3 deaden the pain for a while - plus replenish with vitamins, proteins or maybe an antibiotic to kill germs - so blood, tissues, muscles, can rebuild themselves slowly - the oxygen in the blood purifying the system too? Like most

pills - how long before one becomes immune to them - so suffer more - or what cells really harmed too much - or what is good for one - is not for another - depending from what environs the cases may be that are using the pills in question - or any for that matter? Yes, if we can relax the muscles - so the blood is able to feed and purify tissues and nerves - good can be accomplished. So often we can't open all areas - with serious internal infections - yes - how are the voluntary and involuntary muscular systems aworking - who sees the chorea, tics, spasms, trembling, shaking, quivering, speech impediments? Antibiotics are my miracle drugs - tho like anything else - side effects too - or what rashes coming out to show there is much internal trouble to be cleaned out?

As it concerns the body - Mental goes with Dental - Sanity with Sanitation - Save your Heart - for man is made in the image of God - so God He Art - Heart. Keep your heart warm - with warm coverings for head, hearts, hands, heels - hims and hers - so to heal too, the many hurts. So the H's can be Health - not Hell - for any one any more - if more done by each and every person the World over to help not hurt - all with more compassion - Have Heart Always For All.

So for natural resources - the World over - for the humans more - along with good dental, medical, physical, therapy, pathology, microbiology, bacteriology, radiology, immunology, neurology, nutrition, vitamins - good salt and water - fresh air, sunshine - for proper chemotherapy - for all to see the Light of the World - so may it be. We must check all head area-discharges therefrom - so too from vagina, penis, urine, blood, sores, growths, sores, along with air, water, soil, chemical buildups cause of what happening here, there and where cause of industries, storms, wars, smoke, soot, winds, trees, seed, insects, birds, rain, trains, cars, ships, boats, planes, trucks, buses, wagons, horses, dogs (their bites), rabbits, snakes, ferocious animals (can be made gentle too) - all with better health and environments but more for conservation and preservation too. So the outside and the inside of the bodies of humans, animals, birds, insects, wildlife - the homes, the schools, the churches, the businesses, the stores, the industries, the bakeries, the meatmarkets, the canners, the dairy industries or farms - farmers, ranches, cattle grazers and raisers - any and all working areas - we must correct the health and sanitary conditions - from womb to tomb of all people - with proper prenatal and postnatal care - post operative care too - all on a continuing regular basis - so important before the marriage and the conception too. The dental care for all ages and regularly to cut down on many mouth and sinus, ear, throat, nose, or respiratory infections - hidden, constricted - as the head is the path to logic - pathology so important in dentistry too before pulling teeth - filling what and with what - what metals as fillings or in body holding what together and where - but what is fighting what metals - building up aches and pains - infections, deformities, retardation, senility - so the mold - the fungus - the black tongue - green mucous with blood - so is gangrene or what pus and cancer problems starting or held where for too long - so what is color of skin, teeth, if any left - texture of hair, nails, etc. - bone structure - how formed the teeth - any tumors jaw or malformations showing up where in head, nodes on head, neck, glands - so follow thru to treat and test the sorethroats, colds, pus with antibiotics - according to lab smears, cultures, tolerance and sensitivity tests - with plenty protein, niacin, Vitamins A, B, C, D -12, iron, proper foods and liquids - pure water, milk - dairy products, meats, eggs, fish, chicken - so no TB - or typhoid or paratyphoid keeps growing where? Too much dampness, dryness, darkness hurts us too - so for more sun in homes, at work, school, church - more light - electricity for good eyes, heat treatments - more showers, tubs, sinks, toilets - for proper cleansing of body - its much needed therapy to clean out the sweat that may or may not come out if not working or exercising enough - or not too hot - so too what does the odor tell you - even of urine, blood, stool, breath, nose - the danger signs are there just like in any bad garbage pile. The mouth odors - bad breath too - plus sewer gas coming up - just like in house plumbing - systems needs help - not just pulling teeth or mouth washes - for improper working of the alimentary canal, bowels, body wastes to be eliminated oftener - for what have been the sanitary habits or systems of who and what - animals, poultry, game, birds, humans for ages in Europe? Who failed to remodel, renovate, rebuild, reconstruct, to explore, study, check, inspect - all areas - the mines, the depressions, the cave-ins? What grains grown - like rye holding disease - who eating it - so who needs niacin for better mental health or what other vitamin deficiencies? How are the products grown - too long in some areas - not according to agricultural standards - scientific - or how manufactured or packaged, stored, all under more sterile conditions - proper sanitation of plants, people, uniforms, machinery, habits or customs, proper head coverings, nose, eye, hands too-

shoes, clean bodies, etc. - with good health - no open sores or noses oozing what into the foods, waters, beverages, so for sanitized dishes, glasses, towels, linens, bedding, pillows, furnishings - all newer and cleaner - safer too - the plumbing systems especially?

What utensils are foods cooked in - too old - too dirty - broken, repaired - holding what hidden germs or passing what elements into the bodies. Properly prepared so too much grease not giving indigestion - the gases building up in stomach, throat, head or where - or heart attack comes about - maybe along with infections or typhoid already in system? Can be too much salt, too much sauerkraut - so strong gases or cramps hurting whom - or the ulcers built up where? So too how the baking of what and where - more scientific and nutritional - calorie right products for most of us. Who keeps milk on table too long - not properly refrigerated - or carried where and how - stored where - in the sun - does it come from clean healthy cattle and cattle from clean healthy barns, grazing-watering areas too - so no brucellosis - or TB - yes, with proper tuberculin testing and ~~pasteurization~~ pasteurization? ^{refrigeration} So too for more pasteurization of waters - chlorination, if necessary?

Who has fallen - broken what bones - nose with deviated septum - from birth or falls - or when in womb - not enough room to turn - garments too tight or hidden tumors or what organs out of line cause of internal infections not cleaned out or cured before the conception - so what is the breathing like - sitting, talking, phoning, sleeping, ^{exercising} after running, eating or what - as all air passages not open for proper round and round circulation in head areas - so to feed and oxygenate the head properly too - or so all facial, head, neck areas grow properly - maybe fingers, toes, too - as well as ~~the~~ the nose, eyes - what shapes - pretty or not - or what happened to the mouth, lips - like a cleft palate - or tooth structure not complete - the jaw and tooth formations? Who has toothaches - but sinus areas need clearing out more - the pathology testing and chemotherapy - which may set straight many stomach conditions too - like gastro-enteritis?

Who needs traction - what necks need to be pulled or untwisted - cause of what falling on head - thru sports, games, childhood accidents, slips, whiplashes - so to from birth process what twisted or broken - who feels and inspects with his hands to find the troubles - the nodes, the tumors, the pain - even the sore muscles, cramps, spasms, blood to and from where - where held back - why - but who will or will not allow a doctor to properly inspect body of baby, child, boy, girl, man or woman - until too late - cause of shame, disgust, religious beliefs, jealousy, prudishness? Or who has taken advantage of whom - where?

We know the many people when reaching age of 50 or younger - think they are old - they did their job - children gone - so now to sit, rock and wait for death - so improper eating, ^{exercising} bathing, cooking, showering, washing, sleeping - maybe too much praying and wishing or hoping - dreaming - not enough walking, talking, laughing, playing, seeing, doing, helping, acting how and why - too much alone - no visitors - forgotten by family maybe cause who went to war, to other areas for education, work, marriage - and when money, and travel facilities were not available to all and for all - or who saving his money for his children or for his burial - that is a long way off - should be working ~~and~~ active until God calls - spending the money - enjoying life - Or so more life to go on too for others and with others. With more honesty - truth to be the answer - with all practicing "The Golden Rule." for much happiness with one and all - a better understanding.

Who has been canning - the home canned goods - sterile bottles, proper caps or not - so who has gotten food poisoning - botulism - sick how long - then OK - but what still going wrong in the body - its ups and downs - good one day - sick another - so who blames it on the weather rather than seeking help of good reliable dedicated doctors? How and where canned goods stored - for how long - air seeping in - or molds - same true of cans of goods in stores - dropped, dented, etc. - so who does his work how - notices the wrongs or a not - catches in time - so many health signals are with all of us - but more to learn and see - to help in time too - one another - or more Believing the complaints to seek the proper help for them too - to cut down on many welfare costs, feuding lords or minds?

The many wars to stop - Now - for a truly Peace on Earth - this Christmas - or sooner? 1969?

'The New Colossus' - by Emma Lazarus - inscribed on a tablet in the pedestal in 1903 of the Statue of Liberty or "Liberty Enlightening the World" - France gave the monument to USA as a symbol of friendship and of the liberty that citizens enjoy under a free form of Government. It seems as tho the women of the World have been fighting for a free form of Government for all people and a model of the statue stands on a bridge that crosses the Seine River in Paris - and now it should be named the "Sane" River for the immigrant mothers and their children especially in America have been trying to enlighten the World.... Much has been done by many to make it a beautiful America - a better World - and so God Bless America & All.

"Not like the brazen giant of Greek fame,
With conquering limbs astride from land to land;
Here at our sea-washed, sunset gates shall stand
A mighty woman with a torch, whose flame
Is the imprisoned lightning, and her name
Mother of Exiles. From her beacon-hand
Glow world-wide welcome; her mild eyes
command

The air-bridged harbor that twin cities frame.

"Keep ancient lands, your storied pomp!" cries she
With silent lips. "Give me your tired, your poor,
Your huddled masses yearning to breathe free,
The wretched refuse of your teeming shore.

Send these, the homeless, tempest-tost to me,

I lift my lamp beside the golden door!" or - "I Light My Lamp Beside the Golden Door"

Yes, the tired, the poor, the sick - many have done their part to show the World what can be done - what has been done in a better, newer, cleaner World - and it shall be done - and redone here, there and everywhere - to save the people - their rightful heritage and the World - with trust and Believing in God and Country - for beautiful, healthy mothers, fathers, children - for immortality - family togetherness - Love, Peace - Much Sunshine - the Gold for all people - the World over. Yes, the sun rays, in the form of huge spikes on the crown of the Statue of Liberty - the woman - have been my undoing too - and with proper sun rays for all - many will be able to sing and understand the words to "On A Clear Day You Can See Forever." We may yearn to be breathing free - it can be done - but Freedom is not free - takes much perseverance, love and proper guidance at all times - thru all ages of living.

As the bright pink pill - the Jello ^{plus} - we know - muscle tissue, bone builder - I take it too off and on - but for more ^{good} eggs, orange juice, bacon, meats, cheese, milk, butter, breads, fruits, vegetables, poultry, fish, seafoods, salt, purser waters, the fruit sugars - fresh air, warmth - sunshine - all in moderation too?

March 12th 1959

Dear Prof. Aslow:

Will you please

send me information on Roumenian
Vitamin # 3 for old age relief.

I read about this vitamin in the
Nov. 10th 1958 issue of the
National Guardian, published
in New York City

Thank you for any information
you can give me.

Mrs Georgia Johansen,
10063 - 8th Ave Northwest,
Seattle 77 - Washington

426

Mr. Ralph Johansen
P.O.Box 322
Winnetka, IL.60093
U.S.A.

Dear Mr. Johansen,

In answer to your letter I have to inform you that we have been using Gerovital H3 treatment in cases of glaucoma and there are no side effects. So that your father may undergo the treatment.

You may order Gerovital H3 directly to CHIMICA, our Enterprise for Foreign Trade (Export 6 Department) - Splaiul Independenței Nr.202 A, Bucharest, Romania; telex: 11489 CHICO R; telephone: 49.35.93., 49.31.34.- Enclosed herewith you have their price-list.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Acad.Prof. Ana Aslan, M.D., D.Sc.
General Director

P.S. Together with Gerovital H3 treatment you should continue the specific treatment for glaucoma.

Am făcut în cazuri de glaucom
simptome efecte secundare,

Dear DR. ASLAN, poate face tratamentul.

WILL GEROVITAL H₃ PROVIDE ANY
BAD EFFECTS FOR A PERSON WITH GLAUCOMA?

ANTIHISTIMINES ARE SUPPOSED TO BE BAD
FOR THESE PEOPLE, I AM TOLD.

THE GEROVITAL H₃ LITERATURE ATTRIBUTES
AN ANTIHISTIMIC CHARACTER TO THE DRUG.
HENCE I NEED TO KNOW IF IT IS SAFE
FOR SOMEONE WITH GLAUCOMA.

WE ARE ORDERING SOME FOR my FATHER
who HAS THIS CONDITION.

THANK YOU SINCERELY.

Ralph Johansen

P.S. A second question, please. Will there
be any adverse effects if he should
STOP THE GEROVITAL THERAPY? SHOULD HE BE
WEANED SLOWLY FROM IT OR IS IT SAFE TO
STOP ALL AT ONCE.

Dragă Laura,

Am primit scrisoarea prin fratele tău și am regăsit în ea aceeași căldură și tinerețe.

În boala mea am fost înconjurată de o grijă deosebită atât din partea personalului ce mă îngrijea deobicei cât și din cea a medicilor, surorilor și chiar a pacienților mei virstnici și maturi.

Sigur că mi-ar face plăcere să te văd la aeroportul Kennedy.

Acum, în timpul verii, nu-mi fac încă programul de călătorie. Aștept să fiu complet restabilită.

În iunie vom avea aici un Congres de Gerontologie și Geriatrie.

Dacă dorești să inviți anumiți medici, comunică-mi ca să le scriu.

Mi-e dor și mie de tine și deabia aștept să te văd, mereu frumoasă, elegantă și deșteaptă.

Locuiesc la Otopeni unde am un apartament foarte agreabil.

Alimentația mi se prepară separat căci respect o dietă.

Nu mi-am revenit încă la sănătatea ce-o aveam înainte de a suporta cele două operații.

Both I and Kaete were very sorry we could not congratulate you on your birthday.

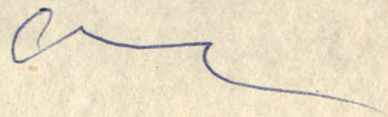

You asked me about her address in Vienna: Schmöllnerlgasse 3, 1040 Vienna. But she informed me that she is in London from 21st February: 43 Vuslow Square 1, London S.W.1.

I am leaving now for another tour of conferences in Europe - first in Germany where it will be offered a prize with my name to a German physician; it will take place in the delightful Baden-Baden spa which I visited twice during the 27 years of my travels. Afterwards I shall go to Italy, Spain, Austria and Greece and everywhere I shall give one or two lectures.

It was such a great pleasure that this year we could be together in Ischia. I shall send you one of the two pictures I have with you.

Until the end of this year I do not think that I can be in New York. Maybe next spring according to some preliminary plans.

I have written you so briefly, without very many details, as I am preparing now my lectures.

Ma belle, ma douce,
charmante et adorable
amie, ma chère Anna,
Après nos conversations, j'ai parlé
avec Dr. Blackman (que je connais
depuis 18 ans ...) mais il n'a pas de
injections parfaites.
En ce qui concerne mon opération, j'ai
grandement peur des conséquences, car
j'ai plus de 50 ans, et une opération
au genou peut ouvrir des portes aux
arthritism etc -- Et puis la période
de récupération est de 3 mois, sans
garantie -- Puis pour le moment je
n'ai pas de douleurs aiguës, c'est
pour cela que je vais attendre de
toute façon jusqu'au fin de mois
Pour te raconter comment c'est arrivé

2) c'est que le noir de feuillet
— juste 4 jours avant mon départ —
deux le tour autour du monde —
je suis tombé sur un petit cocotier
(2 marches en air) qui m'a vendus
à ma dernière mes pour que je
monte dessus, pour regarder les éme
— mais je ne me l'ai pas dit, je
se i tombe et j'ai eu une chute
pelle au penou gauche - Je suis allé
Le même soir à l'ouest Hill Top
ou on m'a fait les X Rays et le
docteur très surpris (comme ils
sont presque tous en Amérique)
m'a dit que tout est en ordre et
que rien ne s'est cassé.
Puis j'ai dit que
je suis allé le cortège peut
être cassé et que je serais
peuvent même mettre un bandage

3) Autour. En conclusion pour 3 mois j'ai donné
je n'ai eu que des problèmes de temps à
l'air, que sur j'ai travaillé au dans exagère
Mars en revenant le 11 avril, 3 jours après
je n'ai pas pu marcher - Après un mois de
souffrance on m'a fait un orthopédie
Infecte mes cartons dans le pour pour leur
le ligament ou le cortège) et ils ont vu que
j'ai le cortège cassé et maintenant ils
peuvent passer, mais, comme j'ai pu des
connaissances, j'ai décidé d'attendre - le cort

Ma chère Laura,

Je suis heureuse de vous annoncer que j'aurai le plaisir de vous revoir très prochainement et plus précisément, je serai à New York les 24 et 25 février et ensuite du 11 au 16 mars. Je ne sais pas encore le nom de l'hôtel où je serai logée mais je vous téléphonerai dès mon arrivée.

Mon programme sera assez chargé mais j'espère qu'il ne sera pas trop fatigant et je me réjouis d'avance de pouvoir visiter surtout la partie sudique du pays (la Californie et la Floride) et profiter un peu du soleil.

Dans l'attente du bonheur de nous revoir je vous embrasse bien affectueusement.

Alan

L. Johnson

Ma chère Laura,

Je suis navrée de ne pas pouvoir venir aux Etats Unis en décembre comme j'avais l'intention, mais d'autres obligations professionnelles m'empêchent de faire le voyage cette année. J'espère vous voir en avril 1973 quand je vous annoncerai à l'avance la date de mon arrivée.

J'espère que tout va bien chez vous et que vous êtes bien portante.

Je saisis cette occasion pour vous exprimer mes meilleurs voeux de bonheur pour les Fêtes et le Nouvel An !

18 Februarie 1979
Institutul Român de Genetologie
INT 1979
03 1302
2

Stimată Dna Dr Aslan

Prin bunăvoința unui prieten care călătorește în țară, au pritegiul de a vă scrie această mică comunicare.

Mama mea a fost doctoaită peste 25 de ani în România -- înainte de războiu -- făcând studiile de Școala de Medicină de la Iași și după aceea lucrând în conjuncție cu Brașov, ginecologă de la Universitatea din Cluj. — Așt mama că și eu avem foarte plăcute și călduroase amintiri de scumpa noastră Românie. [Numele mamei este: Dna Dr. Emma Filipescu Brwy].

Motivul de care vă scriu
are două părți: unul, ca
să vă felicităm cu toată
sinceritatea pentru frumoasele
succese pe care le-ați marcat
nu numai în țară dar prin
toată lumea, în ~~cât~~ privește
cercetările în bransa de
geriatrie. [Vă rog să mă
scuzați dacă fac greșeli în
scrisul meu. Am fost numai
de 12 ani când am plecat
din țară dar cu toate
acestea mi-am reținut
limba natală pe măsură în
cât am putut].

Al doilea scop de ce
vă scriu este să cer un
sfat medical, dacă nu
vă separați. Mama mea
m-a îmbiat să îndrăznesc
să vă întreb. Și anume:
Eu am o probabilitate să
vizitez România cu un grup

2
de studenți. Nu sînt sigură
pentru că costul este foarte mare.
Însă ar dori f. mult. Ar fi
un vis adevărat pentru mine
să-mi revăd patria după atîta
ani — Ei, să continui. —
Dacă voi putea sau trebuie
să fiu sigur că problema
mea medicală poate să fie
sub bun control. Adică,
eu sînt sub tratament cu
un anticoagulant (Coumadin)
care cere ca sîngele să-mi
fie controlat o dată la
săptămână. Am fost dată
informația că numele teste
este "PROTHROMBIN TIME TEST"
care determină stăgîrul de
anticoagulare a sîngelui.

Nu rămîne nici o
îndoială că această testă
se face în România dar este

necesar să știți următoarele.

1. Care este "baza de conținut?"
(Acea este 12 sau 13)
2. Se dă rezultatul în secunde?
3. Se dă rezultatul în procente?
4. Cât costa să am
• astfel de testă sau
probă și care sînt
problemele care poate
s-ar ivi? Care sînt regulile sau
formalitățile pentru testă.

În fine, mama mea, care
este înaintată în vîrstă
foarte mult ar dori să-i
pot procura ceva din
medicamentul pe care D^{stea}
l-ai descoperit și dezvoltat ^{genetic} pentru

Indeu prin a vă mulțumi
anticipa pentru bună voință
în cele de mai sus. Prinți vă rog
cele mai sincere urări de bine
și felicitări pentru succesele făcute.

"
Dr. Ana Aslan

I have been reading a book
printed here in the US by Mr. Henry MARK
I am not to sure if this letter will reach
you because I do not have the proper
address

But should in case it do reach you I
would like you to know I am interested
in your H-3

I much mention it is the greatest
discovery I have ever read about
I am from Venezuela south America
But now living here in the U.S.A
I am reading here all about it but its
not available to the American public
as yet. I would like to know from you
if its possible to get a six month
supply in tablets form

I must mention I saw a photo of you
in this book I am reading and you still
look beautiful at that age I'll here by
stand for your reply while I wish you
Compliment of success in your
undertaking. Sincerely yours F. Johnson

Dear Mr. Johnson,

In answer to your letter, I inform you that your mother may take heart medicine and Aslavital pills at the same time. But in arthritis a treatment in injections is much more efficient. So that it would be better if you could bring your mother to the Otopeni Clinic to undergo the treatment under our direct supervision. Enclosed herewith you have the necessary information.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely, 

Acad.Prof.Ana Aslan, M.D., D.Sc.

9

I have sent for your ASLAVITAL, since it is stronger than GEROVITAL H3, for the purpose of treating my mother, who suffers from heart disease & arthritis.

My question is: Since she must take heart medicine & arthritis medicine, can she take ASLAVITAL pills at the same time?

I will appreciate your answer. Sincerely,

Robert E. Johnson

Care GH3 original

Bucharest National Genetics and Teratology
Institute
9 Mănăstirea Căldărușeni St.
Bucharest, Romania

To: Dr. Ana Aslar

Dear Dr. Aslar:

Enclosed you will find a copy
of a letter I recently received
from Dr. H. Odde who operates
a business called Personalife Products,
Inc. of Ft. Lauderdale, Florida.
They claim to sell your original
Terontal GH3 medication in both
the oral liquid and injectable
form.

However their prices for your
GH3 formula are 2 or 3 times
higher than the source in
London, England that sells your
original Terontal #3 formula.

Could you please verify Dr.
Aslar whether or not you gave
Dr. Odde your formula when you
(over)

visited the United States
several years ago.

I did not know that G#3
came in on oral liquid form as
the source in Toronto only sells
it in the pill and injection
form.

Dr. Acker do you feel that
this company is completely honest
when they say that their the
heroin is G#3 or exactly the
same as yours is and would
recommend ~~it~~ that

you ~~purchase~~ the G#3 pills?

that this company is not feasible
A waiting your earliest possible
reply and thanking you for

advice, I remain
Very truly yours,

Vincent Johnson
Vincent Johnson
314 So. 4th St.
AMES, IA. 50010

REJUALIFE PRODUCTS, INC.
781 W. Oakland Park Blvd. 132
Ft. Lauderdale, FL 33311

Mr. Johnson,

GH3 has not yet been endorsed by the FDA and any thing that is in that category is always higher. But if you can only afford one half, then you may have it at that price.

Our prices are the lowest in the country.

Our product is the genuine. When Dr. Aslan was here several years ago she gave us her formula, and we make our own. Page 209 of the book GH3 by Herbert Bailey lists the exact formula and that is the way we produce it.

The only way that we can sell the GH3 legally is by having a patient chart for each user. Such a chart is enclosed, and in this way one of our consulting physicians can dispense GH3 to his patient.

Nothing can come into this country (GH3) legally and our product is the formula from Romania, as you can have analysed and compared with the formula breakdown that I mentioned.

The enclosed information will more than satisfy you. If you choose the injectable over the oral, ask your family physician to do the injections.

Yours truly

J. Adler M.D.

GH-3 AVAILABILITY INFORMATION
"Travel is no longer necessary"

All the information in the world relating to GH-3 therapy would not be very useful unless you were able to obtain it for yourself. Therefore, the goal of this information is to describe in detail how you may obtain a procaine buffered, stabilized formulation, and without travel.

Development of oral Liquid GH-3

A major breakthrough as to the availability of GH-3 in America came about with the development of an oral liquid formulation of GH-3. For the first time ever, people in this country are able to obtain GH-3. The compounded formula contains all the authentic ingredients of the Aslan formulation, but in oral liquid form, rather than in the Romanian injectable. Also the liquid formulation is readily absorbed into the bloodstream. This liquid GH-3 has been made available to over 4,000 persons throughout the United States and Canada. Those who have taken it have attested to its marvelous benefits. The testimonials from users parallel those which are documented in Romania and other European countries. In fact many who have experienced both the European products and the oral liquid formulation have reported superior results with the liquid. This may be due to the beneficial effect the oral liquid solution has on the gastro-intestinal tract, as well as its systemic effects.

The authentic GH-3 formula can now be obtained as a therapy for a variety of health conditions, including many degenerative diseases of aging. To receive treatment, simply send the required fees to Rejuvalife Products. This is great news for those who cannot afford to spend anywhere from the required \$1,500 to \$3,000 to receive treatment via travel to another country, and will be a tremendous saving for those who are presently traveling in order to obtain a supply.

To assure you of receiving an authentic procaine preparation, physicians assigned by Rejuvalife will be utilizing an inimitable scientific formulation that is highly absorbable, easy to take liquid which contains all the buffering and stabilizing ingredients of Dr. Aslan's formula. Assigned physicians compound the formula by adding procaine. In accordance with the intent of the Federal Food, Drug and Cosmetic Act, a physician has the absolute legal right to compound substances that he feels may be necessary or beneficial for a patient. When congress passed the Federal Food, Drug and Cosmetic Act, it did not intend to interfere with medical practice as between a physician and patient, 301(k), 502(f)(I), 21 U.S.C.A., 331(k), 352(f)(I). Also court rulings have clearly demonstrated the absolute right of a physician in prescribing and compounding and dispensing this particular buffered procaine formula as a dietary supplement. They are not advocating the use of this formula for the treatment or cure of any chronic condition or degenerative disease.

The standard fees for participating in the Rejuvalife method are: \$60.00 for 3 months treatment, \$110 for 6 months or \$195.00 for one full year. This covers all costs including indicated supply, physicians' compounding, processing and shipping fees.

Fatigue-increase in oxygen (our body's energizer)
 Heart disease-circulation, detoxification and chelation of veins and arteries.
 Cancer-providing essential nutrients, reducing stress detoxifying of the liver.
 Eyesight-circulation
 Insomnia-better balance Vitamin D
 Senility-increase of oxygen to the brain.
 Osteoporosis-encouraging retention of calcium in the body.

On September 5, 1956, 500 physicians representing 13 countries, assembled in Karlsruhe, Germany. Romania's representative, Professor Dr. Ana Aslan delivered a paper entitled "Treatment with Gerovital Applied to Aged People." The audience of highly respected professionals in all fields of medicine listed to Prof. Dr. Aslan in shocked silence. That something could be done about the paralyzing effects of old age was a dream — not a reality.

But their shocked silence soon turned to cheers and applause for Prof. Dr. Aslan concluded her presentation by showing films taken at the Geriatrics Institute of Bucharest of patients who had undergone Gerovital treatment.

After treating several thousand persons, and carefully documenting each case, Gerovital H3, which she said, would benefit not only specific ailments but also counteract the DEBILITY and SENILITY of the WHOLE SYSTEM

H3 CREATES LASTING CHANGES IN THE BODY. It can strengthen all the senses, make age spots vanish, help balance blood pressure, restore hair, even give hair back its color, claims the world's foremost authority who has treated over one hundred thousand people during the last 30 years, INCLUDING MANY FAMOUS CELEBRITIES.

WHAT IS H3?

The originator of H3, Dr. Ana Aslan, refers to it as a VITAMINIC FACTOR. H3 is a dynamic energy giving nutritional substance which works at the cellular level, influencing the level of the cellular membrane and at the intercellular level, dramatically restoring those cells which usually regenerate very slowly and sometimes not at all in aging people. H3 has been proven safe and effective and virtually free of side effects.

A MONUMENTAL STUDY

In 1972, Dr. Aslan and over 200 associate physicians conducted one of the LARGEST SCIENTIFIC (double-blind) STUDIES EVER in the history of medicine, testing the effects of procaine on 15,000 PEOPLE!

The results showed improvements in

- *Blood pressure (high and low), arteriosclerosis, pulse rate, cholesterol level
- *Cardiovascular, angina pectoris, respiratory capacity
- *Functional capacity, work capability
- *Natural patterns (sleep, digestion, regularities)
- *Memory, moods, concentration, senility
- *Sexual asthenia, impotence, stimulation of sexual hormones
- *Depression, anxiety, stress
- *Energy levels
- *Ulcers
- *Parkinsonism
- *Arthritis, arthroses, rheumatism, osteoporosis
- *Wrinkling skin, age spots, graying hair, baldness, psoriasis

ADDITIONAL CONFIRMING STUDIES

Over 280 WORLDWIDE STUDIES from 22 DIFFERENT COUNTRIES, have duplicated the finding of Dr. Aslan. Controlled clinical and laboratories have shown REJUVENATION ON ALL PHASES OF LIFE on which it has been tested.

COMPOSITION OF H3

H3 is composed of a 2% procaine hydrochloride solution with the added ingredients of benzoic acid, potassium metabisulphite and disodium phosphate which act as buffers and stabilizers, thus increasing the life of the substance in and out of the body. Controlled studies have proven that Procaine is not very effective without these added ingredients.

THE PRINCIPLES OF H3

PROCAINE BREAKS DOWN ENZYMATICALLY IN THE BLOODSTREAM into two bionutrients which naturally occur in the body but become deficient as we age, PARAMINOBENZOIC ACID (PABA) and DIETHYLAMINOETHANOL (DEAE).

H3 helps build the bodies own defense system and favorably influences vital biochemical and regenerative processes.

In general, H3 is believed to help maintain HOMEOSTASIS, the state of proper balance in the body at all levels: cellularly, hormonally, biochemically, circulatorily, muscularly, digestively, glandularly, and mentally.

"It is conceivable that aging of an organism, whether due to premature, pathological or so called normal factors could be returned to an earlier biological state."

Dr. C.I. Parhon
 Founder of the world famous
 Institute of Geriatrics
 Bucharest, Romania

Controlled clinical and laboratory studies conclusively show rejuvenation on all phases of life on which it has been tested from the most simple one celled animals to the most complex of all . . . MAN.

SOME FINDINGS OF LEADING RESEARCHERS

... OF 41 SUBJECTS receiving only 12 doses of GH3, most felt a greater sense of well-being, freedom from stress, slept better, and experienced relief from depression . . . lowering of cholesterol in 8 of 9 patients suffering from hypercholesterolemia . . . Dr. Sidney Cohen, M.D., Professor of Psychiatry, Neuropsychiatric Institute U.C.L.A.

... GH3 PROVED to not only be superior to the placebo in the abatement of depression — it also proved superior to the current drug of choice, Imipramine . . . Dr. William Zung, M.D. (developer of the famed Zung self-rating depression test)

... OF 137 ARTERIOSCLEROTIC PATIENTS, 76% showed improvement, many were completely cured . . . 7 of 8 stroke patients showed improvement . . . also 5 of 6 with Parkinsonism . . . 2 of 4 suffering from encephalomalacia . . . Dr. F. Peterson, Neurologist, Halle, East Germany.

... RAPID RELIEF FROM PAIN OF ULCERS . . . fluoroscopy showed many ulcers completely disappeared . . . N.K. Gorbadei, Leningrad Medical Institute, U.S.S.R.

... SAFETY OF GH3 was tested by giving both humans and laboratory animals 60 times the recommended dosage. Neither the humans nor the animals showed any side effects whatsoever. Dr. Nathan Kline, Columbia College of Physicians & Surgeons.

Attn. Dr. Ana Aslan

Dear Dr. Aslan:

Recently I bought the Gerontal H-3 pills and 12 vials of the vaccine from them.

Could you please write me a prescription or tell me how many injections would I take a week. After 2 weeks of taking the G-H-3 pills would I be given injections for the next 2 weeks or would I start the injections 2 weeks after I had taken the pills?

Also how much from the vial should be taken by injection at one time?

Please write a prescription and mail it to me or else tell me how many injections should be given in a certain period of time and how far apart should they be given after taking the G-H-3 pills.

Dear Mr. Johnson,

I received your letter and I inform you that you should take one course of 24 pills of Gerovital H3 in 12 days (two a day, one pill taken after breakfast and another after lunch) with rest intervals of two weeks between the courses.

I would appreciate to receive some news from you after 6 months of treatment.

In answer to your question, I let you know that 1 gramme = 15.43236 grains and 1 sq.centimetre = 0.15500 square inch (according to Oxford dictionary).

If you want to undergo a treatment by injections, you should order it to ARCODE LTD., Plantation House, Mincing Lane, London EC3, telephone: 01-623 7074, telegrams: Tenchim London EC3, tele 883476. It is better to be administered under a physician's supervision, for example Dr.Theodore Jacobs - 3196, Maryland Parkway, Las Vegas, Nevada 89109, telephone (702) 735-0258 - who knows and applies our method of treatment.

With best wishes,

Yours sincerely,

Attn: Dr. Gene Colan

Dear Dr. Colan:

Yesterday I received in the mail one little bottle of your Benzonal #-3 hair lotion and also 100 tablets of Benzonal #-3. I intend to start taking the tablets the week starting next Monday, December 4th and also to regularly apply the hair lotion not week.

I have no instructions included with the tablets or call you tell me how many tablets to take a day and how often to take them Dr. Colan? Tell me also Dr. Colan could you find me the appropriate length of time upon foot it will take me to receive the improvement problem while using the Benzonal #-3 tablets also I would like to take the cream when a little lotion or put in the night around the hair and I would like to take the tablets.

Would you also please inform me what 1 gram and 2 cm. sq. are the equivalent of in the English system of measuring?

I noticed that the tablets were imported into England from Chimimport-Export of Bucharest. As far as I know Nevada is the only state that has made it legal for a doctor to prescribe G.H.-3. Could Dr. Jacobs from Las Vegas purchase your vaccine from one of the representatives and prescribe the vaccine to an individual to the test of your knowledge, Dr. Calton?

Please answer the questions I have asked above as soon as it is possible for you to do so, Dr. Calton. Thank you.

Yours truly,

Vincent Johnson

Dear Dr. Aslan,

I've just read an article
in the current issue of
Magazine, Argosy —, concerning
your Gerovital H-3 —

I am very much interested
in having information
about either having some
sent to me, or learning how

one goes about ² acquiring its
treatments —

How long is required?

Is it necessary to be hospitalized?

If not, are hotel or reputable
room arrangements made by
your institution for your patients

What would be the appropriate
cost — Treatments — Hotel or room

& board & any other related

expense — Thank you for

an information — Must reser-
vations for these treatments be
made ahead of time of arrival?

If so — about how far ahead —

Do they usually remove the
"liver or old age" spots?

Thank you & sincerely
Fanny M. Orr —

Mr. Donald G. JOHNSON
158 Blodgett Roy Drive
New Britain, Conn. 06053
U.S.A.

Dear Mr. Johnson,

I have received your letter of August 15 and send you herewith the following information.

Our pharmaceutical product Gerovital H3 is indicated in old age and in diseases related to the aging process as well as in the prevention of premature aging. It is efficient in the following affections: trophic disorders - cerebral and peripheral arteriosclerosis; degenerative rheumatism; dystrophies of the skin, nails and hair; neuritis, neuralgia, neurodermitis, extensive eczema; alopecia, psoriasis, sclerodermia; angina pectoris, sequelae of myocardial infarction, Raynaud's disease, arteritis, post-hemiplegic sequelae, bronchial asthma, disturbances of the central and peripheral nervous system.

In your case a treatment by alternating courses of pills and courses of injections is more efficacious.

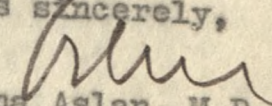

The treatment can start in the Bucharest Institute of Geriatrics and continued at home, according to our indications.

The shortest period of treatment in Bucharest is of 14 days, consisting of a tolerance test, laboratory records and the beginning of the first course of injections (one intramuscular injection every second day).

For more details you can address yourself to Dr. Alfred T. SAPSE, 233 South Beverly Drive, Suite 100, Beverly Hills, California 90212.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Prof. Anna Aslan, M.D., D.Sc.

Professor Dr. Ana Aslan, Director
Institute of Geriatrics
Bucharest, Romania

Dear Dr. Aslan,

Recently I have noted articles concerning your work with Gerovital H₃ appearing in North American publications. Although you have been carrying on this work for some many years, some of us in the United States are just learning of your accomplishments. One article which especially created a desire in me to learn more about your treatment was written by Mr. Herbert Bailey which appeared in the July issue of Argosy Magazine.

From the limited knowledge I have of your treatments, I have a feeling and a hope that your program can help me to lead a more productive life for the balance of my days as well as doing the same for my wife. I have recently been told that I may possibly have an Angina pectoris condition. This is in addition to an inclination to be nervous as well as having a verified ruptured disc. My wife, who has a great deal of ambition and is a teacher working with young children, has high blood pressure and a sinus condition. We are both in our middle fifties and believe that with reasonably good health, we both can make a worthwhile contribution in whatever endeavor we choose to follow.

With this capsule background, I would like to ask you for more information concerning your program. So far, I have contacted the Romanian National Tourist Office in New York and they have sent me brochures concerning tours to Bucharest which provide for treatments at a local clinic. Specifically, I would like to know exactly what these treatments consist of and how long they are likely to take. Also, reference is made to being supplied with Gerovital H₃ which will be sufficient to continue the treatments for a period of a year. Is this something that has to be done under a doctor's care and if so, do you have the names of medical men within a reasonable distance from me who would continue the treatment for a year's time, in the case that my family doctor would not. In addition, I wonder what happens after the year is up. Does a person have to continue treatment for the rest of his life

or is a one year, one time, treatment the whole procedure?
If the treatments continue for the rest of one's life, does
one have to travel to Budapest every year for treatment?

These are some of the questions which I would like to have
answered before I take the next step. One of the things I
would like to do is talk to someone in the U.S.A. who has
taken the treatment and is willing to tell me about their
experience. Is this possible?

As you can see, I have tried to set down in this letter
some of the questions which came to me in anticipating
a trip to Romania and taking your treatment. I hope that
you or someone on your staff will be able to answer these
questions so that my wife and I can make our decision to
come to Bucharest, if you believe you can help us.

Sincerely,

Donald G. Johnson

JK

Dear Dr. Aslan,

I want to thank you so very much for your reply to my request about taking treatment at your clinic.

First I'd like to know from you some answers to my questions. I am now on Prednisone. The

doctors here claim that you cannot stop taking this medication, one has to get off it gradually. Should I continue to take this until I get there?

I am also on Indomethacin. They also gave me Percodan for pain.

I would also like to know if you can instruct me as to what Air Line I may obtain passage? Flight?

I have a ² Flower Shop, and right now we are very busy and it would be difficult for me to get away. But I feel that after the holidays I will be able to get away. I am also bringing a friend with me for your treatment.

One more question. After I get the treatment and come back to the States, how will I be able to ~~me~~ get more medication that I will be needing. I understand the government does check the mail and will take the medication. Then what will I do.

Please answer letter and I will keep in touch just as soon as I can make arrangements. Hope to see you real soon.

(over)

Sincerely
Frances Johnson

I am enclosing a self addressed
envelope for your reply.

Frances Johnson Staten Island, New York

280 So. Greenleaf Ave

my near Staten Island, NY

I have read w. 10314 Wonderful work you are doing with Y.H.3.

I have read about how you cured a boy who had Arthritis and that is what I am suffering from.

I have a flower shop that I run myself and also raised my sisters & children as she had a breakdown; but now I am crippled with Arthritis and its very frustrating and depressing. I have always been a very active person and always on the run, but

since I've been ^{2.}stricken 11 yrs
ago I'm getting worse every
day. When I read about you
I felt maybe there's some hope
and some relief.

I've had spinal meningitis and
Rheumatic fever as a child
and several operations in my
young adult years. But I
always bounced back and never
had a chance to baby myself, as
others depended on me, but
this has really got me down
and some days I just want
to die rather than to go on.
With this constant severe pain.

I would appreciate you
setting a date for me and
directing me as to where you
are located, so I don't waste

3.

too much time and money, I
would be ever so grateful.

also what are your fees.
I wrote to 2 doctors here
after getting their address from
the newspaper, and they wrote
me and said they achieved good
results but are no longer in
the steady program and they
directed me to you.

This medication is not
available in the United States at
present.

Please help me in any way
you can.

I would appreciate a reply
from you telling me what to do
and I'll do it. I really can't be
away for too long a time.

Thank you for any help

=====

Dear Mrs. Johnson,

I acknowledge good receipt of your kind letter of the 26th January contents of which I duly noted.

Firstly I want to stress that the K.H.3 is not my product, it is only an imitation. Therefore I do not know what about the instructions of the inside of the package. My product is GEROVITAL H 3.

Concerning GEROVITAL H3 they are no problems, and you can take it without danger. For your kind information, please find hereby enclosed some general instructions of the treatment, as well as a list with the addresses, where GEROVITAL H3 is available. I should recommend you to make a treatment at home, with pauses of 2 weeks.

I am stressing that a medical control is absolutely necessary for the supervision of your conditions of health.

I can recommend you two physicians, using the Gerovital-treatment :

- Dr. Allan Blackmann
411, East, 56 Street N.Y.
- Dr. Bruce A. Sanderson M.D.
San Diego - California, Suite 341, 550
Washington Street
Tel.: 293 - 3141

Herby enclosed I return with thanks your check for 1 Dollar. If you want to come, please revert.

Hoping, that my informations were usefull to you, I remain,

Yours sincerely,

Anna

9 Manasterea Caldarusani
Bucharest, Romania

Dear Dr. Aslan:

As you can see by my attached letter I was told to contact you by the author of a very interesting article about your work with procaine.

I believe the attached letter will explain my problem and I would be very, very, grateful if you would answer my question as to whether it is safe for me, a 45 year old woman, to take K. H. 3 while I still have a regular menstrual cycle. The directions inside the box indicate that "not to be taken by women of child bearing age".

I am saving my money and hope that some day soon I can come to your clinic and have your treatments. The doctors here cannot seem to be able to help me.

I am enclosing a self addressed envelope for your convenience and a check in the amount of \$1.00 to cover the mailing charges.

Thank you very much.

Sincerely,
Helene Johnson

Thank you for kind praise
re my article

Mr. Ted Burke
c/o Town & Country
Hearst Corporation
717 Fifth Avenue
New York, New York 10022

Dear Mr. Burke:

I read with a great deal of interest your recent article in Town & Country
on Dr. Aslan's work.

Because I am unable to go to Romania, I went to London last week end and
purchased a year's supply of K.H. 3--each capsule containing Procaine
HCl B.P. 0,05g and Haematoporphyrine base 0,0002g because for the past
10 years I have been plagued with arthritis, neuralgia, sinus congestion,
muscle spasms and an extremely fast heart rate. I feel 80 instead of 45
and the only help I can get here after about \$20,000 in medical fees and
the stress of the constant pain is to take between 30 to 15 milligrams
of Valium a day. The physicians keep saying "you have to learn to live with
the pain". I do not want to accept this.

My only concern now about taking this "wonder drug" is that inside the package
there was a paper with directions and under "Caution" it indicated that "women
of child bearing age should not take this medication". Does this terminology
mean--a woman who is still menstrating regularly (which I am) or does it
only apply to a woman who wants to have another child (which I do not). I would
be deeply appreciative if you would clarify this for me.

I thank you in advance and I am enclosing a self addressed envelop for your
convenience.

Sincerely,

Helene Johnson

P.S. I questioned my own doctor here... and he referred to Dr. Aslan as a
"quack". So there is no help from him.

Mrs.H.Johnson
423 Fourth St.
Glen Dale
West Virginia 26038
U.S.A.

Dear Mrs.Johnson,

I have received your letter and I want to inform you that Gerovital H3 is not a miracle medicine which keeps you ever young or cure all kinds of diseases.

It is a medicine which prevent premature aging and the diseases generally pertaining to the aging process, so that the third period of human life shouldn't be a misery life of pain and distress.

We generally recommend the preventive treatment between 45 and 50 years old. For the preventive treatment, we recommend Gerovital H3 2 pills a day for 12 days, every month, 4-5 series every year.

For the curative treatment, we generally recommend Gerovital H3 or Aslavital (generally for cerebral atherosclerosis) series of injections and pills.

In your mother's case, if she doesn't want to make injections, she can take either Gerovital H3 or Aslavital, 2 pills daily after the main meals, for 12 days, with a rest interval of 10 days between each series of pills, all the year round.

You can get Gerovital H3 from the addresses enclosed and Aslavital only from Switzerland.

Awaiting your further news, I remain,

Yours sincerely,
Acad.Prof.Dr. Ana Aslan

MINISTERUL SANATATII
Institutul National de Gerontologie II/20/1975
§1 G. natriu

INTRARE Nr. 2970
1975 luna X ziua 27

Dear Professor Aslan:

Thank you for answering my inquiries in regard to your two wonderful products, GEROVITAL H3 and ASLAVITAL. However, I have been obtaining GEROVITAL H3, only for my mother, who is in her early eighties and in remarkably good health, except for a mild case of bursitis.

Upon reading of your latest product, ASLAVITAL, I also, naturally, sent for that. In other words, it is not I, her son, who is greatly concerned with taking either product, for I will not be forty years old till February ninth of next year; which brings up another point: I have read that the best time to begin a GEROVITAL program is between the ages of forty and fifty. Is this true? If so, perhaps I should begin taking GEROVITAL at this point in my life. Or should I begin taking ASLAVITAL, which, I have read, is better reinforced with minerals, etc? I am in normally good health.

I recall telling you that GEROVITAL/ ASLAVITAL was for me, because it seemed the easiest explanation at that time. However, I should have told you that my most basic concern is for my mother. And, you probably remember me from a few years ago, when my greatest cause was saving my now-departed father's life through GEROVITAL H3. Tragically, I never got a chance to administer it to him. I have striven to acquire all of the information possible in regard to GEROVITAL / ASLAVITAL, from libraries to periodicals, etc, and I am most impressed with what I have learned.

p.s. Is ASLAVITAL your newest product?

I'm afraid I did not receive your letter of September 28, or are you referring to the letter that I sent to you? At any rate, from your information, if I am to take GEROVITAL (or probably ASLAVITAL), it could be in tablet form only? I would prefer tablets only; and I know that my mother will not take an injection program. Only tablets.

My last question is, what should be her schedule? And mine?
Please address your reply to: Mrs. H. Johnson, 423 Fourth St.,
Glen Dale, West Virginia 26038 U.S.A.

Thank you. Sincerely,
R. E. Johnson

Dear Mr. Johnson,

I am sorry to answer your letter at such a late date but I have been away from Bucharest until recently.

Full information about our researches and a description of the treatment and of its results can be found in a collection of our papers and articles published in the U.S.A. by: Miss Frances Coleman, Consultants Bureau Inc., 227 West 17th Street, New York 11, N.Y.

H₃ has recently been manufactured on an industrial scale and is available for export under the name of "Gerovital-H₃". Its sale is handled by "Chimimport", 12, strada Doamnei, Bucharest - who could give you information as to the possibility of its availability abroad.

Should you require further details, I would gladly answer your request.

Yours sincerely,

Dear Doctor Aslan:

THIS IS AN APPEAL FOR HELP...MEDICALLY....

I realize you and your staff are extremely busy; but after reading the accounts of the wonderful results you have achieved with your use of Procaine, I am compelled to write to you personally. I am hoping your humanitarian practice of helping those in need of medical assistance will cause you to reply.

At 65, I have arthritis, high blood pressure, no energy. It is useless and a complete waste of time to try and convince some Doctors in America of what I am convinced is wonderful; by just showing him an article in a magazine about your fine results with the use of Procaine.

They are much too set and unbending in their beliefs, theories, and attitudes in everyday practice of the Medical Profession. Especially with something they assume is good for only one thing, an anesthetic for a Dentist. But I have absolute confidence, that with your pamphlet and complete data and information covering the details on the administration of Procaine or H 3, I can persuade my Doctor to administer your treatment to me.

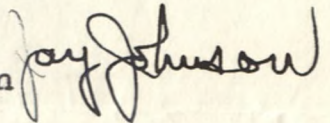

And further, I believe, when I am helped, my Doctor will be inclined to continue with other future patients; which in turn converts another Physician to the cause of your method and unique discovery.

In taking your treatments, can a patient be up and around, or must he have complete bed-rest? Can he have a drink of brandy morning and night? Is smoking cigarets prohibited? Is there a special diet he must use?

Will you send me this health information to enable me to get help from my Doctor? The consequences of my condition may cause other Medical men to open their eyes to the wonders you proclaim with Procaine. Please answer.

Sincerely,

Jay Johnson

Director of Bu charest Institute Geriatrics
Bucharest, Roumania.

Dear Doctor:

Your letter which was addressed to my former address, in Florida, finally reached me, many thanks.

I am very much interested in the Gerovital H3, provided it can be forwarded via mail, without too much lost time in the process of handling certain formalities associated with United States Customs. Needless to say, many drugs are prohibited from entering this country, therefore, prior to placing an order with you I first would want your assurance that the ~~the~~ product involved could enter this country freely.

I would prefer the tablets but if the injections are more preferable, I am a registered nurse and capable of handling the application of them.

Would appreciate hearing from you at your earliest as much time has already been lost.

Sincerely

Lillian E. Johnson

P.S. Since writing you last, my husband has suffered hemiplegia on left side, due to his brain injury world war II. They are keeping him on Dilantin 100 mg. T.I.D. thought perhaps you should know before starting your treatment. I usually consult with your friend, Dr. Goodman of N.Y.C.

but who is now located in New Mexico. I do hope its possible
to get your treatment to us. Thank you,

J.G.G.
Professor
Director
Institute

Dear Doctor:
Your letter which was addressed to my former address, in Florida,
finally reached me, many thanks.
I am very much interested in the Gerovital HJ, provided it can be
forwarded via mail, without too much loss in the process of handling and
certain formalities associated with United States Customs. Needless to say, any
charges are restricted from entering this country. Therefore, prior to placing
an order with you I first would want your assurance that the product in-
volved could enter this country freely.
I would prefer the tablets and all the injections are more prefer-
able. I am a registered nurse and capable of handling the application of them.
Would appreciate hearing from you at your earliest convenience as much this
as already been lost.

12 - 11 - 1969

Dear Dr. Aslan:-

Have just finished reading a most interesting account, your latest research on Procaine treatment, known as H.H.3.

Needless to say my interest in your work dates back to 1963 when I first wrote you in treating my husband. You very kindly read his medical report your reply was most encouraging - however it was not possible for us to make the trip to Bucharest for treatment under your care.

I'm still very interested in your discovery, have kept abreast of your progress through your very good Dr. Goodman.

Would it be possible to purchase these pills from you, or perhaps Switzerland, Germany, I gather it's not possible to get them here in United States.

If it is possible for you send them please enclose full directions

And if its necessary to be under doctor Care?

We'll be in Florida until March 18th Should appreciate some word from you by this date. If in the event you forward the pills, shall send money order by return mail.

Trust I'll hear from you by return mail. Wishing you with sincere good wishes the very best which you so greatly deserve. I remain,

Yours truly

Brief Non-Technical Medical History of:

Mrs. Mary Lea Johnson (Wife)
870 Columbus Ave., Apt. 17-I, New York 25, N. Y.

She is 65 years old (Born March 2, 1892).

Height: 5 ft. 5 in. Weight: 140 lbs.

Has been schoolteacher, office worker, housekeeper.

SHE has two serious ailments which cause her much pain & discomfort & sometimes agony, but she still continues to do her housework and goes about to do her shopping and other errands. She is active, not confined to the house. Her illnesses are arthritis & migraine headaches.

1) Her arthritis affects the spine, as shown by X-rays. It causes cramps and pain at night, interrupting her sleep. Often there are swellings of the legs, and sore black & blue spots.

2) Her migraine headaches were formerly infrequent, once a month on the average, but the past summer they have become very frequent, about three times a week on the average. They are very severe and painful, accompanied by digestive disturbances, nausea, and even vomiting and, at times, diarrhoea.

New York 25, N. Y.

January 7, 1960

To Professor Aslan:

My wife and I
~~we~~ have an American doctor who promises us that
if we can procure the medicine from Professor Aslan in
Romania, he will administer it to us, following the
directions that you send.

We hear of American doctors giving patients a
preparation of cocaine made in the United States, but
we hesitate to try it. We would prefer the original
H3 prepared by yourself, if we could get it.

I may add, in addition to the accompanying notes,
that we are friends of Miss Helen Alfred who
spent about two months in your sanitarium last
summer. She gave us an enthusiastic account of the
work you are doing.

With friendly greetings and best wishes from
two admiring American strangers,

Cordially yours,

U.S.A.

Dear Mr. Johnson,

I have received your letter and I have to tell you that I was a little surprised to find out that your mother lost her appetite for food after taking Aslavital. Generally the effect is vice versa.

Anyway she should see a physician to track down the cause of her lost of appetite, and indicate her an adequate treatment.

Awaiting your further news, I remain,

Yours sincerely,

Acad. Prof. Ana Aslan, M.D., D.Sc.

Dear Mr. Johnson,

In reply to your letter of September 28, last, we let you know that it is possible to take only tablets of Gerovital or Aslavital.

In order to be able to give you any instructions on the treatment, please let us know how old you are and what is the state of your health.

Waiting for the pleasure of hearing from you again, I remain,

Yours sincerely,

Professor Ana Aslan M.D., DSc.
Director of the National Institute
of Gerontology and Geriatrics

9/28/ 1975

Dear Prof. Aslan:

Recently I sent for and received one bottle of your product, ASLAVITAL , in tablet form, from one of your import companies. As nearly as I can perceive, the directions instruct an alternate course of tablets and injections. Here I have a problem, for I do not care to take injections, though I am willing to take tablets. In other words, how many tablets should I take, to compensate for the injections I refuse to take? It must be tablets, for I cannot bring myself to take injections.

Also, I have a bottle of your earlier product, GEROVITAL H3, in tablet form. Is it safe for me to take GEROVITAL H3, till I have taken all of the tablets, then begin taking ASLAVITAL tablets? In the future, I intend to send only for ASLAVITAL , as I understand this product is more effective, unless, of course, you advise otherwise. Have you a product that is more effective yet than ASLAVITAL? If so, I will gladly take it, but only in tablet form. I will appreciate your reply. Yours sincerely,

Robert E. Johnson

West Virginia 26038
U.S.A.

Dear Mr. Johnson,

I am sorry your father died before having the possibility to try the treatment.

Your mother can undergo the treatment as she prefers in pills or in injections. Usually we advise the treatment in both pills and injections alternating one course of pills and one course of injections with 10 to 21 days rest interval according to age and health condition. I am sending you herewith our general information concerning the treatment and I hope you will be able to learn all you are interested in, for me being rather difficult to answer all your questions owing to the great number of letters received from all over the worlds. The treatment is administered 3 times a week, every second day, excepting Sundays, the days are to be chosen by you.

Yours sincerely,

Prof. Ana Aslan M.D., D.Sc.

1570

10/21/1971

Prof. S. receive de patient
Professor Aslan:

10 319

You remember me as the man who was concerned about my father's ill condition, quite some time ago. I wrote to you, and you replied, advising me as to your product, GEROVITAL H3.

I regret to inform you that my father died before it could be administered to him. He had been in drastic condition for a long time. But I still have my mother, who is seventy-five years of age, and I would like to provide her with GEROVITAL H3. Her health is reasonably good; but, considering her advanced age, I still think she should have it in order to ward off complications which all elderly persons contract. She DOES have slightly high blood pressure, but not seriously.

Since her health is not drastic, can she receive CAPSULES of GEROVITAL H3, rather than injections? And if her health someday IS drastic, must I then resort to injections, and never again capsules? It would be I who would administer the injections, if it is true that the patient must receive them alternately in the cheeks of the buttocks, which I understand is the procedure. Can injections instead be administered in the ARM?

Forgive so many questions, but in this case I feel whatever I do must be exact.

I have a relative in ill health and DIABETIC. Can a diabetic person receive GEROVITAL H3 safely? Also, can a person with a HEART CONDITION? This is a different person, not the diabetic; but if my relative who is diabetic should develop a heart condition, considering his age (seventy-four), can he STILL receive treatment safely? How about someone who has suffered a STROKE, or TWO STROKES?

Is ENERGOVITAL 'ROYAL JELLY' the same as GEROVITAL H3? Was it also developed by you?

(OVER)

Did you ever hear of Dr. ALBERT C. SIMARD, a N.Y. endocrinologist
treating with GEROVITAL H3?

Is it true that the best time to begin taking GEROVITAL H3 is be-
tween the ages of FORTY and FIFTY? I am thirty-five years old, but
someday I'll need it, myself.

Professor Aslan, I am a writer, though not wealthy, and I can pub-
licize your product favorably, here in the U.S.A., if you wish. I
will gladly do this through gratitude, by writing short stories,
essays, etc. on the subject. I deeply appreciate your help.

Thank you, and yours sincerely,

Robert E. Johnson, 423 Fourth St., Glendale, West Virginia, U.S.A.
26038

P.S. What would be the course of treatment for my mother? I hardly
think it would be the same as you advised for my father, (i.e.),
three times weekly, with a ten day rest period, for twelve treatments,
after completing the course. If so, must the days be MONDAY, WEDNES-
DAY, FRIDAY, or can it be any three days of the week, such as SUNDAY,
TUESDAY, THURSDAY, or THURSDAY, SATURDAY, MONDAY, ETC? And is there a
difference between the course of treatment in CAPSULES than in INJEC-
TIONS? Once again, thank you.

Dear Mr. Johnson,

I have received your both letters and I thank you for your interest and appreciation of our work.

Our original medicine Gerovital H3 can be obtained from one of the representatives abroad. Owing to import regulations in your country the Romanian exporters are unable to send you directly the medicine. Our patients inform us they are able to obtain it from London (see enclosure).

Hoping you will be able to obtain the medicine and give the treatment to your father, I remain

Yours sincerely,

Prof. Anna Aslan M.D., D.Sc.

JAN. 31, 1971

Dear Dr. Aslan:

My name is Robert E. Johnson. I am interested in purchasing GEROVITAL H3, the drug you have developed. From what I have read of your experiments with albino rats in regard to GEROVITAL H3, and your treatment of hospitalized patients, I am inclined to think of you as quite a genius.

It is of utmost importance that I obtain GEROVITAL H3, for my father, who is quite elderly and infirm. The reason that I am typing this letter is because my father is unable to do so, due to his failing health.

I understand the price of GEROVITAL H3 is reasonable, in your country.

I will appreciate any information or advice you can provide. Thank you.

Sincerely, Robert E. Johnson.

Enclosed is a self-addressed envelope.

Dear Dr. Aslan:

I have attempted to contact you twice, without results. My letters were not returned to me, therefore I presume they were received by someone at your locality.

The matter which concerns me is the drug GEROVITAL H3, which you developed, and which I need to purchase for my ailing father. Please give me some information on how I can go about doing this. Enclosed is a self-addressed envelope.

Thank you. Sincerely,

Robert E. Johnson, 423 Fourth St.,

Dear Dr. Aslan:

My name is Robert E. Johnson, and I am interested in the drug GEROVITAL H3 that you have developed. My interest is centered mainly upon my father, who is seventy eight years old and in very poor health. I would like to obtain GEROVITAL H3 for him. When he dies, which he will, and soon, if drastic medical measures are not enacted, I will have no one, for my mother is dead, and I have no brothers or sisters.

Would it be possible for you to send me a supply of GEROVITAL H3? I understand that it sells in your country for eleven dollars and seventy cents, which I would mail to you beforehand (before receiving GEROVITAL H3), plus shipping costs, of course.

If I cannot receive it from your country to mine, could I purchase it if I should make a trip to your country?

I will anxiously await your reply. As I've stated, the matter is of utmost importance. Enclosed is a self-addressed envelope. Thank you, yours sincerely, Robert E. Johnson

Professor Aslan:

My name is Robert Emmett Johnson. I am contacting you not for myself, but for my father, who is seventy eight years old, and in very poor health. I read recently of your wonderful work with the youth pill, GEROVITAL H3, or KH3, and I would like to know if I can purchase a supply of these pills for my father. When he dies, which he will, soon, if he does not receive assistance, I will be all alone, for my mother is dead and I have no brothers or sisters.

I will appreciate it if you will advise me as to this matter. Thank you very much. Enclosed is a self-addressed envelope.

Dear Mr. Johnson King,

In answer to your letter, I send you herewith enclosed a brochure about the geriatric treatment in our country.

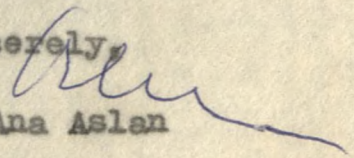

You will find the health spas where it is applied along side with other therapeutical methods.

As concerns the cost of the treatment in different spas, you may inquire at our National Travel Office, Blvd. Magheru 7, Bucharest.

Looking forward to your news, I remain,

Yours sincerely,

Acad. Prof. Dr. Ana Aslan

POMPANO, Fla. — Sunday dinner. The crystal shines, chrysanthemums and daisies bloom in each centerpiece. And soon, 300 calories will arrive in interesting dribs and drabs until finally some sweet and crowning glory — a mock mousse, a sherry-less trifle — will be brought in with a flourish usually accorded Baked Alaska.

Then it's back to the salt mines. "I'll never survive," says a perspiring fat man who has just checked in, focusing his attention on a 20-calorie bagel slice (they must get 10 slices out of the average bagel) and fiddling with 10 calories' worth of synthetic jelly.

got food in my room?" wonders a middle-spread bachelor who looks as if he has candy bars in his briefcase.

While it may sound like a summer camp in many ways, there are some very adult pleasures available to the guests, including some satellite fleshpots on the outskirts of the Palm-Aire complex.

For a shade under \$1,000 for one — or \$1,300 for a couple — a week in this

Toughest masseurs pussycats at heart

cocoon of concern can be arranged. Tucked into a secluded corner of a larger resort called The World of

beauty, sensuality, serenity, vibrancy; even the patrons, most of whom are ample rather than gargantuan, are attractive in an expensive sort of way.

And what \$2 million has bought in the way of physical facilities (all walled into one Secret Garden with solariums and atriums and pools and orangeries), rivals anything else in the country. There's a men's side and a women's side, and never the sexes shall meet except at meals or in the common (or uncommon — its Ultrasuede, modular, luxurious) lobby. Since it's all connecting, with everything right there fanning out in mirror image from a lavish nerve center on each side, it's effortless to get from one assignment to the next.

Life is bitten off in 40-minute

showers, a salt-glo loofa rub, no exercise.

If you fall by the wayside from ennui, and few do at this price, you move into low gear and idle away your time in the solarium, steam room, sauna, hot and cold plunges, the juice bar, the Jacuzzi, or in one of television lounges or reading nooks.

Or you can amble the 50 yards back to the low building that houses the rooms. Completely apart from Palm Aire's regular hotel facilities — so you never need smell a steak or see a martini en route to making someone happy — the Spa Hotel features spacious twin doubles, each with added luxury of two bathrooms and two dressing rooms.

Most evenings entertainment is provided

Ames, Iowa 50010
U.S.A.

Dear Mr. Johnson,

I received your letter, and I inform you that our treatment is useful in your case. For baldness you should use Gerovital H3 hair lotion according to the enclosed indications. For impotency it would be advisable an associated treatment of Gerovital H3 injections and pills. You may undergo it under the supervision of Dr. B. A. Adler (340 East 57, New York, N.Y. 10022) or Dr. Mitchell Kurk (310 Broadway, Lawrence, New York 11559, telephone /516/ 239-5550) who know very well our method of treatment.

The medicine can be ordered to our representative in England: ARCODE Ltd., Plantation House, Mincing Lane, London EC3, tel. 01-623 7074, telegrams Tenchim London EC3, telex 883476.

I would appreciate to receive further news from you.

Yours sincerely,

Acad. Prof. Ana Aslan, M.D., D.Sc.

ATTN. Dr. Ana Aslan

Dear Dr. Aslan:

Recently I received literature in the mail that described the amazing success you have had in treating many different physical illnesses including premature ageing with your Gerontal #3 treatment. I will describe two problems I have had. I have had a problem of a receding hairline or male pattern baldness since I was in my early 20's. I am now 34 years old. Do you feel Dr. Aslan that I could regrow the hair I have lost using your hair lotion with G-H-3 properties. I have watched my diet and am taking the B vitamins along with several other vitamin supplements. I feel I have a tendency towards baldness as my father was bald and 3 uncles also were. Also they may sound a bit unusual but I have had a problem with

(2)

impotency for the last seven years.
One morning when I was 27 I woke
up and didn't experience the morning
erection that I had in the past
when having sexual thoughts about
women. I also felt very tired like
I could hardly get out of bed
and I had a numb feeling around
the genital area region. I feel somewhat
better by taking a herbal formula
that includes the Mexican herb
Dianthus and several other natural
herbs and a vitamin supplement
treatment from a chiropractor but
I can't seem to get up in
the morning and I still don't
experience the desired erections.
I feel somewhat bitter towards
the impotency because there are
several younger women I have
met I would like to have dated
but the impotency has made me
shy away from asking them for
a date.

Do you feel Dr. Aslan that
Genital H-3 would cure this
condition and if so how long
would it take and would I have

P.S. If possible could you send me a sample of the Derivatal H-3 tablets and hair lotion. Thank you for your time in reading my letter. Dr. Carlson

Vincent L. Johnson

Vincent L. Johnson

314 So. 4th St.

AMES, IOWA 50010 U.S.A.

Additionally would it be at all possible that I could purchase the B-H-3 tablets and hair lotion from the National Dermatrics and Dermatology Institute in Peckham after an initial treatment at one of the health spas? Also would there be a mail-order source from any other representative after a beginning treatment with their original B-H-3 vaccines and tablets?

Dear Dr. Aslan,

I am very much interested in an article by Herbert Bailey concerning your development of a drug called Gerovital H 3.

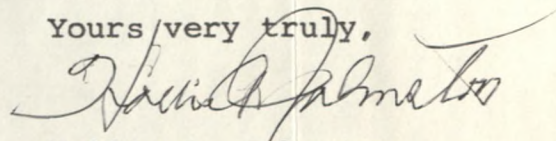

I have been troubled with degenerative arthritis for two or three years. Had an unsuccessful right hip replacement.

Now, I have considerable pain in my left leg, particularly the knee, the hips and in the thigh muscle. Currently I am walking with the aid of crutches.

Would like to find out if in your opinion an injection or injections of Gerovital H 3 might help me to walk without pain.

Also, the length of time the treatment might take and how long in advance would I need an appointment or reservation.

Yours very truly,

Hollis A. Johnston

Dear Dr. Acland,

Some time ago I wrote
you in regards to my illness
but did not get a reply.
I'm in constant pain
I've had for 11 years.
I suffer torture from
Arthritis. I've also had
several attacks of Phlebitis

I cannot take any
more and get crying spells
as a result. I was a very
active person before this
so you can understand why
I get so frustrated and
depressed.

I have read an
article about you and
your wonderful work you

are doing with cases like
mine and would love
to visit you to see what
you can do for me.
I have read that you have
cured thousands of people
with B. H. 3.. Wont you
please keep me?

I'm enclosing a self
addressed envelope for
your reply.

Many Thanks, and
may God Bless you for
all your wonderful help
to so many people.

Sincerely

EARL JONES
PRESIDENT

Dr. Asian
Geriatrics Institute
Bucharest, Romania

Dear Dr. Asian:

I am interested to know if it is possible to purchase GEROVITAL in the United States.

There has been so much publicity concerning this product and its benefits that I am interested in learning more.

You might, also, let me know in what countries GEROVITAL is available.

I would appreciate receiving whatever information might be available.

Sincerely,

Earl Jones

U.S.A.

Dear Mrs. Jones,

I cannot understand why your letter arrived at our Institute only on March 1st, 1974. Anyhow, I send you herewith a leaflet containing our general information about Gerovital H3 treatment.

In your case, a preventive treatment of old age phenomena should be undergone: 4 courses of 12 injections each alternated with 4 courses of 24 pills, according to the following schedule:

Gerovital H3 ampoules: one course of 12 injections in 4 weeks (an intramuscular injection of 5 cc every second day).

Follows an intermission of 30 days after which:

Gerovital H3 pills: one course of 24 in 12 days (two a day one pill taken after the principal meals).

Follows an intermission of 24 days after which another course of injections as above. To be continued by alternating courses of pills and courses of injections as above, with the prescribed rest intervals between the courses.

A tolerance test must be carried out before beginning the treatment although intolerance is very low. First day: one subcutaneous injection of 1 cc. Second day: one intramuscular injection of 2 cc. If after this test the patient does not present any allergic phenomena, he may begin the real treatment as above.

The medicine can be obtained by our representative in London: Arcode Ltd., Plantation House, Mincing Lane, London E.C.3, England. I hope that this year, Gerovital will be available in the U.S.A. too.

Hoping that you will be so kind to keep us informed about your further condition, I remain with my best regards,

Yours sincerely,

Aj

Dear Dr. Aslan,

Will you be so kind as to send me any available material and information about Gerovital H₃. I have been interested for some years and have used KH₃, and more lately, in London, I took a 24 tablet series of Gerovital H₃.

I am 67 years old, in excellent health, and wish to remain that way.

I will appreciate it if you will send the information by airmail, as surface mail takes several months and I am anxious to know all that I can as soon as I can about inhibiting the process of old age.

Yours sincerely,

Frances B. Jones

Dear Mrs. Jones,

I have received your letter of August 22 and inform you that in your uncle's case it is indicated a treatment by alternating courses of pills and courses of injections according to the enclosed schedule, which is more efficacious than the treatment with pills alone.

In order to obtain the medicine you can apply to Dr. Alfred T. Sapse, ROM-AMER Pharmaceutical Ltd., 233 South Beverly Drive, Suite 100, Beverly Hills, California 90212.

I shall be glad to give you any further information or whatever advice you might require.

Yours sincerely,

Prof. Anna Aslan, M.D., D.Sc.

Dr. Ana Arslan
Bucharest,
Roumania

Dear Dr. Arslan:

My uncle, Joseph Danber, who is 73 years old is senile and has had medical care for the past six years. His condition has been progressively worsened.

We obtained eight bottles of Gerovital, 25 tablets each, and have been administering these tablets to him for the past four months as prescribed, with a pause of ten days after each course of 25 tablets, a total of 125 tablets. We firmly believe that my uncle is improved physically as well as mentally since.

I would greatly appreciate it if you will let me know whether it is advisable to continue using the tablets or if there should be a pause of a longer duration after the five course series.

I would also appreciate hearing from you whether there is any history of record of the results to senile patients who have used these tablets.

As you know Gerovital has not, as yet, been approved by the Food and Drug Administration in the United States. However, we were able to get a prescription from our doctor for the tablets ordered and they were released to us by the Customs Department.

We first heard about Gerovital on a National TV Broadcasting program where you and several other people were interviewed.

I shall be most grateful to you for an early reply.

Sincerely,

Helen Jones

Dear Mr. Jones,

I am glad to hear that you want to undergo our treatment. If you want to undergo it at home, you may consult Dr. Madison R. Pope (Plant City, Florida 33566) or Dr. S. J. Wilson (Doctors Building 309 North New River Drive, East Fort Lauderdale, Florida 33301) who apply our method of treatment in Florida. The medicine can be obtained by our representative in the U.S.A.: Rom-Amer Pharmaceuticals, 233 South Beverly Drive, Suite 100, Beverly Hills, Calif. 90212.

Should you consider coming to our clinic for examination and a period of treatment under our direct supervision, I am sending you a list with our conditions.

Yours sincerely,

Dear Madam:

I am interested in buying from you a supply of your medication Gerivital H2.

Kindly send me your prices for the least quantity you sell, and also, if a larger quantity would mean a lower price.

I was born in Banat Bashaid, Yugoslavia, but have lived here in the United States most of my life. Now I read of your discovery, and wish that I were in Europe.

The Pills would be the method I am interested in, since shots are not my cup of tea.

Hoping that you are able to answer my letter, as soon as you receive it,

Sincerely,
Katherine Jones

Dr. Ana Aslan
Director, Parhon Institute of Geriatrics
Bucharest, Rumania

Dear Doctor Aslan:

I have just finished reading with great interest an article which appeared in a recent magazine published in the United States. This report deals with your "Procaine" injection treatment for the relief of the symptoms of old age, as well as beneficial results for various other deseases, including asthma.

I am presently totally disabled with a severe asthmatic condition, made partially bearable only by the constant application of various medications and inhalators. I would therefore appreciate a reply to the following questions regarding your treatment:

- (1) Is it an absolute necessity that I be treated in your clinic?
- (2) How long would I have to stay, and what would be the cost?
- (3) Is there a Doctor, or a clinic, here in the United States who offers your treatment? If so, where is it located, and to whom should I direct my inquiry?
- (4) Will you ship your drug to the United States, complete with instructions for administering it? If so, under what circumstances and at what cost to me?

I have enclosed a postage paid return envelope for your use in making your reply, and your early consideration and response will be greatly appreciated.

Yours very truly,

Fred Lee Jones

Dear Dr. Aslan,

I am writing to you knowing full well how busy you must be, but hoping that you will find time to answer my letter and hoping that since I cannot write in your lovely language that you will forgive me for writing in mine.

There have been several newspaper articles recently here in the States concerning Gerovital. In one such article mention was made to Gerovital's ability to restore skin pigment.

I suffer from Vitiligo and am losing more and more pigment from my legs, arms

hands, body and neck. I am 44 years old and this first appeared 2½ years ago. There is no history of Vitiligo in my family but I have had a thyroidectomy and I understand thyroid problems sometime precede Vitiligo.

Would you please advise me as to what degree success has been made in restoring pigment with Gerovital and if it is ever used in the treatment of Vitiligo. I have been treated for 2 years with photochemotherapy (Psoralens and then exposure to PUVA ultra violet light). There has been no improvement and I am still losing pigment. Psoralens, as I am sure you are aware, can cause cataracts in the eyes and premature skin aging.

Your kindness in responding to this letter would be deeply appreciated.

Sincerely,
Mary Ann Jones

 Dear Madam,

I am writing in regards
 to your Dermatol. V-H-3
 Would it be possible for
 you to help me or send
 me some or tell me
 where I can get a hold of it
 as I have taken some I
 bought Black Market.
 I have never seen the
 likes of that pill. I am
 64 yrs old and have burstis
 all over my body.
 That vitamin pill to
 me is a priceless gift to
 humanity. It is also
 quite a threat to the Drs of
 Medicine. Please advise
 me of how I can get it.

different from the first
one's I bought from him.
I didn't get to hear you
speak on TV but am terribly
sorry I didn't hear what
you had to say about
Gerovital G.H.B.

I & I could afford the
trip I would love to go thru
your Clinic, but we are
on a fixed income.

Please help me or
advise me where to get it.
I respect you so highly.

Sincerely
Marilyn Jones
1111 Ash St. #401

If I thought it possible
to get the product I would
start distributing business,
here in Denver.

My husband and I
manage the Cadillac Club's
I have started lots of
people already on it but I do
believe what he's seeing
me now is different than
the first I purchased.

Sincerely
Mayme Jones

It has done wonders
for my eyesight.

I used to yawn every day
not enough air reaching
to my lungs, that is all
gone! You should see
the improvement of my
ears, my hair has
been thin on top it is
getting thicker.

When you say it
rejuvenates that is the
truth.

If it is possible for
you to send it C. O. D. that
would be fine. I purchased
mine at a Nutrition Store
I have mailed it to
Montana, San Diego &
Neby.

I have reason to believe
the last ones I purchased

Dear Mr. Aston,
I have been aware of your clinic and your miraculous medication, since the 1973 issue of 'Town & Country' Magazine.

All this time I have hoped to be able to come to Bucharest, but the expense from Dallas, Texas to your clinic has been and continues to be too great.

Therefore, before any more time passes I decided to write to you.

I very much would like to have your wonderful medicine for me and my husband.

We have both just had our yearly physical examination, which is very thorough, from our medical doctor. We are both in excellent physical condition. I am 44 yrs. and my husband is 51 yrs.

I know with your help we could remain this way for a long, long time, if there is any way of obtaining your medication, and at a price that we could afford.

We would both be so very grateful to hear from you as to what we could do since we find it impossible to come there.

I know you are an extremely busy doctor, and we would very much appreciate your kind consideration of our problem.

Thank you,
Very Sincerely,
Shirley Jones

This is a strange country
also. The war is so very
very bad. It's possible
we may all be dead in
a very short time.

This is an island
surrounded by water
overwood the sides
is a river that reflects
when there is a lot
of sun. Unfortunately
it's clear now. But
this is the favorite

No doubt well this is
Cassoway. No doubt but
but we are still free
for as long as it is
permitted. But no one
tells you what to do
here. Yes I am also
very ~~ill~~ ^{ill}. But traveling
is not good right now
We have cool temperatures
here. No smog. Not much
industry either. But
they fish & they're very
close to the Russians &
then some.

Well I must close now
if you must answer
this. I do like
foreign stamps. Well
hope you are all fine
also. Dad to say,

Regards.

Dr. Anna Aslan
Aslan Institute of Geriatrics
Bucharest, Rumania

Dear Dr. Aslan,

I have a thirteen year old daughter who has recently been diagnosed as having Raynaud's Disease.

After a series of muscle and blood tests, all of which were negative, the doctors ruled out collagen disease for the moment. The tests were done at Mr. Sinai Hospital. Heart disease was also ruled out.

The only recommendation the doctors made was that she live in a warm climate and that we should retest in six months.

It is my understanding that you have been treating this disease at your Institute. If you feel that it would be worthwhile I would bring her to your clinic for you to see her and perhaps treat her.

We have recently come from Portugal where we had been living for the past five years. I first noticed that her hands were unusually red and rough two years ago. That is when we moved to the Algarve. She has always had cold and moist hands and even as an infant had sweaty feet.

You can imagine my concern due to her young age and I would appreciate a reply as soon as possible. Thank you very much.

Very truly yours,

Anne Jordan

Dear Doctor:

I have recently read in a leading U. S. magazine your discovery of a new drug called Gerovital (KH-3) with a great deal of interest. I also read that it is available in certain European countries priced in the quantity of 200 ea. for \$11.70. In America, I read that a quantity of 150 would sell for as high as \$250.00 which is way out of line for me. I would appreciate it very much if you could advise me which manufacturer I could contact for purchase or would it be possible for you to mail to me an adequate quantity, and I would mail you a check or money-order, or pay on a C.O.D. basis.

I would like to thank you for taking the time to read my letter and await your reply with hope.

Very truly yours,

John Jordan

DEAR DR. ASLAN: MAILED YOU A PACKET OF MISCELLANEOUS BOOKLETS, CLIPPINGS, ETC. SOME MAY BE OF INTEREST AND SOME NOT. WILL TAKE A MONTH OR SO TO GET THERE.

YOUR MEDICATION AND AN EXTENSIVE COVERAGE OF WHAT YOU HAVE DONE AND WHAT IS BEING DONE IN LAS VEGAS, WAS FEATURED ON AN HOUR LONG TELEVISION FEATURE RECENTLY. TOO BAD YOU WERE NOT IN THE PICTURE. YOU HAVE CONTRIBUTED SOME IMPORTANTLY TO THE CAUSE OF AGING. CERTAINLY YOU SHOULD BE CONSIDERED FOR THE NOBEL PRIZE.

I BELIEVE IN LAS VEGAS YOU HAVE TO GO TO A DOCTOR, PAY SOME THING LIKE \$40 FOR CONSULTATION, AND THEN BUY THE DRUG PRESCRIPTION FOR ANOTHER SIZEABLE AMOUNT. THERE IS NO HOSPITAL SET UP LIKE YOURS. ONLY PLACE IN U.S. IT CAN BE PURCHASED. AND I WONDER IF IT IS THE REAL GENUINE THING. ???

I TRIED TO BUY SOME IN MEXICO, BUT NO LUCK. AND I DO NOT HAVE A TRIP TO EUROPE PLANNED NOW. AND I FEEL IF A REQUEST WERE MADE TO BUY IT FROM A SOURCE THERE THE CUSTOMS DEPT. OF THE U.S. WOULD CONFISCATE IT!

IN MEXICO I DID FIND THE GERMAN KIND K H 3 which they recommend at 1 capsule daily. (Schwarzhaupt, cologne, germany). Also ZELLAFORTE PLUS, RED COLORED TABLETS (Anstalt fur Zellforschung P.O.Box 938, Vaduz F.L. Principality of Liechtenstein, Distributed in Mexico by Mision de Baja California S.A. Ave. Ocampo 1345, Tijuana. B.C. Mexico. IS THIS THE SAME TYPE AS YOURS?? I BOUGHT A BOX OF 120 tablets at \$26.00 and am taking them three daily. Or sometimes only one tablet daily, after meals.

The ingredients are a very long list, see xerox copy of their enclosure. Am sure you have all this information but in place of yours, since I cannot purchase it here is this acceptable, until I can get your preparation.?

Business here in the U.S. has slowed down a great deal due to the recession. Costs continue to increase but not salaries. So it is more and more difficult to make a living and have the things one desires. Nevertheless the big people continue. Hilton Hotel Corp. is building a 1000 room hotel in front of the Anaheim Convention Center where I work, and have announced the one night cost of rooms will be \$111.00!! So none of us will stay there. And it will eliminate most of the visitors to Disneyland across the road.

NO doubt you are travelling and lecturing some of the time. Our presidential elections are taking the headlines now, but unfortunately we do not have two really outstanding men, Reagan and Carter, as the contestants. There are so many, many great men in the U.S. but most prefer not to run for the job as it is a killing job on any man. And so much dirty politics.

I hope you are well and enjoying life every day.

Kind regards,

Dear Doctor Aslan:

My, what a shame that during your visit in the U.S. I was in Mexico and a good deal of mail that was to have been forwarded was not done. So your letter suggesting I call the Roumanian Embassy did not reach me until later.

I hope you had a pleasant stay, and just wonder if you came out to the Western part of the country?

I am sending again some miscellaneous material that may interest you. What you do not care for throw away. I wrote the firm in England but have not heard...however, I thought it would not be possible to secure from them since your preparation is not approved in the U.S. yet.

We have had record breaking rains here in California causing much damage and heart break for home owners. But the gardens are bright in flowers, and many meadows are green much earlier than usual. However there are losses...this area is the leading strawberry growing area in the U.S. They estimate a \$98,000,000 loss in this crop alone!

My kind regards,

Robert Jordan

Ronald Reagan's age not a problem

By KEVIN P. PHILLIPS

WASHINGTON — The New Republic, for anyone not acquainted with that distinguished publication, is a magazine of such proven liberal credentials and fidelities that it can indulge in an oddity or two that might be denied more predestrian left - of - center enterprises.

Perhaps we shouldn't be too surprised, then, at the magazine's recent declaration that inasmuch as Ronald Reagan's policies deserved so much to be repudiated on ideological grounds, it would be a shame for Reagan to be beaten in 1980 only because of his age. Ah, well, most people in politics have learned to take their victories any way they can get them, but not the gentlemen of the New Republic. So they went out and, contrarily, undertook what must be the first media survey of gerontologists and other medical specialists on the former California governor's bio - chronological fitness to be president.

The results were fascinating. Writer Walter Shapiro — if I can be allowed the flexibility of paraphrasing him — came to two important conclusions.

First, that none of the reporters who make occasional snide remarks about Reagan's age have ever bothered to contact experts to see if their innuendo has any basis in fact. (Too true: This columnist must admit to previously discussing the negative implications of Reagan's age without undertaking any such research.)

And second, that the general consensus among the experts interviewed was that if they agreed with Reagan's politics, they would be willing to vote for him, because his age — 69 — isn't advanced enough to make it a legitimate issue.

Perhaps the most significant finding comes from a simple insurance mortality table. The truth is that Reagan has a much better chance of

surviving until his 80s than hyper - vigorous George Bush. At 55, so the actuarial experts say, Bush had a further life expectancy of 20.4 years.

In contrast, the odds are better than 50-50 that Reagan will reach his 80th birthday (which would enable him to serve two full terms as president). Nathan Shock, former scientific director of the National Institute on Aging, expresses it this way: "If you manage to reach the age of 70, you're a survivor."

Carl Eisdorfer, a psychiatrist at the University of Washington Medical School, observes that "as a society, we make a big distinction at age 65, but the real age distinctions do not begin to shape up until the mid-70s. That's why we like to distinguish between the young - old who are between 55 and 75 and the old - old who are over 75."

I imagine that's a distinction that former Gov. Reagan, at age 69, would agree with, and it's probably a valid one.

Certainly, the New Republic's findings tend to validate the candidate's own arguments that if Winston Churchill, Konrad Adenauer and Charles De Gaulle could serve as governmental chief executives during their 70s, then why not Reagan? At any rate, it's more than a little ironic to read that Ronald Reagan has a greater age expectancy than George Bush, at least according to the actuarial experts.

Under the circumstances, maybe the former CIA director ought to rest up and stop risking a heart attack with those daily three - mile runs designed to insinuate that Reagan, by comparison, is old and decrepit.

New Republic author Shapiro concludes by saying that "there are so many better reasons to oppose a Reagan candidacy for president that it is a shame to sacrifice him on the altar of premature senescence." The last half of the sentence, at least, makes good sense, and conservatives will find the New Republic's gerontological research a clear - sighted contrast to its ideological myopia.

ADVICE FROM THE HEALTHIEST AMERICANS—HOW TO STAY WELL AND LIVE LONGER

What Hawaiians have done—and are doing—to achieve their outstanding good health can be an inspiration and a guideline to us all. By DONALD ROBINSON

'In 1977 the Hawaiian death rate from atherosclerosis was an infinitesimal 1.6.'

The residents of Hawaii are the healthiest people in the United States—and they are growing healthier every year. Consider these cheerful facts:

- According to the National Center for Health Statistics, the average person in Hawaii lives three years longer than people in the other 49 states. At last count, life expectancy in Hawaii was 75.9 years compared to 72.8 years for the U.S. as a whole. Women in Hawaii live still longer—to an average age of 77.85 years. They have the longest life expectancy of any women in America.
- Life expectancy in Hawaii has been steadily increasing. Overall, it has gone up almost two and a half years since the 1970 census.
- At last report, the death rate in Hawaii was just 4.9 per 1000 people. For the U.S. at large, it was three times as many.
- The infant mortality rate for the entire U.S. was 15.2 per 1000 live births in 1977. In Hawaii, the death toll among infants was 10.6. That was a drop of 43% since 1970 when Honolulu hospitals intensified their efforts to improve the care of premature babies.
- Not one Hawaiian mother died in

childbirth last year. Says George A. L. Yuen, director of the State Department of Health: "Hawaii is the safest place in America to give birth."

- It is the same good record with the nation's three worst killers—heart disease, cancer and stroke. Heart disease cost 336.2 lives per 100,000 population in the U.S. in 1977. In Hawaii, it killed

only 147.9 per 100,000.

- Cancer claimed 171.7 lives per 100,000 in the U.S.; only 125.3 per 100,000 in Hawaii. Most women's cancers were fewer, for example. At last report, breast cancer took 14.5 lives per 100,000 women in Hawaii vs. 22 per 100,000 in the rest of the country.
- Stroke killed 40 per 100,000 in Hawaii, scarcely half the fatal stroke score elsewhere in the U.S.
- Atherosclerosis, hardening of the arteries, caused 13.6 deaths per 100,000 population in the U.S. in 1977. In Hawaii, the death rate from atherosclerosis was an infinitesimal 1.6.
- Hawaii has less flu and pneumonia, less diabetes, too.

Looking at statistics like these, you

MEN LIVE LONGER TOO

Women who are eager to help their husbands live longer might consider the Hawaiian record: Women in Hawaii live an average of one-and-a-third years longer than women in other parts of the U.S. Men, however, live five-and-a-third years longer in Hawaii than men on the mainland. The male life expectancy in Hawaii is 74.03 years. On the mainland, it's 68.7 years.

'Not one Hawaiian mother died in childbirth last year.'

realize why Dr. Paul M. Ellwood Jr., the president of Interstudy, the prestigious "think tank" on health problems and the nation's top authority on the delivery of health care, states: "By every objective measure that we have, Hawaiians are the healthiest Americans."

HEALTH GUIDELINES FROM HAWAII

At the request of FAMILY CIRCLE, the Hawaii Department of Health shares an eight-point program based on the guidelines of its "Wellness Plan" to help the rest of America arrive at Hawaii's splendid health status:

1. Be sure you get sufficient exercise, and be sure it is the right kind of exercise for you.
2. Watch your weight.
3. Get adequate rest and recreation.
4. Try to manage your stresses so they don't take over your life.
5. Strive for emotional awareness; keep in touch with your feelings.
6. Have regular medical checkups.
7. If you have hypertension or any other chronic condition, get it under control and keep it under control.
8. Make sure that your family has enough health insurance; it can save you lots of anxiety.

Does the genetic background of the Hawaiians give them an inherited health bonus? Probably not. It is said that "every resident of Hawaii belongs to a minority." About one third of the 868,000 Hawaiians are Caucasians; a little more than 28% are of Japanese extraction; about 13% are Filipinos; slightly less than 12% are native Hawaiians and about 6% are Chinese. Most of the remainder come from other Pacific islands. Hawaii does have a young population. The median age *To page 73*

'Women in Hawaii have the longest life expectancy of any women in America.'

PRESENTING THE BEST WAY TO CLEAN UP THE WORST JOB IN THE KITCHEN.

You know that cleaning the inside of the oven is the worst job in the kitchen.

At General Electric, we've known this for a long time, too. That's why in 1964 we came up with a unique solution to the problem.

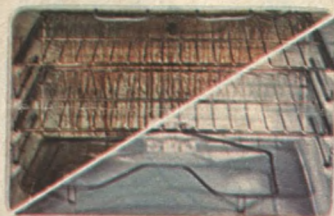

In 1964, we invented the self-cleaning oven. Many are still in use.

We invented the very first self-cleaning oven. Since then, GE has produced and sold over four million of them. Which means that millions of people are now free from getting down on their hands and knees to do the dirtiest job of them all.

How a GE self-cleaning oven does the dirty work for you.

It takes just a few seconds to set the controls on a GE self-cleaning oven, and the oven goes to work.

It cleans off splashes from casseroles, spills from soufflés, even stubborn baked-on stains that once needed endless scrubbing. Even those awkward corners and nooks and crannies are left spotless.

The oven cleans itself.

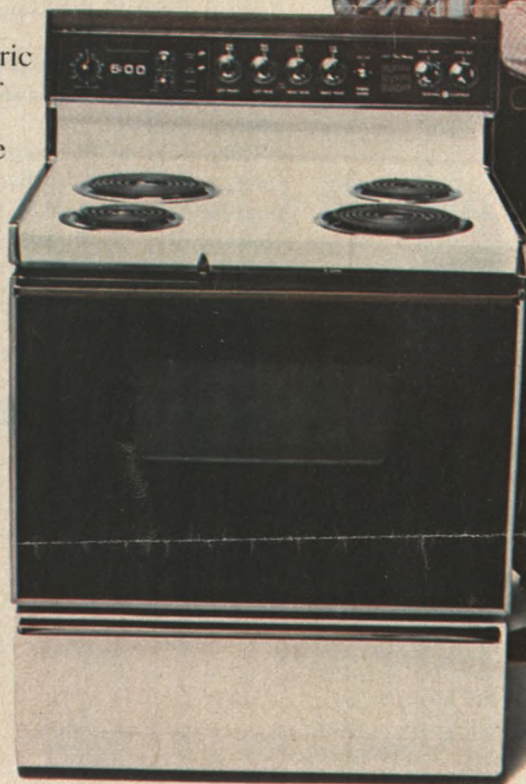

And you should know that the General Electric self-cleaning system gets your oven much cleaner than any continuous cleaning system. The GE self-cleaning process costs only pennies each time you use it, too.*

A choice of styles to suit your style.

General Electric offers you a complete line of self-cleaning ovens to choose from. So whatever style of oven you want – built-in, slide-in, freestanding, single or double oven – there's a GE self-cleaning oven that's right for you.

The GE self-cleaning ovens. The best way to clean up the worst job in the kitchen.

This is the JB500, our most popular self-cleaning oven. Its modern detailing includes a precision digital clock and timer, attractive wood-grain vinyl trim and a glass control panel, together with three special features to help you save energy.

*Based on a national average cost of 3.8¢/KWH for electricity.

YOU CAN COUNT ON GE FOR GREAT IDEAS IN COOKING.

GENERAL  **ELECTRIC**

OUR HEALTHIEST STATE

From page 22

is 28.3; but for the country as a whole the median age is only 29.4.

Why then does Hawaii have such good health?

Experts point to four key reasons:

- The climate
- The sensible Hawaiian life style
- The State's fine health-care system
- The fact that the government of Hawaii is deeply committed to safeguarding the health of its citizens. "We Hawaiians treasure our good health," declares James L. Swenson, administrator of the Health Planning and Development Agency.

The *climate* is, of course, close to perfection. In midwinter, the temperature in Honolulu seldom drops as low as 65° F. In summer, the thermometer rarely reaches above 87° F. Cloudless blue skies are the rule. As a result, Hawaiians spend much of their lives outdoors and go in strongly for *physical exercise*. The city of Honolulu has 10 times as many joggers per capita as any other city in America.

"The amount of outdoor activity here is really incredible," says Jonathan R. Won, executive director of the Hawaiian Medical Association, "and let me tell you, it pays off in good health."

Life is paced more slowly in Hawaii than it is in most parts of America. "We don't work too hard and we don't play too hard," Won states. Heavy drinking is frowned upon. It is no accident that the incidence of alcoholism in Hawaii is the lowest in the U.S.

Something wonderful called *Ohana* plays a pivotal role in the islands. It is a traditional Hawaiian concept of the "extended family." Won explains it this way:

"When a Hawaiian has a serious problem—marital, medical, financial or any other kind—all of his family and close friends get together, sit around in a circle and say: 'Hey—it's our responsibility to help our family member solve his problems.' And they do."

It greatly reduces the stress and strain of everyday life.

Low-cost Medical Care

Significantly, the *medical care* in Hawaii is excellent. The ratio of doctors to population is one of the highest in the nation, and the doctors are topnotch. They have to be. Says Won:

"Honolulu is the biggest small town in America, or the smallest big city. We are geographically isolated. So every physician knows or knows of every other physician. A doctor can't get away with anything."

Hawaiian doctors have been trained not to put people in hospitals unless it is absolutely necessary and to keep patients in the hospital no longer than they must. The chances of an individual going to a hospital are actually 50% less in Hawaii than in the rest of the country and the average length of a hospital stay is appreciably lower—5.9 days in Hawaii versus 7.6 on the mainland.

Best of all, the average person doesn't have to worry about medical bills. Hawaii is the only state in the union

Discover it:
The soft perm called Rave™

No ammonia. No odor. No frizzies.

This is the perm that doesn't look permed. Or feel permed. Or act permed. The home perm that's gentler to your hair.

What makes Rave so different?

A gentle, odor-free waving lotion that works without ammonia. Gives your hair body without brittleness. Fullness without that old-fashioned frizzy look.

• So your hair looks completely natural.
• But better. Much better.

Can I wear my hair smooth or softly curled with Rave?

Naturally. Rave brings out qualities in your hair you never knew it had, so you can style in ways you never thought you could. You can set your hair on rollers for soft, bouncy curls. Brush and blow-dry for a full, smooth look. Or just shampoo and fingerfluff. Use *The Rave Book of Classic Hairstyles*—free in every box.

Photograph: Skrebnicki

with compulsory health insurance. Under state law, every employer must pay at least half the cost of a health-insurance policy for each employee. Over 99% of the residents of Hawaii now have health insurance.

The Hawaii Medical Service Association (H.M.S.A.), the Blue Shield plan for the islands, covers the hospital and medical bills of more than half of the people—484,000 of them. It provides more benefits for less money than any other Blue Cross or Blue Shield plan in America. Unlike most other plans, H.M.S.A. covers surgery done on an outpatient basis. It even pays for surgery done in a doctor's office.

Last February, a 28-year-old woman had a cyst removed from her breast in a doctor's office in Honolulu. The doctor's fee was \$260. "Most Blue Shield plans wouldn't have met that bill," Albert H. Yuen, H.M.S.A. executive vice-president, said. "We paid every cent."

H.M.S.A. members may go to any doctor or hospital they choose. A family plans costs \$63.62 a month.

Some 107,000 people belong to the Kaiser Foundation Plan (K.F.P.), a health-maintenance organization with its own hospital, nine out patient clinics and a staff of 100 physicians who offer unlimited medical and hospital care. The cost for a family is \$68.92 a month.

Not long ago, Mrs. Michelle Thomas gave birth to twin babies prematurely in the Kaiser Foundation Hospital in Honolulu. One boy was in a pediatric

pulmonary-care unit for 11 weeks and the other twin also had to be hospitalized for a month. This care would have cost a nonmember \$44,571. For Mrs. Thomas, the K.F.P. covered the costs completely.

Competing for members, H.M.S.A. and the Kaiser Plan have exerted immense pressure on doctors and hospitals to keep charges down. Although Hawaii's living costs are extremely high, its medical costs are very low. The average semi-private room goes for \$110 a day in Honolulu; in New York City, it is \$280.

The "Wellness" Factor

A chief reason for Hawaii's good health is the work of the State Health Department. Under Yuen's leadership, it has conducted the most successful child-immunization program in U.S. history: 99% of all school pupils have been vaccinated against measles, rubella, polio and other childhood diseases. Every school child is examined regularly for vision and hearing defects. The department also screens the adult population for hypertension, TB, leprosy and VD. It inspects every restaurant and food establishment for cleanliness.

Significantly, there is virtually no air or water pollution in Hawaii. "We don't stand for it," Yuen says.

But perhaps most significant is that Hawaiians take good health seriously. Last year, the state Health Planning and Development Agency (H.P.D.A.) gathered a list of the 59 health problems

that most concern the people of Hawaii, everything from the availability of family physicians to the cost of open-heart surgery. Very high on the list was a new item—*wellness*.

"We found that our people are interested in more than curing illness," James Swenson, H.P.D.A. administrator, declared. "They want to know how to stay well."

As a consequence, a top-level committee representing all sectors of the community was formed to draft a Wellness Plan. The plan lays down guidelines (see box, page 75) for exercise, diet, personal health care and different aspects of preventive medicine. It stresses that it is the responsibility of each Hawaiian family to draw up and practice its own wellness program.

This spring, the Hawaiian government sponsored the first Wellness Celebration in the nation. Workshops, demonstrations and other activities were scheduled throughout the islands to teach people how to attain and maintain wellness.

Everyone can learn from the Hawaiian definition of wellness: "The wellness of life is a life style that *you* design to achieve *your* best potential for well-being. It involves your whole being: nutrition, physical vitality, emotional stability as well as spiritual, and how you relate to your environment." ■

For information on how to organize a Wellness Celebration in your community turn the page.

New research findings . . .

ON WALKING . . . nature's own amazing "anti-age antibiotic"!

Not running, not jogging, but *walking*
is your most *efficient* form of exercise
and the *only* one you can *safely*
follow *all* the years of your life!

Today, after some 2000 years, modern medical researchers are demonstrating (somewhat to their surprise) that Hippocrates, "the father of medicine" was right . . . walking is man's best "medicine"!

Take one example. At a three-day conference on *Exercise in Aging—Its Role in Prevention of Physical Decline* (held October 27-29, 1977, at the National Institute of Health, Bethesda, Maryland) researchers from across the United States, Canada and Western Europe presented papers on this (until now) largely neglected area of research. As their papers were presented, these important points of agreement emerged:

(1) Walking is the most *efficient* form of exercise . . . and the only one you can safely follow all the years of your life.

(2) Exercise can enable your body to maintain a *vital reserve* which has a protective effect during stress.

(3) Exercised *bones* do not demineralize. As a result they are far less likely to break or lose their range of motion.

(4) Exercised *lungs* still exhibit the emphysema-like changes of age, but are far less diminished in their capacity compared to the lungs of sedentary people.

(5) Exercised *cardiovascular systems* show a similar maximum preservation of function.

(6) The benefits of exercise in preventing or correcting obesity are striking.

(7) Late-onset diabetes is almost entirely reversible by exercise if you are overweight.

(8) Daily exercise permits greater food intake and better blood circulation, thus improving each body cell's nourishment while preventing obesity.

(9) The physically impaired, particularly the arthritic, can perhaps benefit the most from exercise . . .

Dear Mrs. Joseph,

In answer to your letter, I would like to inform you that your husband could undergo our treatment with Gerovital H3.

My secretary will send you herewith enclosed a general schedule of treatment.

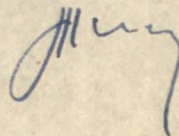

Soon, you will find our original product in Nevada, at Rom-Amer Pharmaceuticals Ltd., Valley Bank Plaza, 300 So. 4th. St., Las Vegas.

After a few courses of treatment, please, inform us of the results.

Looking forward to your news, I remain,

Yours sincerely,

Acad. Prof. Dr. Ana Aslan

Dear Dr. Aslan,

I have been given your name by some friends and Dr. Lapse.

MINISTERUL SANATATII
Institutul National de Gerontologie
INTR. 282
1977 luna V ziua 9

My husband has Parkinsons Disease and is unable to balance himself and his movements are very slow. Is there any possibility you could help him? He goes to the hospital at the University of California Los Angeles and they do not seem to have any more help than "SINEMET". He is not responding to that. I know "L-DOPA" has been tried on some Parkinsons patients but according to the Doctor at U.C.L.A., they do not respond, so he will not try it.

I would appreciate any advice or help you can give.

Thanking you for your prompt attention.

Yours truly,
Mrs. Rose A. Joseph

P.S. Also his speech is very indistinct.

Dear Mrs. Joy,

I have received your letter and since you are interested in our treatment, I'll send you a brochure about the geriatric treatment and possibilities of attending it.

As regard the prices, I have informed the National Travel Office which is in charged of our financial problems, to send you a list of prices according to different places of treatment.

Yours sincerely,
Acad. Prof. Dr. Ana Aslan

Dear Dr. Aslan:

I have read in the American newspapers about your clinic and would be delighted to know more about a visit to your spa.

Would you be kind enough to send me brochures, availability of reservations and prices.

Thanking you in advance, I am

Dear Sir,

I am glad to hear that you want to come to our country for treatment together with your husband.

You may come at any time, only please be so kind and let us know by a telegram or a telephone call the date of your arrival in order to make the respective reservations and to assure you the transfer from the airport to the clinic.

I send you enclosed herewith a brochure with our general information about geriatric care in Romania.

Looking forward to see you soon, I remain with my best regards,

Yours sincerely,

Dear Dr. Aslan,

We read an article in our local newspaper regarding your offer of "The Keep-Young Package" for \$600.00 for a 14-day vacation.

We would like to come to your clinic, but my husband is a State Senator and his schedule will only permit him to leave the country between the dates of March 5, through April 15, 1975.

If there is any way that we could make reservations at that time, please let me know at your earliest convenience. Also would you send me any information or literature regarding the treatment.

Sincerely,
Senator and Mrs. J. E. Jumonville

P.S. Is it possible to attend the clinic on an out-patient basis if you are really crowded at this time?

March 20, 1959

Dear Mr. Jungwirth,

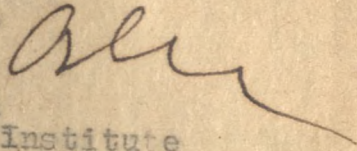

I have received your letter of February 10 and thank you for your interest concerning our work.

In answer to your request, I inform you that certain of our papers and articles have been translated into English in New York. You might enquire directly at the following address:

Miss Frances Colman, Consultants Bureau Inc., 227 West 17th Street, New York 11, N.Y. USA.

H3 has recently been produced on an industrial scale under the name of "Gerovital-H3", by the Ministry of Oil Industry and Chemistry and its sale is handled by: "Chimimport", str. Doanei 12, Bucharest. It is available for export and the above mentioned institutions could give you information in this respect.

Yours sincerely,

Prof. Dr. Anna Aslan
Director of the "C.I. Farhon" Institute
of Geriatrics

Dear Madam,

we duly noted the contents of your kind letter of the 22d May and are sorry indeed, that in our quality of clinic and Institute of researches we are not able to export our medicine.

In order to help you, please, find hereby enclosed some material.

At the same time, we want to suggest you to contact:

- Mr. Alfred T. SAPSE, M.D., Director ROM AMER
PHARMACEUTICALS Ltd., 233 South Beverly Drive,
Suite 100, Beverly Hills, California 90212

Awaiting always your further news, we remain,

Yours sincerely,

send me a supply of
Gervitol H3 cash on delivery.
I am female, age 41, mother of
five boys.

I am very tired, depressed.
Most of all I believe I have
arthritis. Every bone + joint hurts
especially the back.

I would like to try Gervitol H3.
If it cannot be mailed to U.S.A.
perhaps I could pick it up in
Canada.

I really need some help but
cannot come to Romania.

Thank you for helping me.

Dear Mrs. Jupin,

I received your letter and I inform you that our treatment is not used in cases like yours. It would be better to try to undergo a chemotherapy.

Sending you my kindest regards, I remain

Yours sincerely,

Acad.Prof.Ana Aslan, M.D., D.Sc.

Dr. Ana Aslan

Email indicates
chemotherapy:-

I read an article in a newspaper concerning ms Lou Wright and the treatment which you gave her and the results.

I wrote to her and received information about you and your treatment, C H-3 which you gave her.

I have had my breast removed about four years ago. Last year in the month of Feb. they said that cancer had returned to the Coccyx bone, my hip, a small spot on the skull and on the rib cage where I had my breast removed. All places were diagnose as cancer by Xray.

I have had radium on the Coccyx bone and I'm now taking Chemotherapy which doesn't seem to be helping to much. I would like to know if your treatment could help me like it did ms. Lou Wright?

I'm willing to do whatever you suggest.
I would be willing to come once, if you think
your treatment can help me.

If you want, I'm able to send you
my X-rays, if you think it will help you
to understand my condition. My hip makes
me limp, my rib cage hurts all the time.

I'll appreciate any help that you can
give me concerning my illness. Please
answer me as soon as possible. My age
is 54 yrs. weight 120 lb. married and have
four children.

Thank you
